Please describe your problem and date of occurrence: Bought this firearm used about 5 or 6 years ago the safety and bolt seem to be unsafe. When pushing safe off or sometimes upon closing bolt the gun will fire. Haven't used this since. Just spoke with Tim one of Remingtons techs very helpful, courteous. Tim is sending shipping label, he said my gun is 1969 and qualifies for pre-1983 safety modification program at a cost of \$35.00 Hopefully this is the information you need, if not phone is 1(716)984-2368. Master exp 01/14 Thank you.
