REMINGTON ADDS HIGH TECH RIFLE TO THE MODEL 700™ FAMILY - THE MODEL 700 XCR™ (XTREME CONDITIONS RIFLE)

Madison, NC - Partnering the legendary features of the Model 700 platform with some of today's high tech manufacturing materials results in the new high performance, weather defying **Model 700 XCR** - the hardcore hunter's "dream rifle." This cutting edge rifle is available in 12 caliber offerings ranging from the versatile .270 Win to the hard-hitting .375 Remington Ultra Mag.

The **Model 700 XCR** bolt action rifle is truly built for extreme conditions. The stainless steel barreled action features Remington's innovative TriNyte™ Corrosion Control System, a proprietary multi-step process, utilizing a Physical Vapor Deposition (PVD) coating of zirconium nitride. This extremely hard, but micro-thin coating provides superior scratch resistance and corrosion resistance. Traditional stainless steel barrels contain an element of carbon, so when exposed to the elements these barrels can rust, not the XCR. Combine this corrosion resistance with a harder-than-nails surface and you have the ultimate rifle for any hunting condition. Fitting this weather-impervious barreled action into a top-of-the-line synthetic stock adds to the toughness of this Model 700. Designed with a rubber overmolding technology from Hogue, this durable stock has easy-gripping, overmolded panels in the grip and fore-end areas. Other features include nickel plated fire control components for added corrosion resistance, clean 24-inch barrel on short magnum and long action calibers and a 26-inch barrel on magnums, drilled and tapped for scope mounts, hinged floorplate, sling swivel studs and the amazing, recoil-reducing R3™ Recoil Pad.

For 2005, the **Model 700 XCR** is available in .270 Win, .30-06 Sprg, 7mm Rem Mag, .300 Win Mag, .270 WSM, .300 WSM, .338 Win Mag, .375 H&H, 7mm Rem Ultra Mag, .300 Rem Ultra Mag, .338 Rem Ultra Mag and .375 Rem Ultra Mag. Suggested retail prices range from \$867 to \$893.

This is not your grandfather's rifle. The Model 700 Xtreme Conditions Rifle is at the top of the class in high performance and durability.

REMINGTON INTRODUCES A COMPETITIVE-GRADE SINGLE SHOT TARGET RIFLE - THE MODEL XR-100™ RANGEMASTER®

Madison, NC – For the first time in its nearly 200 year history, Remington is pleased to announce a custom-grade, single shot target rifle direct from the factory – the **Model XR-100 Rangemaster** available in .204 Ruger, .223 Rem and .22-250 Rem. This competition-ready single shot, based on the legendary Remington XP-100™ pistol action, is designed for precision accuracy at half the cost of traditional custom target rifles.

The **Model XR-100 Rangemaster** has many unique features that set this rifle apart from the competition. A first for a Remington production gun, this target rifle has an externally adjustable Model 40-X™ target trigger, allowing trigger pull weight to be adjusted from 1½ to 3½ pounds. The solid bottom receiver design offers one of the most rigid and stable actions available, delivering pinpoint accuracy. Further precision-enhancing features include lightening vent cuts in the fore-end under the barrel channel for improved heat dissipation and a heavy barreled, varmint contour 26-inch barrel with concave target crown. The action is fit to a competition-style thumbhole stock with beavertail fore-end, which provides the stability needed when every shot counts. Complimenting the gray laminate stock with rollover cheekpiece is the satin blued finish on the barrel and receiver.

The name Remington is synonymous with "out-of-the-box" accuracy and reliability and this "tack driving" single shot rifle is built on that same legendary reputation. The **Model XR-100 Rangemaster** is available at a suggested retail price of \$879.

Model	XR-100 Rangemaster
Action	Bolt/Single Shot
BBL Length	26 inches
Overall Length	45 3/8 inches
Avg. Weight	9 1/8 lbs.

UPGRADED FEATURES ADDED TO PROVEN REMINGTON® MODEL 700™ VS™ (VARMINT SYNTHETIC) LINE

Madison, NC – Remington has provided varmint hunters and precision benchrest shooters with a line of extremely accurate, heavy barreled production rifles with its Model 700 offerings since the Varmint Special introduction in the late '60s. In response to our customers' requests, the Model 700 VS family has been upgraded with new features for 2005, while maintaining all the legendary performance features of the Model 700 platform. The new **Model 700 VSF™ (Varmint Synthetic Fluted)** is offered in .22-250 Rem, .223 Rem and .308 Win with right and left-handed versions available and the **Model 700 VS SF™ II (Varmint Synthetic Stainless Fluted)** is offered in .204 Ruger, .223 Rem, .220 Swift and .22-250 Rem.

Both redesigned Varmint Synthetic rifles feature the rigid cylinder-designed Model 700 action milled from a solid bar of steel, providing "right out of the box" accuracy and consistency from shot to shot. The renowned Remington "three-rings-of-steel" design (counterbored bolt face encloses the cartridge head with an unbroken ring of steel, which then fits inside of the barrel chamber, surrounded by the receiver) provides, perhaps, for the most strength and most reliable performance from any production gun. Crisp trigger, exceptionally fast lock time and hammer-forged barrels further enhance the Model 700 rifle's accuracy. Unique to our Varmint Synthetic line of rifles is full length aluminum bedding for consistent shot placement.

The upgrade of the Model 700 VS rifles begins with a reconfigured H.S. Precision composite stock. Features of this well-designed, varmint stock include a contoured beavertail fore-end with defined ambidextrous finger grooves, palm swell and twin front tactical-style swivel studs to accommodate a sling and bipod. A textured, black webbed finish completes the new package. Desert tan finished stocks will be featured on the **Model 700 VSF** and a Tactical green finish on the **Model 700 VS SF II** stock.

Heavy contour, 26-inch hammer-forged barrels with concave target-style crown deliver long-range accuracy and the addition of six longitudinal flutes provides rigidity and increased heat dissipation as well as weight reduction on both models. Adding to the appeal of the **Model 700 VS SF II** is the powder-coated finish on the flutes and spin polished finish on exposed metalwork. The **Model 700 VSF** has a carbon steel barrel with traditional satin blued finish and the barrel on the **Model 700 VS SF II** is constructed of 416 stainless steel.

The **Model 700 VSF** and **Model 700 VS SF II** answer the needs of dedicated varmint hunters and long-range precision shooters. Both redesigned Model 700 VS rifles will be available during the fourth quarter of 2004 at suggested retail prices of \$932 to \$1025.

LEFT-HANDED VERSIONS AND NEW CALIBER OFFERINGS ADDED TO THE MODEL 700™ CDL™ (CLASSIC DELUXE) LINE

Madison, NC – Introduced in 2004, the Remington® Model 700 CDL answered the demands of traditional hunter and shooters with its classic styling and rugged durability. For 2005, Remington is pleased to introduce a **Left-Handed Model 700 CDL** bolt-action in six popular caliber choices and two new caliber offerings in the right-handed Model 700 CDL version.

This well-designed Model 700 is housed in a straight comb, satin finished American walnut stock with black fore-end tip and grip cap. Fit with the R3™ Recoil Pad, the **Model 700 CDL** comfortably handles the recoil of even the high-powered magnums. The standard calibers feature a clean 24-inch, carbon steel barrel (26-inch on magnum calibers) with satin blued finish. A jeweled bolt body completes the look. The hinged floor-plate magazine has a four round capacity in the standard calibers and three round in the magnum calibers. Like all Model 700 rifles, the CDL combines impress lock time, solid construction and advanced design, resulting in great accuracy "right-out-of-the-box".

The **Left-Handed Model 700 CDL** is available in .223 Rem, .243 Win, .270 Win, .30-06 Sprg, 7mm Rem Mag and .300 Remington Ultra Mag. Suggested retail prices range from \$769 to \$796.

Two long-standing calibers join the right-handed CDL line-up – the .25-06, a low-recoiling, medium sized game cartridge and the .35 Whelen, a perennial favorite that is effective on North American big game and most African species. Suggested retail price on these two additions is \$743.

REMINGTON INTRODUCES FIVE RIFLES CHAMBERED FOR SIZZLING NEW VARMINT CALIBER - THE .204 RUGER

Madison, NC – Varminers were introduced to an amazingly fast, flat-shooting centerfire cartridge with the unveiling of the new .204 Ruger in 2004. Matching this ballistically balanced cartridge with the "out-of-the-box" accuracy of the Remington® Model 700™ line, takes varmint hunting and long-range shooting into the 21st century. For 2005, Remington will chamber the .204 Ruger in the following rifles: the newly redesigned **Model 700 VS SF II**, the lightweight **Model 700 LV SF**, the new single shot **Model XR-100™ Rangemaster®**, the new value-priced **Model 700 SPS™** and a laminate version, **Model 700 VLS**. All rifles are drilled and tapped for scope mounts and deliver the legendary Model 700 accuracy needed for long-range shooting.

Model 700 VS SF II (Varmint Synthetic, Stainless Fluted) – New for 2005, this varmint synthetic, heavy barreled version of the Model 700 has received upgraded features in response to our customers' requests. The reconfigured H.S. Precision composite stock has a contoured beavertail fore-end with defined ambidextrous finger grooves, palm swell and twin front tactical-style swivel studs to accommodate sling and bipod. The stock has a tactical green/black webbed textured finish. The 26-inch heavy contour, stainless barrel has a concave, target-style crown and six longitudinal flutes for rigidity, increased heat dissipation and weight reduction. The exposed metalwork features a spin polished finish. Suggested retail price: \$1025

Model 700 LV SF (Light Varmint, Stainless Fluted) – Introduced in 2003, this lightweight varmint rifle is designed for the varmint hunter on the move. Weighing a mere 6 ³/₄-pounds, the Model 700 LV SF features a stainless steel short action receiver that is pillar bedded, blind box magazine and jeweled bolt. The 22-inch, clean stainless steel barrel has a medium contour and is fluted to decrease weight and increase heat dissipation. The custom designed, black composite stock features semi-beavertail fore-end, swivel studs and Remington's revolutionary R3™ Recoil Pad. Suggested retail price: \$919

Model XR-100 Rangemaster– New for 2005, this competition-ready, single shot rifle features an externally adjustable Model 40-X™ target trigger – a first for Remington in a standard production rifle. Trigger pull weight can be adjusted from 1 ¹/₂ to 3 ¹/₂-pounds. With a solid bottom receiver design, the Model XR-100 has one of the most rigid actions available which further enhances accuracy. Additional features include thumbhole laminated stock with rollover cheekpiece and beavertail fore-end with lightening vent cuts for improved heat dissipation. The 26-inch, heavy varmint contour barrel has a concave target crown and is finished in satin blue. Suggested retail price: \$879

REMINGTON* INTRODUCES FIVE RIFLES CHAMBERED FOR SIZZLING NEW VARMINT CALIBER - THE .204 RUGER (CONT'D)

Model 700 SPS (Special Purpose Synthetic) - New for 2005, this value-priced synthetic version of the venerable Model 700 provides the avid varmint hunter with a durable and accurate rifle or is the perfect "work tool" around the ranch. The Model 700 SPS features a newly redesigned, more ergonomically appealing black synthetic stock and features the recoil-reducing, Remington R3 Recoil pad. The clean 24-inch barrel has a matte blued finish and is drilled and tapped for scope mounts. The hinged floorplate magazine has a capacity of four plus one. This value-priced rifle delivers the solid design features and out-of-the-box accuracy that you expect from the Model 700 bolt action rifle family. Suggested retail price: \$520

Model 700 VLS (Varmint Laminated Stock) - A member of Remington's extensive line of heavy barreled varmint line-up since 1995, this Model 700 features a handsome, two tone brown laminated, Monte Carlo stock with cheekpiece and beavertail shaped fore-end. Laminate stocks provide unparalleled strength and resistance to weather while maintaining the traditional look and feel of a wood stock. Partner this rigid stock with the legendary Model 700 action and this varmint rifle is a tack driver. Other features include 26-inch heavy varmint contour barrel, hinged floorplate magazine and satin blued finish on all exposed metalwork. Suggested retail price: \$759

For complete specifications on these varmint rifle offerings and other Remington products, please visit our web site at www.remington.com.

