2008 CATALOG

FIREARMS, AMMUNITION
& ACCESSORIES

THIS IS REMINGTON COUNTRY

First duck hunts. Last-hour bucks. The coveys and flocks, great dogs and fine shots. For 192 years, Remington and the American sportsman have seen it all together. And just as the sporting tradition is written more deeply in our hearts each year, so grows our dedication to providing the finest, most innovative and technologically superior selection of firearms, ammunition and accessories in the world. Chances are, you've seen us in the field. Testing what we build, and coming up with new ideas. Everything you see on the following pages is a testament to our experience and love for the game. This isn't just what we do, it's what we eat, sleep and breathe. This is Remington Country.

(pages 26-27)

Look for this logo – these special firearms
are offered exclusively by
Remington® Premier Dealers.

NEW FIREARMS

In 2008, we celebrate history and make plenty more with a host of radical new design upgrades. Special commemorative edition firearms include the **Model Seven™ 25th Anniversary** rifle chambered in 7mm-08 Remington (Page 32) and our **Model 870™ Wingmaster® "100th Anniversary of Pump Action Shotguns"** 12 gauge (Page 14). The **Model 11-87™ Sportsman® Super Mag ShurShot™ Turkey** (Page 10) showcases our new ambidextrous, ultra-comfortable ShurShot pistol-grip stock with ultra-long-range, bird-crushing capabilities. One of the most significant advancements in rifle technology in the 21st century, our patent-pending triangular barrel contour debuts on the tack-driving **Model 700 VTR™** (Page 22).

Model R-15 VTR. Cut links from the food chain as fast as you can pull the trigger. We took our world-leading expertise in hunting rifles to the industry's top AR-platform rifle builder and the ultimate predator rifle was born. This new modular repeating rifle marks the beginning of a new era in Remington Country. One of blazing speed, pinpoint accuracy and very deadly implications for every coyote, fox or bobcat that crosses your path.

SHURSHOT™ TURKEY SYNTHETIC
(pages 10-11)

MODEL 700 VTR™
(pages 22-23)

Power Level Ammunition.™ In 2007 Remington® used a breakthrough in propellant technology to bring you Power Level Ammunition in 300 Remington Ultra Mag.™ This unique ammunition offers hunters the ability to use one gun, in one chambering to obtain three performance levels. The same technology is now available for 2008 in the world's flattest shooting 7mm cartridge: **7mm Remington Ultra Magnum.™** Learn more about Power Level Ammunition (Page 65).

MODEL R-15 VTR™ PREDATOR
(pages 38-39)

NEW AMMUNITION

Premier® AccuTip Sabot Slug. A new level of pinpoint precision and deer-leveling performance. Guided by the superior aerodynamics of our **Power Port™ Tip**, it delivers dramatically improved accuracy, along with perfect mushrooms and 95% weight retention from 5 to 200 yards thanks to spiral nose cuts, bonded construction and a high-strength cartridge-brass jacket. This .58-caliber sabot slug is the largest available today.

PREMIER ACCUTIP
BONDED SABOT SLUG (page 50)

NEW CUTLERY

Continually on the cutting edge of cutting edges, our 2008 family of cutlery has something for everyone – from hunters to collectors. Three new high-performance hunting/tactical families bolster our already industry-leading lineup (Page 77). And the three new collectible knives include this year's **Bullet® Knife, "The Veteran"** (Page 78), a **100th Anniversary of Pump Action Shotguns Edition Folder** (Page 78), as well as the final model in our **Outdoor Exploration Series** (Page 78).

NEW SUPERCCELL™ RECOIL REDUCTION: SO EFFECTIVE, OUR PUMP GUN BEATS THEIR AUTOS.

Ten years of rigorous R&D has produced a recoil pad far superior to anything the world has seen before. So effective in fact, our Model 870 pump shotgun now produces 54% less recoil than competing autoloaders with their factory pads. Welcome the most effective recoil pad on the planet, the 21st century's most remarkable development in recoil reduction. SuperCell.

Look for the logo – SuperCell recoil pads are standard equipment on select products for 2008. Also available as an accessory (page 49).

