11/29/10 Per call from Walcott, while hunting in Montana a few weeks ago he had a couple of issues. The first is that it fired on safety release. He can not be absolutely sure that he did not have his finger on the trigger. Also had a 100 yd shot at bull elk, removed the safety, pulled the trigger and it didn't fire, 2nd shot fired, 3rd shot did not, 4th shot fired. The 2 that did not have a small indent on the primer but it is hard to see.cm

Gardnerville, NV 89460

Subject: #5219, Model 700

Dear Mr. Walcott,

Enclosed is the prepaid UPS ground shipping label. Please include a copy of this letter with the firearm. **The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly.** Please mark the ends of the box with "Product Service". Apply the label to your box and take it to a UPS terminal or driver for shipping.

I apologize for the inconvenience that this incident has caused and I hope that these actions will keep you as a loyal Remington customer.

Sincerely,

Christy Mitchell
Consumer Affairs Administrator

⚠ WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM. :: Record the serial number of your firearm before sending it. :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.) :: Remove all accessories from your firearm to prevent loss or damage. :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.	

12/8/10

To whom it may concern,

I have sent you my rifle because I experienced two separate problems while on my elk hunt in Montana last month. On my second day I had the opportunity to shot a bull elk that was approximately 400 yards away. Taking my time to make the shot I rested my rifle on my backpack and when I removed the safety the rifle discharged with my finger off the trigger. After the elk moved off I placed another round in the chamber and moved the safety on and off numerous times trying to repeat the condition with negative results.

My second problem happening a couple of days later in cold/snowy weather. As I was standing ~~on a hillside two elk appeared about 100 yds away.~~ Not being seen I laid down on the ground resting my rifle on a rock pile. I removed the safety and pulled the trigger but the rifle did not fire. I inspected the safety level and it was in the "F" position. I ejected a live cartridge and loaded another round. When I pulled the trigger the rifle fired but I missed my shot. I reloaded and pulled the trigger; nothing. I reloaded with my last round and the rifle fired again. I recovered the brass and the two live rounds had no marks on the primers.

For the rest on my hunt every morning I dry fired my rifle to hear the firing pin before I loaded a round. I eventually harvested my elk with one well placed shot but the missed opportunities lead me to contact your company. I am the second owner of this rifle and the only modifications I made was the installation of a different recoil pad. Could you please examine my rifle and advise me of any problems you may find. If you have any question you can contact me(PST) at 775-781-0002 .
