MAIN FAULT

Firing pin followed down as req'd. due to sear sticking in trigger housing. Trigger Assy gummed up from old solidified oil.

Exchange Trig Assy. at a special price strictly as a gesture of good will.

PARTS

COMMENTS

Prove pull and see engagement secure at end of factory

See owners manual for proper use and maintenance.

RD6925 REV. 11/96

Dear Sir,

This Remington 30.06 has defect in trigger and safety. I went deer hunting and was loading my gun and as I pushed the bolt down, it discharged, shooting a hole through my truck door and almost deafened a passenger in vehicle.

Sincerely Yours,
Rex Johnson
