

Dear Sirs

There is something bad wrong with this safty on the gun goes off when you flip it off safty to fire. And I shutter to think what could have happen if I wasint a safty minded hunter. Shats why if you can't make 100 percent this don't happen again. I don't want this rifle. Ethe send me my money back or a new gun. I will never feel safe with this gun again. And safty is the most important thing. Don't you agree.

Thank you

James D Atwell owner

P.S. This rifle is not a year old yet!
