Mr'Senita As per our conversation on monday DEC.06 1999 I am sending my gun back to you. The gun went off when I went from safety to fire. My finger was not on the trigger at the time. To simulate the misfire please put the gun together. Put the gun on safety bring the bolt back and ready the firearm to be fired. Squeeze the trigger lightly and take your finger off the trigger. Know push the safety to fire the gun should fire without touching the trigger. Any chance you can't get it to do this please call me at 607-255-2338 this is my office phone and if I am not there I will call you wright back. My secretary will be glad to give me the message. Thank you four looking at my gun and if I did not clean it wright please let me know. If you can please send it back to me ASAP' thank you again. Inclosed please find A self address able to send back to me.
