Dear Mr. Lowery,

You will receive a pre-paid shipping label in a separate email within 24-48 hours. Please include a copy of this letter to put inside the shipping container. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service". Product Service will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely,
D. Fulcher

If you are in the U.S. - We would like to have the firearm come into our Product Services Department at our factory for examination. Please reply back to me with the serial number of the firearm, caliber, your mailing address and phone number. We would like to send you a pre-paid shipping label for UPS to have the firearm come in. I will also include a form that you can fill out to let the examiner know exactly what happened, when this occurred, and what you are expecting.

Sincerely,
 Dell

I am having problems with a model 700 youth edition. It has fired twice with just the movement of the safety. I would like to know what parts do I need to replace to correct this problem is it a trigger issue or a safety. I just want to make sure I correct the problem, if an after market trigger will take care of it that will be a easy fix.

thanks

Buck Lowery

Thanks for the help. I have always depended on Remington to provide quality firearms. I have always been very satisfied with Remington products. I have not been able to re-create the malfunction with firearm. It occurred twice in a week time frame. I am just overly concerned because this is the rifle my children use. I don't necessarily expect you to find something wrong because the problem does not continue to happen over and over again. I do want to do anything I can to ensure the rifle is in proper working condition for my children.

Thanks
Sincerely

Buck Lowery
