REMINGTON ARMS CO., INC.  
14 HOEFLER AVENUE  
ILION, NEW YORK 13357

ATTN: ARMS SERVICES  
SAFETY MODIFICATION PROGRAM

To Whom It May Concern:

I enclose two model 700 Remington rifles, .270 serial no. B6364910 and 30.06 serial no. 6657288. I would like you to perform the following work:

- Replace both the triggers and safeties on both guns. I would like the triggers to be set as low as you recommend for hunting above 3 pounds but ideally below 5 pounds.
- Put cap screws where the iron sites on the .270 have been removed.
- Remove the iron sites on the 30.06, put in cap screws and return the iron sites to me.

Both guns have performed well over the years. The 30.06 accidentally discharged many years ago; however, I cannot say that it was not due to user error. There have been no accidental discharges since.

The trigger on the .270 was adjusted ten years ago by a gunsmith claiming to be a licensed Remington gunsmith; however, his work on a shotgun convinced me that he did not know what he was doing and I do not have confidence in his work.

Please call me with an estimate before you perform the work. (208)720-8417.

Thank you.

  
Ben Worst

could not duplicate concern  
T.A. very dirty. replace TPA,  
clean + test fire under BLP  
for \$ 20.00 + ship.
