RE: Case #2411

Dear Mr. Umstattd,

We were sorry to learn about the unfortunate incident you experienced with your Model 700. As I understand it, the rifle fired when you closed the bolt. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,
