RE: Remington Model 700-300 Win. mag

The safety of the gun has turned into the firing mechanism. Some parts are broken and then when I was target shooting during deer season I was holding the rifle up with left hand opened the window of the deer blend as gun was still in my left hand I reached over with my right hand switched over button from safety to fire the gun went off which the impact of the rifle came down hit me in the shoulder the gun flew out of my hands landed on top of heater which has now damaged my scope which is enclosed with the rifle only injury was a bruised shoulder but no medical bills were involved. I am a very advocate Remington fan

which I own a few more
rifles and I would like
a gift Certificate to purchase
the 300 ultra mag. It would
be much appreciated I would
like the gun fixed or replaced
and sent back.

Thank you,

Timothy Cherry
