Dear Tracy,

We do not have a pre-paid shipping label for Alaska. Please include a copy of this letter & our form to put inside the shipping container. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the boxes with the name "Supry". Mr. Supry will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely,
D. Fulcher

Dear Remington,

This gun fired when I pushed the safety to the off position. I was at the target range, the gun was loaded and pointed down range, as I pushed the safety forward the gun fired. There was nothing touching the trigger. I reloaded the gun and it happened again.

I DO NOT feel safe using this gun again. Please replace it or give me my money back!

Sincerely,

Dear Tracy,
We would like the rifle to come into our Product Services Department at our factory for examination. Please reply back to me with the serial number of the rifle, and your mailing address. We would like to send you a pre-paid shipping label for UPS to have the firearm come in. I will also include a form that you can fill out to let the examiner know exactly what happened, when this occurred and what you are expecting.

Sincerely,
Dell

Dear Remington

I have a stainless Model 700 .338. While shooting at the target range, I loaded the gun, chambered a round, then took the safety off. As soon as I took the safety off, the gun fired. Lucky for me it was pointed down range. I chambered another round, pushed the safety to off and the gun fired AGAIN. I then unloaded the gun and tried this without ammo in the gun. This did not happen again. I am not comfortable owning this gun any longer. Could I ship it back Remington for a refund?

Sincerely,

Tracy Rivera