25TH LIMITED EDITION MODEL 700™ CLASSIC CHAMBERED IN .308 WIN - TRULY A CLASSIC IN ITS OWN RIGHT

Madison, NC – Widely popular since its introduction as a sporting cartridge in 1952, the .308 Win has established a reputation with target shooters and big game hunters as a highly accurate and effective cartridge. Adding to the validity and popularity of this cartridge was the U.S. military's decision to adopt the .308 (7.62x51mm NATO) as the official military rifle cartridge in 1954. Remington has selected this time-honored "classic" cartridge for the **2005 Model 700 Classic** chambering – the 25th edition to this highly collectible series.

The traditionally designed **Model 700 Classic** bolt-action rifle features a straight-combed stock of American walnut with low-gloss satin finish, crisp-cut checkering and swivel studs. The clean 24-inch blued carbon steel barrel and short action receiver feature a high polished finish, adding to the classic look of this Model 700. The hinged floor plate magazine has a capacity of four plus one in the chamber and to maximize the performance of this efficient cartridge with hunting bullets, the twist rate is one turn in 10 inches.

The .308 Win chambering joins an impressive list as the 25th offering in this Classic collection.

NEW MODEL 700™ XCR™ IN 7MM REM MAG BECOMES THE FIFTH OFFERING IN THE RMEF COMMEMORATIVE SERIES

Madison, NC – The physical demands of elk hunting can push a hunter to his limits as well as taking a toll on his rifle. Remington has the answer – the new Model 700 XCR (Xtreme Conditions Rifle), built to handle the most-daunting terrain and weather conditions. For 2005, Remington is pleased to announce the **Model 700 XCR Rocky Mountain Elk Foundation (RMEF) Camo** rifle, chambered in the flat-shooting, hard-hitting 7mm Remington Magnum.

The fifth offering in this limited edition commemorative series, the Model 700 XCR RMEF rifle features the Elk Foundation logo engraved on the hinged floorplate. Unique to the RMEF edition of this rifle is a fully camouflaged stock in Realtree® Hardwoods® Gray HD™. As with the previous offerings in .300 Rem Ultra Mag, 7mm Rem Ultra Mag, .300 Rem Short Action Ultra Mag and last year's rifle in .300 Win Mag, Remington will donate a portion of the proceeds from the sale of this rifle to RMEF in support of their conservation efforts.

This Extreme Conditions Rifle has a stainless steel barreled action, coated with a zirconium based Plasma Vapor Deposition (PVD). This final step in Remington's multi-process, TriNyte™ Corrosion Control System provides superior scratch resistance and corrosion resistance. And for added protection against the elements, the fire control components of this Model 700 are nickel plated. Fitting this weather-impervious barreled action into a durable synthetic stock adds to the toughness of this Model 700. Featuring a unique, patented technology from Hogue, this high tech stock design has easy-gripping, overmolded panels in the grip and fore-end areas. Other features include clean 26-inch barrel, drilled and tapped for scope mounts, hinged floorplate with three plus one capacity, sling swivel studs and the recoil-reducing R3™ Recoil Pad.

The fifth annual **Model 700 XCR RMEF Camo** and 7mm Rem Mag rifle will be available for one year only at a suggested retail price of \$993.

REMINGTON® MODEL SEVEN™ AWR™ TO BE CHAMBERED IN 6.8 MM REMINGTON SPC

Madison, NC – Introduced as a military cartridge in late 2003, the Remington 6.8mm Special Purpose Cartridge (SPC) quickly became of interest within the hunting and shooting communities because of its enhanced accuracy, low recoil and effective downrange energy. Remington is pleased to announce the introduction of the **Model Seven AWR (Alaskan Wilderness Rifle)** chambered for the exciting new 6.8mm Rem SPC cartridge. This lightweight, fast-handling short action rifle is the perfect match for this diminutive, medium range cartridge.

Handcrafted in the Remington Custom Shop in Ilion, New York, the Model Seven AWR features a compact fiberglass composite stock that weighs in at 6¹/₈-pounds with hinged floorplate magazine (four round capacity) and sling swivel studs. The 22-inch clean barrel is constructed of 416 stainless steel and has a medium contour. Both barrel and action have a non-reflective, matte black Teflon® coating for added durability. The receiver is drilled and tapped for scope mounts.

Remington is one of the world's leading manufacturers of sporting firearms and ammunition and the partnering of a great cartridge with a great firearm sets us apart from the competition. The Model Seven AWR chambered in 6.8mm Rem SPC is available at a suggested retail price of \$1547.

CUSTOM SHOP VERSION OF REMINGTON® MODEL 504™ BOLT ACTION RIMFIRE RIFLE INTRODUCED FOR 2005

Madison, NC – Announcement of Remington's re-entry into the world of high-grade rimfire rifles in 2004, with the introduction of the Model 504, was welcome news to dedicated target shooters, small game hunters and loyal Remington firearms owners. Continuing to expand the line in 2005, Remington is pleased to introduce the **Model 504 Custom Bolt Action Rimfire Rifle** chambered in .22LR, taking rimfire shooting to the next level.

As with all of our offerings from the Remington Custom Shop, these finely crafted Model 504 rifles are created on site by our experienced master craftsmen and gunsmiths with personal attention to detail and design. The Model 504 Custom rimfire rifle features an attractive "C" grade fancy American walnut stock with complimenting rosewood fore-end tip and grip cap, designed with straight comb and cheekpiece for right-handed shooter. The semi-gloss finish on this custom grade stock and high polished blued finish on the clean 24-inch barrel and solid machined steel receiver enhance the classic styling of this Model 504.

The Model 504 rimfire rifle design was expertly crafted at Remington's R & D facility in Elizabethtown, Kentucky, utilizing innovative manufacturing and design features to enhance accuracy from the diminutive rimfire. The **Model 504 Custom** features include solid receiver with rear lock-up design, glass bedded action with twin takedown screws, dual extractors for positive feeding and a fully adjustable trigger group (by Authorized Repair Center only). Unlike the standard production grade Model 504, this version features a handcrafted 24-inch barrel made from a Model 40-XR™ barrel blank in the Remington Custom Shop. The barrel has a sporter contour and Model 40-XR target 5R button rifling with concave target crown. The field-strippable bolt has a 90-degree throw and features a smooth round ball handle. The receiver is drilled and tapped for scope bases.

Remington's commitment to accuracy, innovative design and quality workmanship is evidenced in the **Model 504 Custom** rifle. For the dedicated rimfire enthusiast and loyal Remington firearms owner, the Model 504 bolt-action rimfire rifle fills a void in the legendary Remington lineup and will become the Model 700™ of the rimfire world. Available at a suggested retail price of \$1665.

HEAVY-BARRELED TARGET VERSION ADDED TO REMINGTON® MODEL 504™ RIMFIRE RIFLE LINE-UP

Madison, NC – Designed in Remington's stand-alone R&D facility in Elizabethtown, Kentucky, and manufactured in Remington's state-of-the-art facility in Mayfield, Kentucky, the early 2004 introduction of the Model 504 Bolt-Action Rimfire Rifle returned Remington to the world of serious rimfire target and varmint shooters. Expanding this well-designed line for 2005, Remington is pleased to introduce the **Model 504-T LS HB (Target, Laminate Stock, Heavy Barrel)** in .22LR (Match) and .17HMR.

Evident in the many standard features of the Model 504 family of rimfire rifles is the attention to design and manufacturing techniques. The receiver is machined from a solid bar of steel with a rear lock-up design and positive bedded action with twin takedown screws. Dual extractors provide for positive feeding from the flush mount metal magazine with six round capacity in the .22LR offering and five round in .17HMR. The trigger group is fully adjustable at the factory or an Authorized Repair Center. The nickel-plated bolt is field strippable (without the use of tools) and efficiently cycled with a 90-degree bolt throw and smooth round ball handle. A cocking indicator is visible from the rear of the bolt plug. The satin blued, clean barrel is drilled and tapped for quick attachment of scope base.

Upgraded features on the new **Model 504-T LS HB** set this rimfire apart from the competition. A free-floating, 20-inch heavy contour target barrel with recessed target crown and 0.90-inch outside diameter at the muzzle provides for enhanced accuracy and consistent shot placement. The brown laminate, Monte Carlo stock is designed with a right-handed palm swell and beavertail fore-end for improved handling and stability. Further adding to the accuracy is the anchoring of the barreled action into the stock via the two bedding points. The .22LR features an Eley™ Match chamber with tighter tolerances than the standard Model 504 Sporter. Both chamberings provide pinpoint accuracy with Match grade ammunition.

Continuing to raise the standard for accuracy and dependability, the **Model 504-T LS HB** is available at a suggested retail price of \$799 for the .22LR (Match) and \$825 for the .17HMR version.

Model	504-T LS HB
Action	Bolt Action
Mag. Capacity	5 (.17HMR) or 6 (.22LR)

MODEL 504™ BOLT ACTION RIMFIRE RIFLE CHAMBERED FOR NEW "TACK-DRIVING" 17MACH2™ CARTRIDGE

Madison, NC – The introduction of the exciting new Hornady 17Mach2 cartridge has set the rimfire world on fire because of its lightening fast speed, flat trajectory and impressive accuracy. Partnering the explosive 17Mach2 cartridge with the finely crafted, highly accurate Remington® Model 504 bolt action will provide rimfire enthusiasts with unsurpassed performance in a classic rimfire package.

Introduced in 2004, the **Model 504 Bolt Action Rimfire Rifle** features a trim-designed, American walnut stock with rubber butt pad and installed swivel studs. Adding to the classic touch is the satin finish on the stock, grip cap medallion featuring the stylized script "R" logo and satin blued finish on all exposed metal parts.

Emphasis on design integrity and quality workmanship is evident in the many features of the Model 504 rimfire rifle. The receiver is machined from a solid bar of steel with a rear lock-up design and positive bedded action with twin takedown screws. Dual extractors provide for positive feeding from the 6-round, flush mount metal magazine. A fully adjustable trigger group further enhances accuracy. The 20-inch clean barrel has a standard sporter contour with 5R button rifling, used in our custom Model 40-XR target rifle, and recessed target crown. The bolt has a 90-degree throw, is field strippable without tools and features a nickel-plated body finish and smooth round ball handle. Drilled and tapped for scope bases, the Model 504 is field-ready.

The Model 504 Bolt Action Rimfire Rifle in the sizzling new 17Mach2 is available mid-October 2004 at a suggested retail price of \$710.

REMINGTON INTRODUCES NEW SPORTSMAN® LINE OF MODEL 11-87™ AUTOLOADING SHOTGUNS

Madison, NC – The Model 11-87 family of autoloading shotguns delivers versatility and reliable performance in a wide range of models and now joining the line-up is a series of moderately priced durable field guns – the **Model 11-87 Sportsman**. Offerings for 2005 in the Sportsman line will include **12 and 20-gauge** versions, a **12-gauge fully rifled slug** gun and first-time offering of a **20-gauge Youth** model. These soft-recoiling Model 11-87 autoloaders are ergonomically designed for superior handling, constructed with solid steel receivers for strength and durability and feature smooth operating actions that reduce wear and provide for quick follow-up shots.