Absorbs force more efficiently than any pad in the world. "Kick" is reduced to a gentle push.

Lightweight and tough. Also enhanced with a smooth surface for rapid gun mounting.

A complex matrix of SuperCells instantly soak up and redistribute energy over longer time frame.

Our pump gun now kicks less than their auto. SuperCell cuts the recoil and crushes the hype of other systems like no other.

THE WORLD'S MOST EFFECTIVE RECOIL

PAD. This year, the new SuperCell™ recoil pad will single-handedly revolutionize the shooting sports. Its development marks the beginning of a new era in which a pump-action Model 870 produces up to 54% less recoil force than competing autoloaders. Where high-velocity magnum rifles become mild, and introducing new shooters to our sport is smoother and less intimidating. A time of better first shots, and faster second and third shots.

RECOIL'S HOLDING CELL. SuperCell technology is the product of 10 years' rigorous R&D by the top recoil-suppression experts in the industry. Using a complex matrix of millions of SuperCells, this advanced polymer construction harnesses and releases energy over a much longer time period. Rearward force of your gun is reduced from a "kick" to a gentle push and muzzle travel is diminished, resulting in the softest shooting experience possible. All from a pad that's extremely lightweight, durable and enhanced with a smooth surface for rapid gun mounting.

MAKING RECOIL-REDUCTION HISTORY.

AGAIN. For more than 200 years, we've pioneered better shooting through improved recoil reduction. Beginning in 1885 with rubber pads, vented pads in 1948, TPE (thermoplastic elastomer) pads in 1987 and now with SuperCell, an entirely new technology that will forever change the way recoil is harnessed. Welcome to the SuperCell era.

MODEL 870™ WITH SUPERCCELL™ VS. MODEL 870 WITH COMPETITORS' PADS.

"Felt recoil" is peak force vs. the amount of time that force is applied to the shoulder. By spreading force over a longer period than any other pad, SuperCell is proven most effective at reducing felt recoil. We fitted the competitors' pads to our Model 870 – SuperCell dominated.

OUR PUMP BEATS THEIR SEMI-AUTOS.

By absorbing force over a longer time period, SuperCell helped our Model 870 produce up to 54% less recoil than a competitor's autoloading shotgun with factory pad. The Model 11-87 with SuperCell™ was the softest shooting of all shotguns tested.

WWW.REMINGTON.COM/SUPERCCELL

Log on, watch the video, and see more conclusive proof SuperCell is this century's most remarkable development in recoil reduction.

Highlights of pad comparison.

THE ULTIMATE FUSION OF AMBIDEXTROUS FREEDOM AND DEAD-SURE STABILITY.

Combining the best of thumbhole and pistol-grip designs, our new **ShurShot™** stock affords right- and left-handed shooters equally astounding levels of shooting comfort and rock-steady aim. It was developed to meet the demands of deer, turkey and predator hunts. Namely: increased maneuverability and extended-range precision.

The natural, ergonomic pistol grip optimizes pointability and works in conjunction with the revolutionary new SuperCell™ recoil pad to cancel felt recoil for more accurate first shots and faster follow-ups. Its ultra-lightweight design makes your Model 870™ or Model 11-87™ a dream to carry. And the comb is specially contoured for rapid eye alignment with your sights or scope.

Proving to be one of the most lethal developments in shotgun technology since the 3 1/2" 12 gauge chambering, the new ShurShot stock is redefining lethal range and handling ease. Look for it on many new Model 870 and Model 11-87 shotguns this year. (See page 49.)

THE REMINGTON ARMS CO.
IS PROUD TO CONTINUE THE LEGACY OF

THE PARKER GUN

PREMIER®
FIREARMS

A TIMELESS,
PERFORMANCE-DRIVEN DESIGN
FROM AMERICA'S OLDEST GUNMAKER.

Every bit as wicked on the birds as they are beautiful to the eye, our Premier® series Over and Unders have taken the hunting community and upland fields by storm. The combination of meticulous craftsmanship, incredible balance, superior pointing characteristics and rock-solid reliability has earned these shotguns high marks with America's most serious shotgunners. Trim, low-profile receivers and an overall sleek form make them a dream to carry and lightning-responsive at the flush.

