5/15/12: The customer wanted me to guarantee the rifle would be repaired under warranty before it came in for exam. I could not do that so he refused the offer of a pre-paid shipping label & a box to get the gun in for exam. He stated he has read about the M/700's on Google & feels that we should have a recall like Ford has done. df 5/31/13: Gun not returned to Ilion for exam. df
