MAINTENANCE
26345

MAIN FAULT *Left Mag 1980, upon receipt the rifle would occasionally follow
down when closing the bolt. Examination revealed that the action and
trigger assembly are covered with a heavy sticky substance. The rear sight
then is almost seized up, it would not adjust. Rifle action poorly*

PARTS

COMMENTS *Replace the compact trigger assembly
and clean the action w/ 1/2 the normal
specimen, in question of good work*
