Dear Sirs,

This weapon is dedicated to the Sniper Unit of our Special Operations Response Team. We were lucky enough to have this weapon break down and fire unexpectantly on our range, and not in a duty situation. Can you imagine the liability if this had misfired in an actual duty situation? I am disappointed to say the least.

I have several officers that will be going to sniper training the 11<sup>th</sup> of March and I need this weapon back before that date. Please have it repaired and returned.
