MAIN FAULT

Upon receipt the rifle was inspected, the trigger was seized
and the bolt stop was working slightly loose. Upon inspection
with that. The only screws have been re-set. Customer's rifle
Lifted very poorly maintained rifle 1910

Sirs:

This rifle needs repair if possible.

This will fire on its own or so it seems. at times it fires when locking the bolt down, & other times when taking the safety off, & other times when getting ready to shoot it but not pulling the trigger (maybe the pull is so light only touching it does it) other times it's fine. If it is possible to fix it please let me know

Thanks

Rifle is Model 700BDL
