Dear Mr. Scheck,

Enclosed is a prepaid UPS shipping label to cover shipment of your firearm to our factory for examination.

Please include a copy of this letter to put inside the shipping container. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service". Product Service will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely,
D. Fulcher

I have had a trigger malfunction with the rifle. In 2000 or 2001 I was deer hunting. I pulled the trigger on my 700 and nothing happened. I ejected the round and chambered another. When I closed the bolt the gun went off.

I have read some articles on the gun misfiring. I have also seen a video on it. I would like to see about having the trigger replaced with a trigger with a different design. I was thinking of the Xmark pro.

I hunted deer this year, but used a different rifle. I will not use a rifle that might be unsafe.

Thanks for your time

Wendelin

I am sending in this Remington 700
for inspection/repair.

I have read a few articles and watch
a video on Remington 700 trigger
problems. I am concerned about this
rifle being safe. I do not want to
wait until I have a problem with
this rifle. I do not want this rifle
going off on its own.

I would like to know if I can replace
the trigger.

Is the Xmark a different design?

thanks for your time

Wendelin