Model 11-87 Sportsman Synthetic 12 and 20-gauge shotguns - Designed for durability, these utilitarian, gas-compensated autoloaders should be the one shotgun in every hunter's gun safe. Both gauges can handle 2³/₄ or 3-inch magnum loads and are available with standard contour 26 or 28-inch vent rib Rem™ Choke barrels with Modified tube and single bead steel sight. The all-weather black synthetic stocks feature stock swivel stud and magazine cap swivel stud for ease of sling attachment. Suggested retail price: \$624

Model 11-87 Sportsman Synthetic Fully Rifled Cantilever shotgun – This 12-gauge, 3-inch chambered gun can handle today's high performance slugs with rifle-like accuracy. Featuring a durable, Monte Carlo-style synthetic stock with swivel studs, this version has a 21-inch fully rifled barrel with cantilever scope mount for the ease of scope attachment, using Weaver-style rings. The gas-compensating system reduces the punishing recoil of hard-hitting slug loads, while delivering accurate on-game performance. Suggested retail price: \$705

Model 11-87 Sportsman Synthetic Youth 20 gauge shotgun – The first youth version offered in the legendary Model 11-87 family, this versatile 20-gauge, 2³/₄ to 3-inch magnum provides young hunters or smaller framed adults with a soft-recoiling, high performance field shotgun. This Youth version shotgun has a 13-inch length of pull (an inch shorter than standard offerings) and features a shorter standard contour 21-inch vent rib Rem Choke barrel for ease of handling and balance. Modified choke tube is included and the barrel has a single bead steel sight. The durable black synthetic stock can handle the hard wear of days in the field and sling attachment is easy with stock and magazine cap swivel studs. Suggested retail price: \$624

THE REMINGTON® MODEL 870™ WINGMASTER® JR. IS THE PERFECT CHOICE FOR A CHILD'S FIRST SHOTGUN

Madison, NC – For over fifty years, the Model 870 has been recognized by millions of hunters and shooters as one of the most dependable pump action shotgun available. Now younger hunters can experience that same reliability. Remington is proud to offer a version specifically designed with kids in mind - the 20 gauge **Model 870 Wingmaster Jr.** This well-balanced, versatile shotgun is the appropriate choice for young hunters and joins the Model 870 Youth, designed for the older youth or small stature adult, in the extensive family of Model 870 shotguns.

Built on the lightweight 20-gauge, 3-inch Model 870 platform, the Wingmaster Jr. has a high gloss American walnut fore-end and stock, shortened to a 12-inch length of pull (one inch shorter than our Youth version and two inches shorter than our standard Model 870). The vent rib Rem™ Choke barrel is 18 ³/₄ -inches in length and comes with Full, Modified and Improved Cylinder choke tubes for balance, ease of handling and versatility in the field. Both barrel and receiver have a high polish blued finish.

As that young hunter matures, simply replace the butt stock with a standard youth or adult version; add interchangeable Rem Choke or rifled barrels and this reliable pump action will provide a lifetime of hunting memories.

The **Model 870 Wingmaster Jr.** 20 gauge shotgun is available at a suggested retail price of \$623.

DALE EARNHARDT TRIBUTE SHOTGUN SERIES CONTINUES WITH THIRD LIMITED EDITION OFFERING FOR 2005

Madison, NC – The Model 870™ Wingmaster® in 12 gauge has been selected as the third offering in the commemorative series of Remington® shotguns honoring dedicated outdoorsman and NASCAR legend, Dale Earnhardt. This limited edition, highly engraved Model 870 joins the 2003 offering of a Model 11-87™ Premier® shotgun in 12 gauge and this year's Model 11-87 Premier in 20 gauge.

With nearly nine million Model 870 shotguns sold since its introduction in 1950, the selection of the Wingmaster for the 2005 Dale Earnhardt Tribute shotgun is the perfect choice to honor Remington's close friend and avid hunter. A portion of each sale generated from the Model 870 Tribute shotgun will be donated to the Dale Earnhardt Foundation to continue Dale's efforts to support wildlife initiatives and children's educational programs, two of his favorite causes.

This classic Model 870 pump action shotgun features a handsome American walnut stock and fore-end, both enhanced with generous machine-cut checkering. The high polished blued finish on the 28-inch vent rib barrel and receiver compliment the hi-gloss wood. The embellished receiver on this 870 Wingmaster features Earnhardt's likeness, his signature and decorative scrollwork on the left side and a tributary banner recognizing his seven Winston Cup Championships on the right side. Adding to the beauty of this commemorative shotgun is the 24 karat gold inlay on the signature and banner. As with the previous offerings in this collectible series, the serial numbers will start with "DE3" recognizing the familiar #3 car that Earnhardt drove to his championship titles.

Recognized as a workhorse in the field, the Model 870 provides remarkable reliability and durability. The ruggedly-designed receiver is milled from a solid block of steel and twin action bars assure positive, non-binding action. Its timeless design and natural balance make this 12 gauge Model 870 Wingmaster a true classic to be proudly displayed in your gun cabinet or used in the field.

The Model 870 Wingmaster Dale Earnhardt Tribute 12 gauge shotgun, the third in a four-year series, is available at a suggested retail of \$820.

NEW REMINGTON® MODEL 870™ SPECIAL PURPOSE SUPER MAGNUM TURKEY SHOTGUN FEATURES THUMBHOLE STOCK

Madison, NC – Turkey hunting demands a shotgun that provides maximum payload in a superior handling, durable package. The newly designed **Model 870 Special Purpose-Turkey Super Magnum Thumbhole Camo** shotgun in hard-hitting 3 1/2-inch, 12-gauge delivers such a package. Combining the reliability of the time-honored Model 870 twin-bar action with many of the durable features of our Special Purpose line of shotguns, makes this pump action the ideal choice for the ever-changing conditions that turkey hunters face.

The Model 870 Special Purpose-Turkey Super Magnum Camo shotgun features a thumbhole-style, laminate stock with palm swell and wide fore-end for more steady, rifle-like shot placement and greater comfort while set-up and waiting for that wary longbeard to appear. For maximum concealment, stock, fore-end, barrel and receiver are fully camouflaged with the recently introduced Mossy Oak® Obsession®, an all-terrain/all-season pattern. The 23-inch Rem™ Choke barrel, with Turkey Super Full choke tube, is equipped with light-gathering TruGlo™ fiber-optic adjustable rifle sights for accurate shot placement in all light conditions. This powerful 12-gauge pump action is capable of handling 2 3/4, 3 and 3 1/2-inch shotshells and features the revolutionary R3™ Recoil Pad which significantly reduces the felt recoil of this magnum powered Model 870. Completing the package is a Cordura® nylon camouflaged sling, swivels and studs.

With the addition of this Thumbhole version to the Model 870 line-up, Remington continues to offer hunters the most expansive line of specially-designed turkey shotguns including youth, 20-gauge and 10-gauge packages. Suggested retail pricing for the new **Model 870 Special Purpose-Turkey Super Magnum Thumbhole Camo** shotgun is \$615.

REMINGTON SUPPORTS NWTF CONSERVATION EFFORTS WITH THE INTRODUCTION OF TWO LOGO SHOTGUNS

Madison, NC – For nearly 200 years, Remington has maintained a rich history of manufacturing reliable sporting firearms and that same dedication has been evidenced in Remington's commitment to conserving wildlife and wildlife habitat. By forming partnerships with the leaders in the world of conservation, Remington has been able to provide millions of dollars to their efforts. For 2005, Remington is pleased to introduce two limited edition Team NWTF shotguns – the versatile 12 gauge, 3.5-inch **Model 11-87™ SPS-T™ (Special Purpose Synthetic-Turkey) Super Magnum™ NWTF** edition and for the younger turkey hunter, the **Model 870™ Express® Jr. NWTF Jakes** edition in 20-gauge. Remington will donate a portion of each sale of these NWTF logo shotguns to the National Wild Turkey Federation for their ongoing conservation initiatives.

Model 11-87 SPS-T Super Magnum Camo NWTF Edition - The stock, receiver and barrel of this powerful, 12-gauge magnum autoloading shotgun are fully camouflaged with Mossy Oak's newest and most versatile pattern, Obsession®. A non-reflective, antique bronze medallion on the stock of this limited edition Model 11-87 features the Team NWTF logo. Housed in a weather resistant, Monte Carlo style synthetic stock with sling studs and swivels, this Super Mag features an easy-handling 23-inch Rem™ Choke vent rib barrel with Turkey Super Full choke tube included. Ideal for the lower light conditions of turkey hunt, light-gathering adjustable TruGlo® rifle sights top the barrel. The capability to handle 3 1/2 and 3-inch magnum shells and heavy field load 2 3/4-inch shotshells interchangeably, makes this Model 11-87 the answer to virtually every turkey hunting situation. A matching camo padded sling is included. Suggested retail price: \$1013

Model 870 Express Jr. NWTF Jakes Edition – A new addition to Remington's line of Youth shotguns, this Model 870 is designed for the younger hunter with perfect length, weight and balance for ease of handling. This reliable, softer-recoiling 20-gauge pump shotgun has the same Team NWTF logo medallion embedded in the stock and both stock and fore-end feature the multi-functional Skyline® Excel® camo pattern. Based on the time-proven, reliable Model 870 twin action bar design, this 20-gauge Express version can handle magnum 3-inch and 2 3/4-inch loads in a package that fits smaller stature hunters. The Jakes edition has a 12-inch length of pull, a full two inches shorter than standard Model 870 shotguns and one inch shorter than traditional youth models. The 18 3/4-inch Rem Choke vent rib barrel comes with a Full choke and features a single bead sight. Both the barrel and receiver have a non-reflective, matte black finish. For quick attachment of a sling, the stock features a swivel stud and magazine cap swivel stud. Suggested retail price: \$417

NEW CAMO SYNTHETIC OFFERING ADDED TO MODEL SP-10™ LINE-UP

Madison, NC – With its ease of operation, durability and softer recoil, the Model SP-10 Magnum autoloading shotgun is the most popular gas operated 10-gauge shotgun in America. New for 2005 is a 26-inch version Model SP-10 that is fully camouflaged in one of the newest and most versatile patterns, Mossy Oak® Obsession®, making this hard-hitting autoloader perfect for those demanding hunting situations.

Introduced in 1989, the Model SP-10 Magnum has maintained a strong following among hardcore turkey and waterfowl hunters for its smooth-operating gas system and the ability to deliver a heavy payload at maximum ranges. The gas system is corrosion-resistant and provides softer recoil with a design that involves movement of the cylinder, not the piston, as in traditional gas-operating systems. The addition of the revolutionary R3™ Recoil Pad reduces the punch of this 10-gauge by approximately 30 percent and makes this autoloader more comfortable to shoot.

This 10-gauge, 3 1/2-inch SP-10 features a 26-inch vent rib Rem™ Choke, twin bead sight barrel with Full, Modified and Turkey Extra Full tubes included. The rugged, weather-resistant stock is fully covered with Mossy Oak Obsession and has magazine cap stud and rear stud for sling attachment. A durable, padded camo sling completes the package.

The Model SP-10 Magnum Synthetic Camo shotgun is available at a suggested retail price of \$1520.

NEW MODEL 870™ EXPRESS® SYNTHETIC SUPER MAG DESIGNED WITH WATERFOWL HUNTERS IN MIND

Madison, NC – Waterfowl hunters deal with some of the most daunting weather and toughest hunting conditions, which demand durable and reliable shotguns. For over 50 years waterfowlers as well as upland, small game and deer hunters can attest that the Model 870 pump action shotgun lives up to the task, regardless of the conditions. New for 2005, Remington is introducing a Model 870 Express Synthetic designed with the waterfowl hunters in mind – the **Model 870 Express Synthetic Super Magnum Camo** in 3 1/2-inch, 12-gauge.

Fully camouflaged with Skyline® Fall Flight™ for complete concealment, this powerful 12-gauge pump action handles heavy 3 1/2 and 3-inch magnum loads as well as lighter 2 3/4-inch field loads making this Model 870 perfect for high-flying waterfowl and equally effective in the dove field. Featuring a 30-inch vent rib Rem™ Choke barrel (supplied with a Modified choke tube) and standard Model 870 receiver size, this versatile magnum shotgun provides superior balance and smooth-handling characteristics. The synthetic stock and fore-end are designed to endure hard wear and frequent use in the field while the twin action bars eliminate binding or twisting for smooth operation and quick follow-up shots, making this solidly built Model 870 the reliable choice for waterfowl hunters.

The **Model 870 Express Synthetic Super Magnum Camo** shotgun is available at a suggested retail of \$498.

