MAIN FAULT						

Handwritten notes on the form:

- Across the middle rows: *Fires when safe is released*
- Across the bottom row: *sent to customer - correct*

MAIN FAULT Sent to Product Service. Follows down when bolt closed hard. Seal stuck in housing as usual. Heavy oil inside of trig. Assy. Took trig. Assy apart - no other fault found. A light film of light oil is all that is required to prevent rusting. Exchange trig Assy at N/A due to age of gun.
