Remington Arms
To who it may concern

I have purchased
four model 770 on Monday
12/1/08 at walmart
After Bringing home the
Rifle, I put the Bolt in.
I noticed immediately,
That it was not correctly
cycling seems Pulls to far
back and hangs up to
were you need to wiggle
The Bolt to get it closed.
I call Remington The next
day Tuesday 12/2/08 I
was told that it needed
to Be Broken it. Then
I was told to send it
too a Service center

But that's how that
gun is.

I called someone else
The next day They told
me Basically The same
thing.

So I took it to the
Range as I was chambering
The First Round upon closing
The Bolt The Rifle Fired.
I did not try Again.

Friday 12/7/08 I Drove
3 HRS Each way to
one of your Service centers
in Springfield mo (Bass Pro)
They told me it should be
Sent Back to Remington
They would not Touch it.
I hope we can resolve
this Issue in A Timely manner
Thank you ~~Thank you~~