TWO SYNTHETIC FULLY RIFLED SLUG GUNS ADDED TO VALUE-PRICED MODEL 870™ EXPRESS® LINE-UP

Madison, NC – With over 25 versions to choose from and a wide selection of extra barrel offerings, the family of economical Model 870 Express pump action shotguns provide outdoorsmen with a wide range of durable, reliable options for every hunting situation. New for 2005, Remington offers deer hunters the choice of a hard-hitting, 3-inch magnum 12-gauge or lower-recoiling 20-gauge slug gun – the **Model 870 Express Synthetic Fully Rifled Cantilever** shotgun. With the introduction of newer, high performance sabot slug loads, both versions deliver devastating knockdown power with rifle-like accuracy.

The **Model 870 Express Synthetic Fully Rifled Cantilever** shotgun features a weather defying, black synthetic stock and fore-end, equipped with stock and magazine cap swivel studs. The lighter weight 20-gauge pump action is capable of handling 3-inch magnum slug loads and the 18½-inch fully rifled, heavy contour barrel maximizes the performance of today's slug loads. The 12-gauge version has a 23-inch fully rifled barrel with heavy-contour design which decreases recoil and optimizes the accuracy of this hard-hitting magnum. Both versions feature a cantilever scope mount, which accepts Weaver-style rings, for the convenience of adding a scope.

The combination of the venerable Model 870 action, the rugged features of the Express line and the devastating power of Remington's slug loads provides deer hunters with dependable, rifle-like performance in an affordable package. The **Model 870 Express Fully Rifled Cantilever** shotgun is available in 12 or 20-gauge at a suggested retail of \$439.

POPULAR MODEL 870™ EXPRESS® SYNTHETIC OFFERED IN NEW YOUTH COMBO PACKAGE AND VERSATILE SUPER MAG IN 28-INCH BARREL LENGTH

Madison, NC – Reliability, durability and versatility define the extensive line of Model 870 pump action shotguns and for 2005, two new members join the line-up of synthetic offerings – the **Model 870 Express Synthetic Youth Combo** in 20 gauge and the addition of a 28-inch **Model 870 Express Super Magnum™** in 12 gauge.

Model 870 Express Synthetic Youth Combo – This well-balanced, lightweight 20-gauge pump action with 13-inch length of pull is capable of handling 2 3/4 and 3-inch magnum loads and features two barrels to provide all-around versatility in the field. The 21-inch vent rib, Rem™ Choke barrel with Modified choke tube is perfect for small game and practice on the clays course, while the 20-inch fully rifled, rifle sighted barrel optimizes accuracy with today's high performance slug loads. A durable black synthetic stock and fore-end and black matte finish on all metalwork complete this reliable pump action package. Suggested retail price: \$475

Model 870 Express Super Magnum Synthetic – Joining the 26-inch version in the synthetic Express line-up, this Model 870 offering is quite possibly the answer to "one shotgun does it all". Fit with a 28-inch vent rib Rem Choke barrel, this dependable 12-gauge pump action can handle 2 3/4, 3 and 3 1/2-inch shells interchangeably and has a weather resistant black synthetic stock and fore-end. This Model 870 Express is at home in the dove field, duck blind or on the skeet field and provides hunters and shooters with an affordable, all-purpose option. Suggested retail price: \$376

For reliability, durability and versatility in an affordable package, check out the complete line of Model 870 pump action shotguns at www.remington.com.

THE 6.8MM REMINGTON SPC ENTERS THE HUNTING WORLD

Madison, NC – The Remington Core-Lokt® Ultra Bonded bullet has a way of bringing the best performance out of most cartridges. As far as the new 6.8mm Remington SPC goes, it just makes a fantastic cartridge even better. New for 2005, the **6.8mm Remington SPC (Special Purpose Cartridge)** will be available loaded with the 115 grain Core-Lokt Ultra Bonded bullet.

When you combine the unmatched accuracy and terminal performance of the Core-Lokt Ultra Bonded bullet with the versatility and low recoil of the 6.8mm Remington SPC, you definitely have a winning combination that's perfectly suited for medium sized big-game.

Like many of today's most successful hunting cartridges, the origin of the 6.8mm Remington SPC links to a joint venture with the U.S. Military. The 6.8mm Remington SPC was conceived in 2001 to provide soldiers with increased performance at combat ranges out to 500 yards.

When compared to many popular intermediate length hunting cartridges, the 6.8mm Remington SPC outperforms them with increased velocity and energy with lower recoil and a flatter trajectory. For example, when slated against the .30-30 Win cartridge at 200 yards, the 6.8mm Remington SPC delivers virtually 42% more velocity, 55% more energy and 50% (2 inches) less drop in trajectory.

The exciting new 6.8mm Remington SPC, loaded with the 115gr Core-Lokt Ultra Bonded bullet, is an ideal intermediate length cartridge that offers a superb combination of velocity, comfortable recoil and effective on-game performance.

Offerings for 2005:

6.8mm Remington SPC

	Caliber	Bullet Wt.	Bullet Style	Velocity
New	6.8mm Remington SPC	115 grain	PSP Core-Lokt Ultra Bonded	2775 fps
	6.8mm Remington SPC	115 grain	Metal Case	2800 fps
	6.8mm Remington SPC	115 grain	BTHP	2800 fps
	6.8mm Remington SPC	115 grain	Matchking®	2800 fps

REMINGTON EXPANDS ITS GROUND-BREAKING LINE OF MANAGED-RECOIL™ CENTERFIRE RIFLE AMMUNITION

Madison, NC – The 2004 introduction of Remington Managed-Recoil ammunition established a new category of performance-based low-recoil ammunition. Hunters appreciate the benefits provided by a managed recoil product that delivers comfort, confidence, and on-game performance. New for 2005, Remington has expanded its line of **Managed-Recoil** centerfire rifle ammunition to include 300 Win. Mag, and 308 Win.

Now shooters of all experience levels can spend time on the range without the discomfort of stiff recoil. With half the recoil of standard loadings, Remington's Managed-Recoil line offers young shooters the ability to enjoy shooting and hunting without the negative consequences of recoil anticipation. Imagine firing a 300 Win. Mag with non-magnum felt recoil. That's exactly the type of recoil reduction delivered by Remington's Managed-Recoil ammunition.

Not only are Managed Recoil loads a pleasure to shoot on the bench, they are deadly performers on game. Only Remington Managed-Recoil ammunition features bullets that are specifically designed for maximum performance at managed-recoil velocities. Each load features a Core-Lokt® bullet that has been optimized for reliable 2x expansion, 85% weight retention and at least 1100 ft-lbs of energy out to 200 yards. Managed Recoil loads provide the accuracy, game dropping energy and confidence needed for deer-sized game.

Whether you're an experienced shooter seeking more enjoyment at the bench, or you are introducing a newcomer to the world of shooting and hunting, new Remington Managed-Recoil offerings will take you to the next level of performance with comfort, confidence, and superb on-game results.

Offerings for 2005:

Remington® Managed Recoil™

	Cartridge	Bullet Wt.	Bullet Style
	270 Win	115 grain	PSP, Core Lokt
	7mm Remington Mag	140 grain	PSP, Core Lokt
	30-06 Springfield	125 grain	PSP, Core Lokt
New	308 Win	125 grain	PSP, Core Lokt
New	300 Win Mag	150 grain	PSP, Core Lokt

REMINGTON® PREMIER® ACCUTIP™ - THE MOST ACCURATE RAPID EXPANSION AMMUNITION AVAILABLE

Madison, NC - Remington Premier AccuTip ammunition features a precision engineered polymer tipped bullet that is designed for sub minute-of-angle accuracy at 100 yards. The polymer tipped nose and secant ogive profile produce an extremely high ballistic coefficient that flattens trajectory and preserves down range energy. The copper jacket is specifically constructed, under a proprietary manufacturing process to deliver more progressive expansion and improved weight retention than other tipped hunting bullets. These performance characteristics, coupled with the superior down-range energy, make it a perfect choice for medium-size big game such as whitetail, mule deer and antelope. New for 2005, Remington **Premier AccuTip** will be available in 280 Remington in 140 grain.

In varmint calibers, Remington Premier AccuTip ammunition features the AccuTip-V bullet which shares the same sleek profile as our hunting bullets, but is designed with a very thin jacket and soft lead core to provide devastating expansion on impact.

New for 2005, the popular 22 Hornet will be loaded with a 35 grain **AccuTip-V** bullet. At 3100 fps, this new light weight premier offering elevates the 22 Hornet to a true high-performance cartridge by increasing the velocity and flattening trajectory.

Offerings for 2005 are as follows:

Remington® Premier® AccuTip™

Caliber	Bullet Weight
243 Winchester	95 grain
260 Remington	120 grain
270 Winchester	130 grain
280 Remington	140 grain
7mm-08 Remington	140 grain
7mm Remington Magnum	150 grain
30-06 Springfield	150 grain
30-06 Springfield	165 grain
300 Win Mag	180 grain
308 Winchester	165 grain

Remington® Premier® AccuTip-V

Caliber	Bullet Weight
17 Remington	20 grain
204 Ruger	32 grain
204 Ruger	40 grain
221 Remington Fireball	50 grain
22 Hornet	35 grain
222 Remington	50 grain
223 Remington	50 grain
223 Remington	55 grain
22-250 Remington	50 grain
243 Win	75 grain

REMINGTON BRINGS BLISTERING SPEED TO ITS PREMIER® ACCUTIP™ LINE WITH THE ADDITION OF THE NEW 204 RUGER

Madison, NC – The best way to improve upon a new cartridge that delivers an amazing 4,225 feet-per-second muzzle velocity is to couple it with a bullet that exhibits match-grade accuracy and rapid, explosive expansion. New for 2005, Remington has added the **204 Ruger** to its line of **Premier AccuTip** ammunition.

The efficient design of the 204 Ruger cartridge achieves this amazing muzzle velocity while consuming less powder than other high-performance cartridges. This results in lower operating pressures and longer barrel life while extending long-range shooting opportunities for varmint hunters. Remington will offer the 204 Ruger loaded with 32 and 40 grain weight bullets.

In varmint calibers, Remington Premier AccuTip ammunition features the AccuTip-V bullet, a precision engineered polymer tipped bullet that is designed for sub minute-of-angle accuracy and explosive expansion. The tip and sleek profile produce an extremely high ballistic coefficient that flattens trajectory and preserves down range energy while the copper jacket is specifically constructed, under a proprietary manufacturing process, to deliver devastating expansion on impact.

Offerings for 2005:

Remington® Premier® AccuTip™ Varmint Calibers

Caliber	Bullet Wt.	Velocity
17 Remington	20 grain	4,250 fps
204 Ruger	32 grain	4,225 fps
204 Ruger	40 grain	3,900 fps
221 Remington Fireball	50 grain	2,995 fps
222 Remington	50 grain	3,140 fps
223 Remington	50 grain	3,300 fps
223 Remington	55 grain	3,240 fps
22-250 Remington	50 grain	3,725 fps
243 Win.	75 grain	3,375 fps

REMINGTON ADDS AMERICA'S HOTTEST NEW RIMFIRE CARTRIDGE TO ITS 2005 LINE-UP

Madison, NC – The 17 MACH2™ is taking the rimfire world by storm. Not since the introduction of its big brother, the 17 HMR™, has the rimfire community expressed such excitement and interest generated by a new product. New for 2005, Remington Premier® 17 MACH2 rimfire ammunition will be offered with an explosive 17 grain AccuTip-V™ bullet and a sizzling muzzle velocity of 2100 fps.

Remington Premier® 17 MACH2 surpasses most standard 22 long rifle cartridge loadings by over 500 fps in velocity, resulting in a trajectory that's nearly seven inches flatter at 150 yards than a standard high-velocity 22 long rifle cartridge. When coupled with the famous AccuTip-V™ bullet, a super accurate, gold polymer-tipped bullet designed for explosive on-game performance, Premier® 17 MACH2 offers a truly high-performance package all in a compact 22 long rifle sized cartridge. Remington Premier® 17 MACH2 also utilizes the Eley priming process that ensures consistent and reliable ignition.

Whether used for precision target shooting or high-volume varmint hunting, the Premier 17 MACH2 will impress you with its lightning speed, flat trajectory, unbelievable accuracy, and best of all, its affordable price.

