Subject: MALFUNCTIONING TRIGGER

DENNIS

MONDAY JUNE 12 I SPOKE TO A JOHN TITTLE WHO HAD JUST BOUGHT A 40XB RIFLE. HE CLAIMS THE GUN WENT OFF WHEN THE SAFE WAS RELEASED AND CAUSED HIM TO SHOOT HIS TRUCK. HE ALSO STATES THAT NOW THE FIRING PIN WILL ONLY COCK WITH THE SAFETY ON AND GOES OFF WHEN IT IS RELEASED. IT SOUNDS LIKE A BROKEN CONNECTOR TO ME. HE HAD SHOT THE RIFLE PREVIOUSLY WITH NO PROBLEMS. HE ALSO SEEMED MORE CONCERNED ABOUT THE THROAT IN THE CHAMBER THAN THE TRIGGER PROBLEM. I SENT HIM A 2 DAY AIR CALL TAG AND ADVISED HIM TO SEND IT TO US FOR REPAIR. HIS TEL. # IS 610 779 3603 IN CASE YOU HAVE REASON TO CALL HIM

JOE
