Re : Remington 700 8mm Mag
Serial # E689-0241

Said gun went off when bolt was closed with safety off. Bolt has grind marks around extractor also on end of bolt, the tension button sticks so cases will not extract. Stroke seems to be slipping exceptionally easy too.

I've had a hard time coming up with cases for the 8mm. In the future, it seems like purchaser should be aware of availability problems of cases. Also, please note, factory cases have cracked upon firing.

Jim not trying to be a difficult Dealer, but customer is very unhappy with the finish and malfunctioning of bolt on his \$1,200⁰⁰ Custom Remington gun.