REMINGTON EXPANDS ITS LINE OF UMC® RIFLE CARTRIDGES

Madison, NC – The Remington UMC brand of ammunition has provided the high-volume shooter with uncompromised quality and value for decades. This brand covers a broad spectrum of the most sought after pistol, revolver, and centerfire rifle calibers.

To further meet the needs of today's volume rifle shooter, Remington UMC has expanded its offerings for 2005 to include the popular 50 grain Jacket Hollow Point loadings of 223 Remington and 22-250 Remington cartridges. The higher ballistic coefficient of the 50 grain JHP bullet provides greater down-range performance with less wind drift making these the perfect choice for varmint hunting.

All UMC ammunition is made in our Lonoke, Arkansas manufacturing facility using only first quality components to provide the best value for practice, personal defense or hunting. The UMC brand of rifle ammunition is loaded in seven popular calibers.

Offerings for 2005:

UMC® Rifle Cartridges

	Caliber	Bullet Wt.	Bullet Style	Velocity
	223 Remington	55 grain	MC	3240 fps
	223 Remington	45 grain	JHP	3550 fps

THE NEW 45 GAP CARTRIDGE - NOW AVAILABLE IN REMINGTON* UMC* HANDGUN AMMUNITION LINE

Madison, NC - To continually meet the changing needs of today's high volume shooter, Remington has expanded its American-made UMC line for 2005. Now fans of the new **45 GAP (Glock Auto Pistol)** will have easy access to more affordable high quality practice and training ammunition. The Remington UMC handgun ammunition line will include 45 GAP in both 230 grain Metal Case and Jacketed Hollow Point versions.

The 45 GAP was designed to provide 45 Auto performance in a shorter case, with similar overall length to the 9mm and 40 S&W cartridges. The UMC 45 GAP offerings will deliver outstanding accuracy and reliable feeding in the more compact, smaller framed handguns, resulting in a more comfortable balance of size and power for training or personal defense ammunition.

Remington's UMC brand of ammunition has provided the high-volume shooter with uncompromised quality and value for decades. All UMC ammunition is made in our Lonoke, Arkansas manufacturing facility using only first quality components to provide the best performance and value for practice, personal defense or hunting. UMC ammunition covers a broad spectrum of the most sought after pistol, revolver, and centerfire rifle calibers.

REMINGTON OFFERS CONVENIENT CONSUMER-PACK RELOADING COMPONENTS

Madison, NC – For decades, avid handloaders have relied on Remington rifle and pistol reloading components to provide them with quality, consistency, and durability. Whether you are in search of primers, bullets or brass, Remington has made reloading much easier for the consumer by providing a full array of top quality components in convenient small quantity packaging.

Using Remington's award-winning packaging system, reloaders will find it much easier than ever before to purchase and store smaller quantities of brass and bullets. Whether your interests are in the older "classic" cartridges or today's modern designs, like the Remington long and short action Ultra Mag series, 204 Ruger and 6.8mm Remington SPC, Remington has the right components to build that perfect load.

Remington components are well known to be the finest available for top quality handloads. Our stringent manufacturing methods combined with special alloy brass provide superior cases resulting in more reloads, better consistency and increased accuracy.

A great load requires a great bullet. Remington offers rifle shooters the world famous Core-Lokt® hunting bullets and Power-Lokt® varmint bullets. For pistol and revolver shooters all popular bullet styles and weights necessary for practice, competition or personal defense are available. Whatever your shooting discipline, there is a Remington bullet style to meet your needs.

Remington Consumer-Pack components offer 100 piece rifle and pistol bullets, 100 piece pistol and revolver unprimed brass, and 50 and 100 piece unprimed rifle brass.

REMINGTON® BUCKHAMMER® - THE MOST DEVASTATING LEAD SLUG - NOW AVAILABLE IN 20 GAUGE 3"

Madison, NC – As far as serious deer hunters are concerned, the Remington BuckHammer has created a new level of performance for lead shotgun slugs. The BuckHammer's unique design and performance characteristics set it apart from all other lead slugs. For hunters who prefer the quick handling of a light-weight 20 gauge slug gun, Remington now proudly offers the **BuckHammer slug in a 20 ga. 3"**, 1oz. version.

Unlike traditional sabot slugs, the BuckHammer's unique attached stabilizer allows for a full bore diameter lead slug that delivers devastating terminal performance with unsurpassed accuracy. When used in conjunction with a fully rifled barrel, the Remington BuckHammer slug delivers 3" or better groups at 100 yards.

This specialized Remington slug system with its uniquely engineered BuckHammer slug delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter. These attributes combine to produce the most devastating lead slug available to hunters today.

Offerings for 2005 are as follows:

Remington® BuckHammer® Lead Slug

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity	Muzzle Energy
	12ga	2 3/4"	1 1/4 oz	1550 fps	2935 ft-lbs

REMINGTON OFFERS THE PERFECT PHEASANT HUNTING LOAD FOR ANY SITUATION

Madison, NC – Every serious upland hunter knows the sport of pheasant hunting can drastically change with the seasonal conditions. Remington has you covered with a complete line of pheasant hunting ammunition, designed specifically to suit the needs of the pheasant hunter from those close shots of opening day to the wild-flushing birds of late season.

Remington Nitro Pheasant™

New for 2005, Remington has tilted the odds in the hunters' favor with the introduction of Remington Nitro Pheasant™ shotshell loads. Available in high velocity and magnum loads, Nitro Pheasant offers the best combination of pattern, energy and performance. Specifically designed to enhance penetration and lethality while delivering tighter patterns at longer ranges, Nitro Pheasant consists of premium, extra hard, Copper-Lokt® plated shot, protected by Remington's famous power-piston wad, and is encased in a unique sparkle hull design that sets it apart from other offerings.

Remington Pheasant Loads

The perfect load for "most" pheasant hunting situations, Remington Pheasant Loads consist of customized powder and payload formulas for dense patterns on large game birds at all ranges, providing the hunter with increased performance over standard field loads. Remington Pheasant Loads feature moisture resistant hulls and are available in a large variety of offerings including 16ga.

Remington Shur Shot® High Base Pheasant

Shur Shot High Base Pheasant is a value-priced heavy field load that's ideal for pheasant hunting. Features like its Power-Piston one piece wad, hard lead shot and high velocity combine to create a well balanced multi-purpose field load.

Whether you're a weekend warrior or an avid upland hunter that wouldn't dare miss a day of season, Remington has you covered with the perfect load for any situation.

Offerings for 2005

REMINGTON® NITRO PHEASANT™ LOADS - THE ULTIMATE PHEASANT LOAD FOR THE SERIOUS UPLAND HUNTER

Madison, NC – Late season pheasant hunting can test the skill, patience, and especially, the ammunition, of the serious upland hunter. New for 2005, Remington has tilted the odds in the hunters' favor with the introduction of Remington Nitro Pheasant shotshell loads.

Specifically designed to deliver maximum performance, Nitro Pheasant shotshells consist of premium, extra hard, Copper-Lokt® plated shot, protected by Remington's famous Power Piston® wad, and encased in a unique sparkle hull design that sets it apart from other offerings.

New Nitro Pheasant high brass loads deliver a 12 gauge, 1 1/4 oz. payload at 1400 fps and a 20 gauge, 1 oz payload at 1300 fps. These high velocity loads provide an increase in overall payload energy and individual pellet energy for outstanding results at extended ranges. For hunters that prefer a magnum shot charge, Premier Pheasant loads are also offered in 12 gauge, 1 3/8 oz. payload at 1300 fps and a 20 gauge, 1 1/4 oz payload at 1185 fps.

2005 New Offerings

Nitro Pheasant™ Shotshell Loads

Gauge	Length	Dram Eq	Velocity	Payload	Shot Size
12ga	2 3/4"	Max Dram	1400 fps	1 1/4 oz	#4, 5, 6

REMINGTON® MANAGED-RECOIL™ BUCKHAMMER® - THE PERFECT COMBINATION OF COMFORT AND DEVASTATING PERFORMANCE

Madison, NC – You never hear the words comfort and performance in the same description when it comes to high-performance shotgun slugs. It's been an accepted fact that shotgun slugs equate to punishing recoil. Well, that's not the case any more with the introduction of Remington **Managed-Recoil BuckHammer**, the newest member of the Remington pioneered Managed-Recoil™ family.

Offered in a 12 gauge 2 3/4" configuration, Remington Managed-Recoil BuckHammer slugs are the first high-performance lead slugs designed to significantly cut felt recoil by 41% without sacrificing on-game performance.

The Remington BuckHammer lead shotgun slug combines the devastating knockdown power of a full bore diameter (.73 caliber) lead slug with unsurpassed accuracy. When used in conjunction with a fully rifled barrel, Remington Managed-Recoil BuckHammer delivers 3" or better groups at 100 yards while maintaining over 1000 ft-lbs of energy.

This specialized Remington slug system with its uniquely engineered BuckHammer slug and attached, stabilizing wad delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter. These attributes combine to produce the most devastating lead slug available to hunters today.

Now, hunters of all ages can actually enjoy the necessary ritual of those pre-hunt practice sessions. Remington Managed-Recoil BuckHammer will build confidence on the range and still deliver devastating performance when it really counts.

Offerings for 2005 are as follows:

Remington® Managed-Recoil™ BuckHammer® Lead Slug

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity	Muzzle Energy
New	12ga	2 3/4	1 1/8 oz	1350 fps	2000 ft-lbs

REMINGTON* PREMIER* STS* AND PREMIER* NITRO 27* - DOMINATING THE CLAY-TARGET SHOOTING WORLD

Madison, NC – Remington Premier STS and Premier Nitro 27 clay target ammunition can be found in the shell bags of the nation's top shooters regardless of clay-shooting discipline. When nothing but the best will do, Premier STS and Premier Nitro 27 provide the consistency and confidence to get the job done.

The unmatched performance of Premier STS and Premier Nitro 27 was clearly demonstrated again this year, at the 2004 ATA Grand American World Trapshooting Championships. For the second year in a row, Remington Premier® STS® and Premier® Nitro 27® were clearly the ammunition of choice, enabling shooters to take home more trophies than any other shotshell brand available.

The prevalence of Premier STS target loads doesn't stop on the nation's trap fields. Skeet and sporting clays shooters have access to an unmatched array of loads to choose from that are specifically designed to put them at the top of their game. For example, new for 2005, Remington Premier STS Low-Recoil will be offered in 12 gauge, #9 shot size.

Remington Premier STS Low Recoil shotshells are the softest shooting, full payload target loads available. The maximum 1 1/8 oz shot charge coupled with the soft recoil of the Premier STS Low Recoil create the perfect load for those extended shoot-offs at skeet and are just the ticket for 16 yard trap.

When one clay target can mean the difference between earning a championship and "just shooting a good score," competitive shooters realize their ammunition of choice must exhibit unbeatable performance and absolute reliability. Remington Premier STS and Premier Nitro 27 provide the design features that give shooters a distinctive competitive advantage.

REMINGTON® GUN CLUB® TARGET LOADS - THE BEST PERFORMING VALUE-PRICED TARGET LOAD AVAILABLE

Madison, NC – Remington Gun Club target loads seem almost too good to be true. It's hard to imagine a value-priced target load that provides the shooter with many of the quality features found in our top of the line target loads. Maybe that's why Remington Gun Club target loads are the best selling target loads available.

Remington Gun Club Target loads exhibit the following performance features:

- Highly-reloadable corrugated Remington Green hull
- One-piece unibody construction
- STS primer for consistent ignition
- Gun Club grade hard lead shot
- Power Piston® one-piece wad

Remington Gun Club target loads cover all the clay shooting disciplines, and with the new 7 1/2 shot size, those tough, long-range sporting clays and trap targets will be a snap.

Offerings for 2005 are as follows:

REMINGTON INTRODUCES NEW COLLECTIBLE KNIVES

Madison, NC – Long noted for its collectible knives, Remington Arms Company announces several new additions. Celebrating two anniversaries in 2005, Remington is offering the **100th Anniversary Remington Autoloading Shotgun Knife** in honor of 100 years of manufacturing quality American, autoloading shotguns. The anniversary knife features an American walnut handle with a clip blade, serrated bone/cartilage blade, 12/20 Ga. choke tool, screwdriver, and pin punch, all made of 440 A stainless steel etched with the anniversary dates and First in the Field logo. When closed the knife is 4 1/4-inches. This limited edition knife comes in a nostalgic Remington style designer display box.

