

Dear Sir,

Per our conversation on 8/25/98
I am sending you a letter indicating
what happened.

While sufting in the rifle in
preparation of hunting season
the shell seemed to have misfired.
It blew the bolt action out of the
rifle & destroyed the magazine
holder and plate.

Please look into this situation for
me as soon as possible and
expedite (if at all possible) the repairs
necessary.

Thanking you in Advance,

Edward Smith
