Mitchell, Christy Friday, February 27, 2009 8:33 AM 'Michael Hartinan' RE: Rem 722, 222, bad trigger

Approved by F. Roth 2/27 5:30 Ived your rifle 1-Dear Mr. Hartman, I apologize for the delay. We just received your rifle last Tuesday and I've just received inspection data from the repairman yesterday. Your Model 722 was manufactured around 1950 and it appears to have been altered. We are unable to check the sear due to the alterations to the trigger set screws. We were able to make the following observations. The internal rifle parts show wear as expected for a rifle of this age. The trigger pull is VERY light and measures only .05* pull. The average trigger pull for a bolt action centerfire rifle from the factory is closer to 4 lbs which is just slightly above factory specifications for our bolt action centerfire rifles. We are willing to repair the rifle at no charge as a goodwill gesture. I will wait to hear from you before any work is performed.

I would recommend that you have all other firearms that you own inspected to ensure that they have not been altered to an unsafe condition as well. Any Remington models can be sent to our plant in Ilion, NY for inspection. If you need an owner's manual for this or any other Remington models I will send them to you at no charge or you can download current model manuals from our site.

If you have any questions or would like to reach me by phone, following is my complete contact information.

Thank you,

Christy Mitchell Consumer Affairs/Armorer's School Administrator Remington Arms, Inc PO Box 700 870 Remington Dr Madison, NC 27025 800-243-9700, ext 8684 fax: 336-548-7784 christy.mitchell@remington.com

-----Original Message-----From: Michael Hartman [mailto:mnvh@ctesc.net] Sent: Wednesday, February 25, 2009 6:50 PM To: Mitchell, Christy Subject: Rem 722, 222, bad trigger

Hello Ms Mitchell,

I am Michael Hartman, who was shot in the foot by a Remington 722, 222 with a faulty trigger and safety. I boxed and shipped the rifle on February 11, 2009. It has been 2 weeks and I have heard nothing. I am still on crutches and having to go to the Dr to have the bandages changed and the wound treated with ultra sound and a saline solution, then packed and bandaged. I also have to wear an air cast. Needless to say, I have not been able to work since the incident on January 15, 2009. The Dr., hospital, Surgeon, anesthesia, etc. bills are coming in fast now and the treatment goes on and on. It will still me 2 months, they say, until I can once again wear a boot and possibly go back to work with light duties. Since I have heard nothing from Remington, I assume the Company is going to do nothing. I guess I will have to find a lawyer and have him take care of it. I have been told the Lawyer, who has successfully sued Remington in the past, would be more than happy to take my case.

The ball is in your court. A quick response would be nice!

To Fred Suppy,

A the trigger, safety, etc. is replaced, I want the old parts returned to with the rifle. Michael Hartman

I did not clean, oil, etc. the sifle before I sent it.

I love this right, it is extremely accurate. I always worked fine until the day it went off on its ocon I shot me in the foot,

3126

January 23, 2009

Michael Hartman 739 Lonesome Trail Fredricksburg, TX 78624

Subject: #3126, Model 722

Dear Mr. Hartman,

I am sorry to learn about the unfortunate incident you experienced with the Model 722. Enclosed is a prepaid UPS ground shipping label for shipment of the rifle to our factory for inspection. Please print out this letter and include it with the repair form inside the box with the firearm. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Please mark the ends of the box with "Supry". Fred Supry will be inspecting the firearm and will contact me with the results.

I apologize for the inconvenience that this incident has caused and I hope that these actions will keep you as a loyal Remington customer.

Sincerely,

Christy Mitchell Consumer Affairs Administrator