Remington is also celebrating its 50 year anniversary of the .44 Remington Magnum with a knife featuring a 3-inch recurved serrated blade with anniversary dates etched in the 420 high carbon stainless steel. The .44 magnum headstamp is embedded in the stainless steel handle that also features a pocket clip for easy carry. The **50th Anniversary .44 Remington Magnum Knife** comes in an attractive display box.

Ninth in the **Wildlife Knife Series** is Tom Beecham's "Timber Wolves." This multi-blade folder features a vintage bone handle that is 3 3/4-inches when closed. The master drop point blade is 3-inch and is finely etched with the scene (Timber Wolves) by Tom Beecham. The pen blade is 2 1/4-inches long. The 2004 wildlife knife comes in a designer display box.

The ever popular **Remington Bullet knives** have just added the "Maverick" to its line-up. This beautiful multi-blade folder features a clip blade of 3 1/16-inches and a spey blade of 3-inch with a closed measurement of 4 1/4-inches. Utilizing the R4353B pattern, the "Maverick" showcases a beautiful handle made from genuine black cherry jig bone. The "Maverick" is worthy of the Bullet Knife name.

The Remington Collectible knives are all made in the U.S.A. and available at your local Remington dealer or log on to www.remington.com.

REMINGTON COUNTRY BEEF JERKY MADE THE OLD FASHIONED WAY FOR TODAY'S OUTDOORSMEN

Madison, NC – Remington, one of America's most recognized brands and a leader in the hunting and outdoor markets, is giving hunters and outdoors men and women something new to chew on. Remington Country Beef Jerky, in four popular flavors, is the latest entry into the growing meat snack market. Beef jerky has long been a favorite field snack for hunters. Known as an excellent source of protein and valued for its long, non-refrigerated shelf life, beef jerky is perfect for a quick pick-me-up for outdoorsmen and women of all ages. With the current food trends towards low-carbohydrate diets, beef jerky is one of the fastest growing snacks in America.

Remington Country Beef Jerky is made the traditional way by slowly smoking solid strips of beef over a wood fire. Remington Country Beef Jerky is available in Jalapeno, Teriyaki, Mesquite, or Original flavor. Every 4 ounce bag is resealable and fits easily into a hunter's pack or your kid's lunch box. Remington chooses only USDA select beef for their beef jerky. Remington Country Beef Jerky is 97% fat free, no additives added and naturally high in protein.

Remington Country Beef Jerky can be found at your local sporting goods store.

For more information about Remington Country Beef Jerky or their other fine products, log on to www.remington.com or call 800-243-9700.

REMINGTON® REMDRI™ 35 DESICCANT FOR GUN SAFES AND CABINETS

Madison, NC – Remington Arms Company knows the importance of preventing rust corrosion, mold, and mildew on your firearms and other valuables. **RemDri 35 Desiccant** is a non-toxic silica gel and carbon granular mixture packaged in spill proof 16-oz. tear-resistant Tyvek® bags. The silica gel has thousands of tiny microscopic pores which hold and trap moisture, while the granular carbon helps eliminate odors. There is no water to spill or drain as the RemDri traps the moisture inside the tiny granules. RemDri 35 Desiccant is rechargeable for multi-use and has an easy to read color coded indicator which tells you when to recharge. To recharge, simply place the RemDri 35 Desiccant in a standard household oven at 200°F for 3-4 hours or until the indicator returns to blue.

RemDri 35 Desiccant helps keep your gun safe or cabinet free from rust corrosion in a low-cost, reusable, easy to use package. Remington RemDri 35 Desiccant is available at your local Remington dealer or log onto www.remington.com to find out more.

REMINGTON GUN SAFE PROTECTION WITH THE MODEL 365 MINI DEHUMIDIFIER

Madison, NC – Remington Arms Company is offering a new technology for 2005 that protects gun safes and cabinets. Proper reduction of moisture levels in sealed compartments is essential to prohibit the formation of rust and mildew on your firearms and other valuables. The Remington **Model 365 Mini Dehumidifier** is a compact, self-contained unit that attracts and traps moisture inside thousands of tiny water crystals. Unlike some chemical dehumidifying products, there is no water to drain or spill. The Mini Dehumidifier requires no wiring or extension cords and absorbs moisture into the water crystals for 30 to 60 days before a color coded indicator window lets you know when its time to recharge. Recharging is accomplished by simply plugging the unit into a standard household outlet for 8-12 hours in an open room and allowing the water vapor to escape.

The Remington Model 365 Mini Dehumidifier is the perfect solution providing ease of use and installation in a small rechargeable unit. The Remington Model 365 Mini Dehumidifier is available at your local Remington dealer or log onto www.remington.com to find out more.

REMINGTON ANNOUNCES NEW DIVISION FOR DISTRIBUTION OF VALUE-PRICED SHOTGUNS

Madison, NC – Remington Arms Company, Inc. announced today the formation of a new division, **Spartan Gunworks™ by Remington**, to bring a line of quality, value-priced, break-action shotguns to the U.S. marketplace. Working with an importer of record and exclusive broker, United States Sporting Goods (USSG) of Sharpes, Florida, Remington will deliver a line of durable, well designed single shot, side-by-side and over-and-under shotguns at a cost that gives consumers "the best value" on the market.

Company President and Chief Executive Officer, Thomas L. Millner, made the announcement to Remington employees and the company's sales agencies stating, "We made the decision to grow Remington beyond its traditional boundaries and in doing so, we will be bringing exceptional value to our customers." Millner continued, "After nearly 24 months of research and exploring firearms manufacturers worldwide, we selected a company in a centralized Russian city to produce these high quality, affordable break action guns. Their competency in design, metalwork and manufacturing details represents craftsmanship that provides outstanding value."

Spartan Gunworks will initially sell their line through a limited retail distribution channel. With 17 versions to choose from in the full range of gauges including a youth version, Spartan Gunworks will provide the "working man" with high quality, durable single shot, side-by-side and over-and-under shotguns at a reasonable price. All Spartan shotguns will feature a one-year warranty, which will be honored through Spartan Gunworks by Remington.

Remington Arms Company, Inc., headquartered in Madison, North Carolina, is one of the world's leading manufacturers of sporting firearms, ammunition and accessories. The company employs nearly 2,500 worldwide and maintains facilities in Ilion, New York; Lonoke, Arkansas; Mayfield, Kentucky; Findlay, Ohio; Ada, Oklahoma; and Elizabethtown, Kentucky.

SPARTAN GUNWORKS™ BY REMINGTON INTRODUCES A LINE OF VALUE PRICED BREAK-ACTION SHOTGUNS

Madison, NC – With the recent creation of the division - **Spartan Gunworks by Remington**, Remington Arms Company, Inc., introduces a brand of high quality, high value single shot, side-by-side and over-and-under break-action shotguns. Seventeen initial offerings, including a youth version, are available in a full range of gauges.

The Spartan Gunworks **Model SPR100** Single Shot will be positioned as an entry-level, single barrel shotgun known for its durability and craftsmanship. Painstakingly crafted with top-quality materials and manufactured to the highest standards, the Model SPR100 features chrome lined, hammer-forged blued barrel, machined steel receiver and Titanium-coated trigger. Featuring a hardwood fore-end and stock with butt plate, this single shot is designed with safety and durability in mind. The Model SPR100 unique hammerless design features a visible cocking indicator located on the receiver tang. The cross trigger block safety is placed in a familiar location at the rear of the trigger guard. A user friendly feature of the Model SPR100 is the selective ejector/extractor allowing for the choice of extraction or ejection of the shell upon opening the action. Initial offerings include a 12-gauge, 3-inch version with 28-inch plain barrel and fixed modified choke; 20-gauge, 3-inch with 26-inch plain barrel and fixed modified choke; and a youth version in .410 bore with 24-inch plain barrel, fixed improved modified choke and rubber recoil pad. The Model SPR100 single shot break-actions are available at a suggested retail price of less than \$100. Whether it is your son or daughter's first shotgun or your "workhorse" shotgun in the back of the pickup, the Spartan Model SPR100 fits the bill.

Spartan Gunworks will also offer shooters a line of hunting side-by-side shotguns, the **Model SPR210 Single Trigger** and the more economically priced **Model SPR220 Double Trigger**. The high quality, reasonably priced Model SPR210 is crafted with machined steel mono block receiver, box lock action and chrome lined, hammer forged barrels with deep blued finish. Barrel selection is as easy as the simple push of the barrel selector located on the trigger. Other features include solid rib with bead sight, screw-in improved cylinder, modified and full Spartan chokes, auto tang safety and automatic selective ejectors. Completing this handsome package is a checkered, solid walnut beaver tail fore-end and stock with rubber butt pad. With most of the same features, the value-priced Model SPR220 has an extractor system and is available in 12 and 20-gauges. The Model SPR210 Single Trigger is available in 12, 16, 20, 28-gauges and .410 bore. Suggested retail prices range from \$320 to \$420. For complete specifications on each model, please see the chart below.

The Spartan Model SPR310 Single Trigger Over-and-Under shotgun and the Model SPR320 Double Trigger Over-and-Under shotgun offer consumers a choice of two well-designed stacked barrel guns for the field or the gun club at an affordable price. The classic-styled fore-end and stock are constructed of sturdy walnut with checkering, which is complimented by the blued metalwork. The hammer forged vent rib barrels feature a hard chrome lining and the mono-block receiver is machined from solid steel. Like the Spartan side-by-side shotguns, these break-actions feature auto tang safety, screw-in chokes and rubber butt pad. Automatic selective ejectors are standard on the single trigger version and a mechanical extractor on the double trigger model. The Model SPR310 is available in 12, 16, 20, 28-gauges and .410 bore while the double trigger, Model SPR320 is offered in 12 and 20-gauges. Suggested retail prices range from \$420 to \$490. For complete specifications on each model, please see the chart below.

For "Old World" craftsmanship, durability and great value look to Spartan Gunworks for your break-action shotgun needs. Visit our web site at www.spartangunworks.com for further information on this exciting new line of value priced shotguns from Remington.

SPARTAN GUNWORKS™ BY REMINGTON INTRODUCES A NEW LINE OF SYNTHETIC AUTOLOADING SHOTGUNS

Madison, NC – The Spartan Gunworks **Model SPR453** line of synthetic autoloading shotguns features five ruggedly-designed 12-gauge (3.5-inch) offerings for scattergun enthusiasts, including camouflaged versions.

These durable autoloaders feature a hammer-forged chrome-lined barrel, hammer-forged steel magazine tube and a self-regulating gas system that can be adjusted to handle 2.75-inch light target to heavy magnum 3.5-inch loads. Each **Model SPR453** is fit with a weather-resistant synthetic stock and fore-end, rubber butt pad and vent rib barrel with twin bead sights. Extended screw-in Spartan choke tubes are included and are all approved for use with lead, steel and Premier® Hevi-Shot® loads. Familiar cross bolt-style safety is located at the rear of the trigger guard. The purchaser has the option of the SPR453 autoloaders in either matte black synthetic in 26 or 28-inch barrel lengths with blued metalwork or fully camouflaged with Mossy Oak® New Break-Up® in 24, 26 or 28-inch barrel lengths.

For the wingshooter and upland game enthusiast, no matter what his interest - waterfowl, turkeys or upland game, this can be either an all-purpose or single-purpose shotgun at a reasonable price. Suggested retail prices range from \$390 to \$419.

For specifications on each **Model SPR453 Synthetic Autoloading Shotgun**, please see the chart below or visit our web site at www.spartangunworks.com.

