*note found accidentally while working*

MAIN FAULT  
 8/4/99 Upon receipt we could not duplicate the reported concern, but did find the bolt stop, release & trigger working sluggish from being covered with dirt, rust, & a heavy oily substance. Action also covered with dirt. Rifle poorly maintained.

PARTS  
 #21345  
 Replace the complete trigger mechanism & clean the action at \$2 normal cost

.....  
**To:** Dennis Sanita @ REMINGTON ARMS PRODUCT SERVICE  
DEPARTMENT  
**Cc:** 14 HOEFLER AVENUE / ILION; N.Y. 13357 / ATTN: DENNIS  
SANITA  
**Subject:** RETURN OF MODEL 700 ADL RIFLE, S/N B6308993  
.....

Dear Mr. Sanita: Per  
our telephone conversation of 7/20/99, I am returning a Model 700  
ADL Bolt-Action rifle for repair. As we discussed, the rifle has accidentally  
discharged a round on two occasions while I was trying to unload the  
magazine. This style rifle does not have a bottom clip to unload & each round  
must be injected into the chamber in order to unload. Each time the round  
fired as the round was chambered and luckily no one was injured, only a hole  
in my vehicle. You mentioned there was not a recall issued on this model  
rifle, but apparently something is inherently wrong with the concept of not  
being able to unload a weapon without first chambering a round. I would  
appreciate Remington Arms taking a look at this problem and repairing or  
otherwise fixing the problem so that I can feel comfortable using this rifle  
once again. You can contact me during the day @ 1-800-892-9965, or 281-  
463-6660, ext 108. My home number is 281-376-4133. My return address is:  
Don H Borski 9619 Dundalk St  
Spring, TX 77379 I would  
appreciate a quick response to this problem. Thanks, Don  
Borski
