Arms Service Division
Remington Arms Company, Incorporated
Ilion, New York 13357

Dear Sir:

Enclosed please find one Remington Model 700P, serial no. D6240102.

The above listed weapon was recently used in one of our rifle schools. During a dry firing drill the weapon was reported to have fired upon closure of the bolt. The weapon was taken out of service and inspected by our amour. The weapon was found to be in good working order and the firing upon closure of the bolt was not repeatable. Please double check this weapon for us so that we may return it to service.

If a problem is found please repair and return along with a short note as to the suspected cause of this problem so that we may avoid any similar problems in the future.

Sincerely,

G. Todd Brannan Firearms Training Instructor