SPARTAN GUNWORKS™ BY REMINGTON ANNOUNCES EXTENSIVE DISTRIBUTOR LINE OF VALUE-PRICED FIREARMS

Madison, NC – Remington Arms Company, Inc. announced the formation of a new division, **Spartan Gunworks by Remington**, in early 2004, importing a line of quality, value-priced shotguns to the U.S. marketplace. The initial Spartan Gunworks offerings included single shot, side-by-side and over-and-under break-action shotguns, available to consumers through retail chains. For 2005, Remington is pleased to announce the expansion of Spartan Gunworks with the introduction of an extensive offering of value-priced shotguns and rifles, which will be available through wholesale distribution.

When the new division was first announced, Company President and Chief Executive Officer, Thomas L. Millner, made the following comments to Remington employees and the company's sales agencies stating, "We made the decision to grow Remington beyond its traditional boundaries and in doing so, we will be bringing exceptional value to our customers." Millner continued, "After nearly 24 months of research and exploring firearms manufacturers worldwide, we selected a company in a centralized Russian city to produce these high quality, affordable break action guns. Their competency in design, metalwork and manufacturing details represents craftsmanship that provides outstanding value."

The expansion of the Spartan line readily provides consumers with some of the best values in the marketplace today and complements the product lines offered under the Remington name. All Spartan firearms will feature a one-year warranty, which will be honored through Spartan Gunworks by Remington. For additional information and specific product offerings, please visit our web site at www.spartangunworks.com.

Remington Arms Company, Inc. is one of the world's leading manufacturers of sporting firearms, ammunition and accessories. The company employs nearly 2,500 worldwide and maintains facilities in Ilion, New York; Lonoke, Arkansas; Mayfield, Kentucky; Findlay, Ohio; Ada, Oklahoma; and Elizabethtown, Kentucky and is headquartered in Madison, North Carolina.

SPARTAN GUNWORKS™ BY REMINGTON EXPANDS LINE WITH FOUR AFFORDABLE SINGLE-BARREL SHOTGUNS

Madison, NC – Spartan Gunworks by Remington introduces a line of upgraded single-barrel shotguns to the **Model SPR100** family for 2005, which will include 12-gauge and 20-gauge Sporting versions and fixed choke 410 bore version as well as a Youth 410. These new additions will feature the same careful craftsmanship, utilizing top-grade materials and the highest manufacturing standards, found in existing offerings in this line of affordable single shots.

The **Model SPR100** series has a unique hammerless design with a visible cocking indicator located on the receiver tang. This enables shooters to cock (and un-cock) the gun by squeezing the same lever that opens the action. Another feature found on these offerings is a selective ejector/extractor allowing for either option when the action is opened.

The **Model SPR100 Sporting** single shot is available in 3-inch, 12 and 20-gauge chamberings and features chrome-lined, hammer-forged blued 28-inch barrel, polished nickel receiver, and titanium-coated trigger. Other upgrades include solid walnut fore-end and Monte Carlo stock with rubber recoil pad, along with a nicely profiled vent rib. The Sporting models are provided with four screw-in Spartan chokes and selective ejector/extractor. Suggested retail price: \$169

The **Model SPR100** offerings include two 410 bore, 3-inch versions. The 24-inch barrel 410 Youth model has a fixed full choke with an extractor, while the standard 26-inch barrel 410 comes with a fixed full choke and the ejector/extractor option. Both guns feature nickel receivers and vent rib barrels. Suggested retail price: \$129

These are guns with solid, workman-like features made to last. They make an ideal "first gun" for a youngster or newcomer to shooting, a handy accessory to be carried ready at hand in a farm truck, or a fine companion for a casual "mixed bag" hunt of the sort many hunters knew in yesteryear. These are quality shotguns at a truly reasonable cost.

For complete specifications on each **Model SPR100** offerings, please see the chart below or visit our web site at www.spartangunworks.com.

UPGRADED HUNTING SIDE-BY-SIDE SHOTGUNS ADDED TO THE SPARTAN GUNWORKS™ LINE

Madison, NC – The Spartan Gunworks **Model SPR210 Single Selective Trigger Side-by-Side** line of hunting shotguns will include five new offerings in 2005 – two 12-gauge versions, 20 and 28-gauge versions and 410 bore.

The new **Model SPR210** line will feature carefully polished nickel mono block receivers, box lock actions and chrome-lined, hammer-forged barrels with a deep blued finish. A gold trigger adds to the gun's aesthetic appeal. This tight, smooth side-by-side has a single trigger, with barrel selection being easily accomplished by a push of the selector located on the trigger. Additional features include a solid rib with bead sight, four screw-in Spartan chokes (12 and 20-gauge) or fixed chokes (28-gauge and 410 bore), automatic tang safety and automatic selective ejectors/extractors. Visual appeal and functionality are enhanced by a walnut stock and beavertail fore-end, checkering and a rubber butt pad.

The upgraded **Model SPR210** is available in **12-gauge (26 or 28-inch barrels)**, **20-gauge (26-inch barrels)**, **28-gauge (26-inch barrels)** and **410 bore (26-inch barrels)** versions. The **Model SPR210** side-by-sides offer a handsome, effective double barrel with first-rate performance qualities at suggested retail prices of \$420 (12 and 20-gauge) to \$450 (28-gauge and 410 bore).

For complete specifications on each **Model SPR210 Side-by-Side** shotgun, see the chart below or visit our web site at www.spartangunworks.com.

LINE OF NOSTALGIC COWBOY ACTION SIDE-BY-SIDE SHOTGUNS INTRODUCED BY SPARTAN GUNWORKS™

Madison, NC – Spartan Gunworks is introducing a line of Cowboy Action side-by-side shotguns, featuring Single Selective Trigger and Double Trigger versions. These affordable, nostalgically-designed shotgun offerings evoke memories of the American West, appealing to today's Cowboy Action enthusiast. These practical break-actions are also ideal for use as a personal protection firearm. The initial offering of six Cowboy Action side-by-sides includes 12 and 20-gauge chamberings with box-lock actions in traditional, internal hammer and external hammer models.

The Model SPR210 Cowboy Action shotgun features internal hammer, single selective triggers along with a machined steel mono block receiver, hammer-forged chrome-lined 20-inch barrels with solid rib and an automatic tang safety. The traditional pistol grip-style butt stock and semi-beavertail fore-end feature cut-checkering and are made of solid walnut. Available in 12 (2.75-inch) and 20-gauge (3-inch) versions, these side-by-sides come with a set of four screw-in Spartan chokes. Suggested retail price: \$390

The Model SPR220 Cowboy Action shotgun presents similar features but has an eye-catching nickel receiver, double triggers, and an option of either screw-in chokes in 12-gauge (2.75-inch) and 20-gauge (3-inch) versions or a more economically-priced, blued receiver 12-gauge (2.75-inch) with fixed cylinder chokes, standard machined steel receiver and hardwood stock. These compact side-by-sides will retail for \$279 to \$335.

The 12-gauge, 2.75-inch Model SPR220 has a more traditional style with functioning external hammers and firing pins, engraved side plates and steel butt plate. Like the economical SPR220, the solid rib barrel has four screw-in Spartan chokes and double triggers, and this model features a 20-inch barrel length for ease of handling and upgraded walnut stock. Suggested retail price: \$450

For complete specifications on each of the Spartan Gunworks Cowboy Action Side-by-Side shotguns, see the chart below or visit our web site at www.spartangunworks.com.

SPARTAN GUNWORKS™ MODEL SPR310 SPORTING OVER-AND-UNDER LINE DESIGNED FOR THE SPORTING CLAYS SHOOTER

Madison, NC – The Spartan Gunworks **Model 310 Sporting** series offers sporting clays enthusiasts a 12 and 20-gauge over-and-under, crafted with their needs specifically in mind. These well-designed target guns have all of the attributes and effectiveness of over-and-unders with much higher price points.

The sporting version of the **Model SPR310** features hammer-forged and chrome-lined barrels, polished nickel receivers with deep engraving, selective ejectors and a single selective trigger. The competition-grade stock and fore-end have hand-cut checkering while the stock features a right hand palm swell. Both are constructed of high grade walnut. The barrels are ported and the wide rib has twin bead sights. Screw-in Spartan chokes (Full, Modified, Improved Cylinder and Cylinder) are included. Suggested retail price: \$615

SPARTAN GUNWORKS™ BY REMINGTON INTRODUCES A COMPLETE LINE OF OVER-AND-UNDER SHOTGUNS

Madison, NC – Spartan Gunworks is offering an upgraded line of over-and-under shotguns in the full range of gauges - the **Model SPR310** series. There will be a total of seven guns in the series, with the available over-and-unders including two 3-inch 12 gauges (26 and 28-inch barrels), 16 gauge (2.75-inch), two 3-inch 20 gauges (26 and 28-inch barrels), 28 gauge (2.75-inch) and 410 bore (3-inch) versions.

All **Model SPR310 Over-and-Under** shotguns feature hammer-forged and chrome-lined barrels, polished nickel receivers, and come with checkered walnut fore-ends and stocks. They also include vent rib barrels with four screw-in Spartan choke tubes (12, 16 and 20-gauge) or fixed Modified and Improved Modified (28-gauge and 410 bore), rubber butt pads, auto selective ejectors/extractors, auto tang safeties and single selective triggers.

Whether intended for use afield or on a sporting clays range, the **Model SPR310** series provides quality performance, smooth handling and aesthetic appeal at a modest price. Suggested retail prices from \$516 to \$545.

SPARTAN GUNWORKS™ INTRODUCES VERSATILE OVER-AND-UNDER SHOTGUN/RIFLE COMBO

Madison, NC – The **Model SPR94** from Spartan Gunworks will offer hunters a break-action over-and-under shotgun/rifle combo that will take old-timers back to the days when such firearms were common, while offering all hunters welcome versatility when afield. The combos, seven of them in all, will be available in 12-gauge (3-inch) and 410 bore (3-inch) and a variety of centerfire and rimfire calibers.

All SPR94 shotgun/rifle combos feature hammer-forged, chrome-lined blued 24-inch barrels and machined steel receivers. Other standard attributes include double triggers, extractors, walnut stocks and fore-ends, rubber butt pads, an 11mm scope rail and adjustable open sights.

The **Model SPR94** combo offerings in full-choked 410 bore include .22LR, .17HMR and .22WMR, ideal choices for small game and varmint hunters. Twelve-gauge, 3-inch offerings include .223 Rem, .308 Win, and .30-06, suitable for predator and deer hunters. The 12-gauge models are supplied with Full, Modified, Improved Cylinder and Cylinder screw-in choke tubes.

At suggested retail prices of \$236 for rimfire and \$519 for centerfire versions, these firearms offer a ready crossover answer to the type of hunting dilemmas often faced with quarries that can be hunted with rifles or shotguns. In addition, the 410 combos are fine guns for youngsters.

See specifications for all **Model SPR94 Over-and-Under Shotgun/Rifle Combo** offerings in the chart below or visit our web site at www.spartangunworks.com.

SINGLE SHOT CENTERFIRE RIFLES JOIN THE SPARTAN GUNWORKS™ LINE-UP FOR 2005

Madison, NC – The Spartan Gunworks Model SPR18 line of single-shot centerfire rifles offer hunters inexpensive, durable rifle in four popular calibers options. For 2005, these Spartan single shots will be chambered in .223 Rem, .243 Win, .270 Win and .30-06 Sprg offerings.

All SPR18 rifles feature hammer-forged, chrome-lined 23.5-inch barrels with distinctive spiral taper, an internal hammer and nickel receiver. Other features include a cross trigger block safety, walnut stock and checkered fore-end, rubber butt pad, one-inch swivels, an adjustable rear sight and 11 mm Weaver-style scope rail.

Attractive, highly functional and priced to be affordable for any hunter, these handy Model SPR18 rifles, weighing just less than seven pounds, will appeal to everyone from small game and varmint hunters to whitetail enthusiasts. Suggested retail price: \$223

SPARTAN GUNWORKS™ SIDE-BY-SIDE RIFLES OFFER CLASSIC STYLING AT AN AFFORDABLE PRICE

Madison, NC – The Spartan Gunworks **Model SPR22** side-by-side rifles combine modern technology and tradition to give sportsmen and women a fine hunting gun at a reasonable price. For 2005, two chamberings will be available in the new Model SPR22 series including **.30-06 Sprg** and **.45-70 Govt.**

Instead of applying standard, expensive methods for double-rifle barrel regulation, these side-by-sides use an innovative technique to assist with the sighting in process. One barrel is fixed and can be sighted in by the shooter. Then, using the Model SPR22 adjustable barrel regulation system, a jackscrew located between the barrels adjusts the second barrel's point of impact to the first one's point of impact.

