Remington R₃TM Recoil Pad

- **Designed and Manufactured using Remington R₃ Three Step Technology from LimbsaverTM**
- **Technology Optimized for the ultimate in recoil abatement**
- **Available exclusively on select Remington Firearms and as an Accessory item for most synthetic stock Firearms**

LimbsaverTM & NAVCOMTM are
trademarks of Sims Vibration Laboratory

Remington.

Remington R₃TM Recoil Pad

Remington R₃ Three Step Technology

1. ABSORBS

2. REDIRECTS

3. COMPRESSES

Remington.

Remington R₃TM Recoil Pad

1. ABSORBS Vibration

- LimbsaverTM proprietary NAVCOMTM (Noise And Vibration Control Material) material ABSORBS shock and reduces vibration
- Less vibration allows the shooter to stay on target
- Allows for faster follow-up in multiple shot scenarios

Remington.

Remington R₃TM Recoil Pad

2. REDIRECTS Energy

- LimbsaverTM technology utilizes specially designed internal “mushrooms” to redirect recoil energy outward in a 360° range rather than straight back into the shooter’s shoulder
- Results in greater comfort to the shooter

Remington.

Remington R₃TM Recoil Pad

3. COMPRESSES under recoil

- Specially designed internal air chambers allow the pad to compress under recoil
- Pad acts as a shock-absorber between the firearm and the shooter
- Turns the “punch” of recoil into a “push”

Remington.

Remington R₃TM Recoil Pad

Remember the Three Steps:

1. ABSORBS

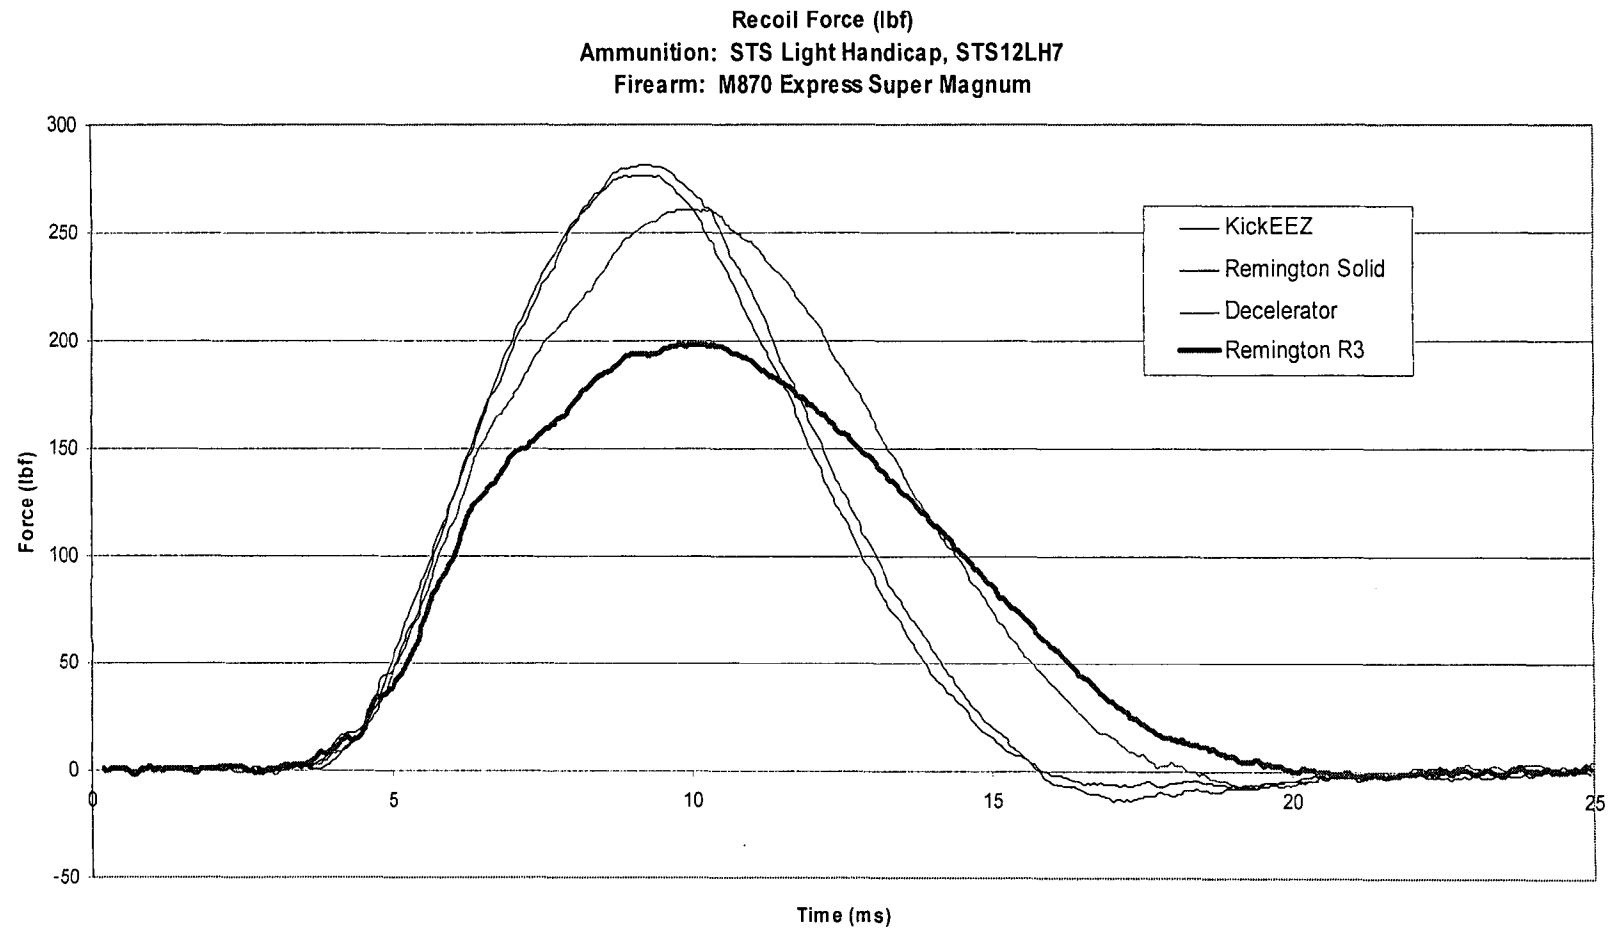

2. REDIRECTS

3. COMPRESSES

Lead to more comfortable shooting!
