C				

1/17/11 Per call from Mullins, he has a 700 passed to him from his father and it has been in the safe for about 20 yrs. He pulled it out this weekend target practicing and afterward when unloading he pushed the safety to fire and it fired. He did not clean it after pulling it out over such a long period of non-use but said it had been in the safe and it shouldn't have required cleaning and even if it did need cleaning this should not have happened. His father has a 30-06 that has had the same problem. He will send it in also.cm