The **Model SPR22** rifles feature machined steel, mono block receivers, hammer-forged and chrome-lined 23.5-inch barrels, sling swivels and double triggers. Other attributes include adjustable iron sights, checkered walnut fore-ends and stocks with rubber butt pads, extractors and 11 mm Weaver-style scope rails. An auto safety is located on the receiver tang.

Reasonably priced, this style of rifle that was once immensely popular among African hunters now offers American hunters sound medicine for varmints, whitetails or other big game. Suggested retail price: \$559

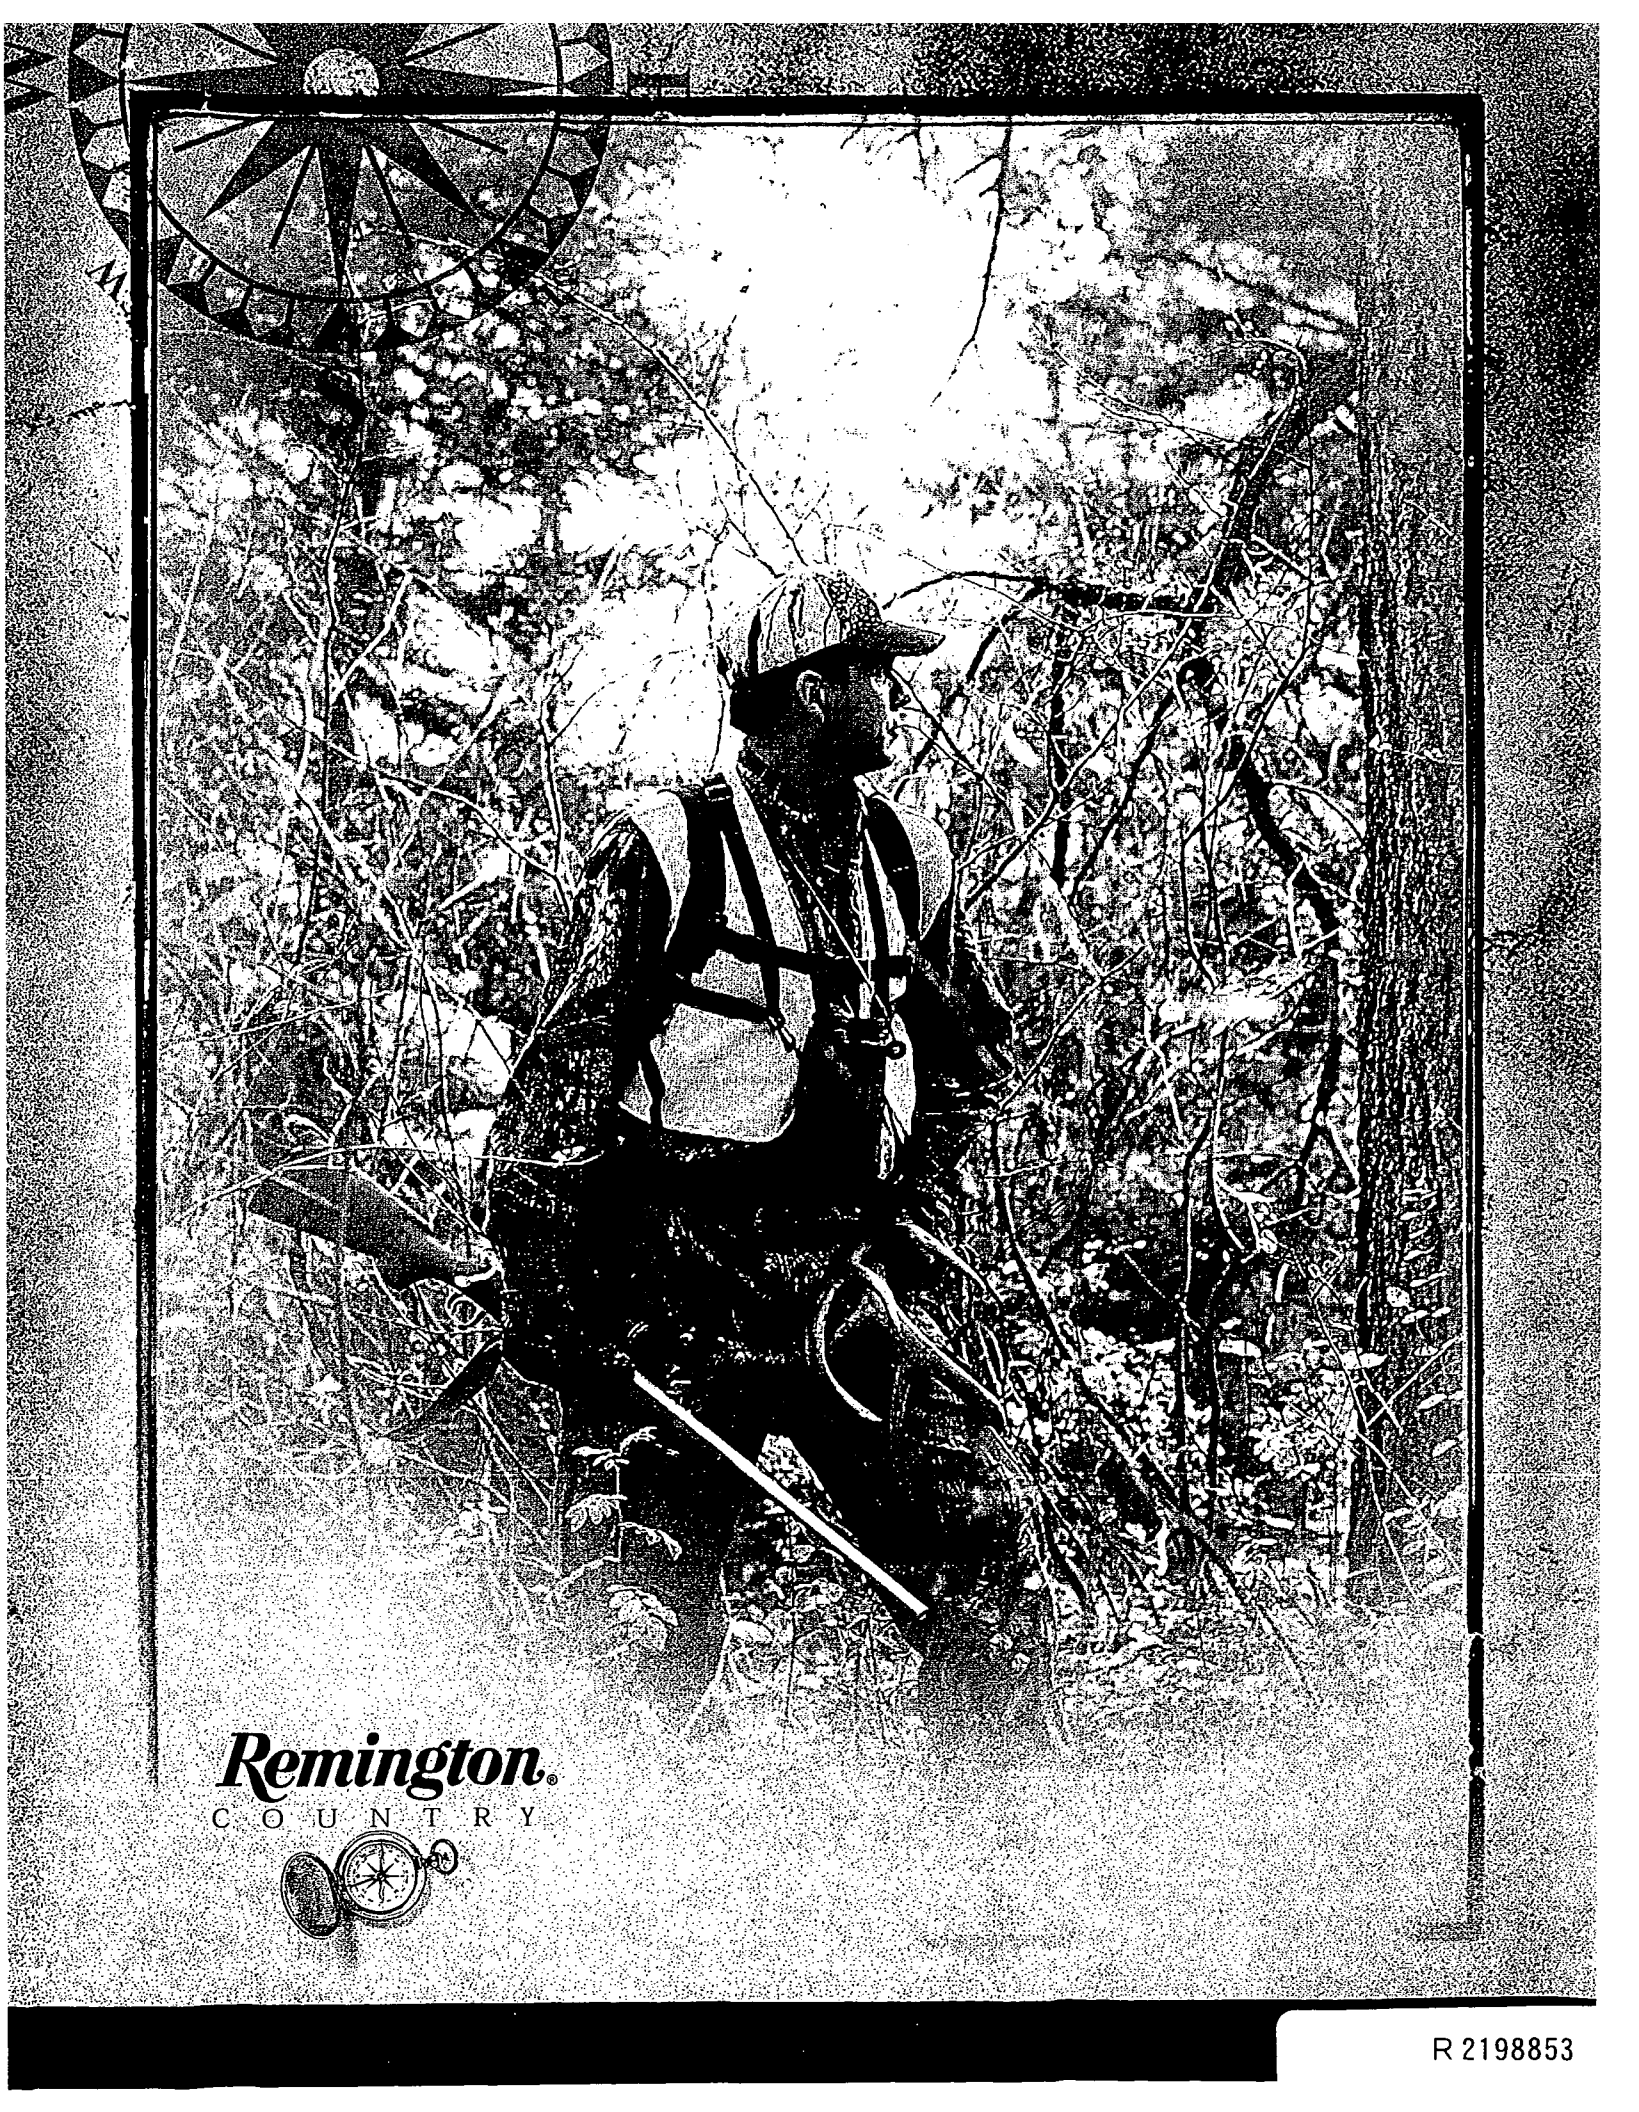

See specifications for **Model SPR22 Side-By-Side** rifles in the chart below or visit our web site at www.spartangunworks.com.