The prestigious **Premier Over & Under Ruffed Grouse** edition showcases the Ruffed Grouse Society logo in 14k gold on both sides of the black onyx frame. It also features a gold-script Remington insignia "R" on the floorplate, which has become the premier symbol of our status as America's Oldest Gunmaker. This remarkable 20 gauge has 26" barrels and features a straight-grip, English-style stock. The refined appearance of its woodwork is topped off with a satin finish.

Field Grade and Upland Grade Over & Unders are intricately engraved with game scenes and available in 12, 20 and 28 gauge with 26" or 28" barrels. Upland Grade has oil-finished woodwork and a case-colored receiver. The Field Grade is equipped with a nickel receiver and deep satin-finished stock and fore-end. No matter which model from this lineup you choose, it will be a hunting companion to last a lifetime.

NOT A REMAKE. NOT A REPLICA. IT'S A PARKER.

For nearly a century and a half the Parker Gun has been a fixture in the landscape of American firearms. Today, the legacy continues with the newest addition to the Parker family of guns, the extremely limited AAHE 28-Gauge Parker Gun.

The AAHE 28-Gauge is built to your specifications using the original Charles Parker Co. blueprints and drawings, and priced at \$49,000. We're proud to say the very few of these shotguns that will be offered are available exclusively from the Remington Arms Co. If you're serious about owning one of the most treasured firearms in history, visit our Web site at www.parkergunmakers.com or email us at parker@remington.com.

- FAA-approved lockable hard case

*ProBore Chokes are not interchangeable with Rem™ Chokes.

ALL PREMIER® SERIES SHOTGUNS FEATURE
THE GOLD SCRIPT REMINGTON INSIGNIA "R"

PREMIER® STS®

OVER & UNDER

**AT REMINGTON,
WE DON'T STAY THE COURSE,
WE MASTER IT.**

Developed using input from professional shooters worldwide, our 12-gauge Premier® STS® Competition Over and Unders are quickly crushing their way to the top of the competitive scene. Superbly balanced with a sleek, low-profile receiver and built rock-solid, they're a serious competitor's dream.

Every facet is optimized to excel in high-speed, high-volume shooting sports arenas. The barrels are overbored (0.735") with lengthened forcing cones to enhance pattern consistency and lessen felt recoil. For ultra-smooth operation and long-term protection from heat and wear, we added a nickel-plated receiver. A 10mm target-style rib with ivory front bead and steel midpost aid in target acquisition. We even fine-tuned the point of impact using input from professional target shooters. A set of five ProBore® Choke tubes with knurled extensions helps you quickly adapt to changing conditions and courses.

For added comfort, there's a right-hand palm swell, and the lustrous satin wood finish is complemented by a gold trigger and engraved receiver. Other features include a target-Schnabeled fore-end and premium hard case. Barrels are offered in 28", 30" and 32" lengths with standard stock and 30" or 32" with adjustable comb.

COMPETITION SHOTGUNS

**CONFIDENCE
IS OFFICIALLY TANGIBLE.**

No shotguns have won more titles, or are better equipped for the high-volume regimen of today's elite shooters. Prepare to see record scores crushed at a rapid rate by our latest upgrade to the lineup – the new Model 1100™ Premier Sporting series. Featuring nickel receivers with intricate fine-line embellishments and gold accents, they're as aesthetically impressive as they are sweet to point and shoot. Gold triggers and a custom Premier Sporting hard case complete the package. The Premier is offered alongside our original Model 1100 Sporting shotguns. Both the Model 1100 Sporting and Sporting Premier series offer discriminating shooters 12, 20, 28 and 410 options with semi-fancy American walnut stocks and fore-ends, vent-rib Rem™ Choke barrels and four Briley™ extended chokes as standard equipment.

Our Model 1100 Competition is super-tuned for the competitive scene. By overboring the 30" barrel and lengthening the forcing cones, we improved shot-to-shot pattern consistency and made what was one of the softest-recoiling actions in the world even easier on your shoulder. The receiver and all internal parts feature a nickel-Teflon® finish for the smoothest, most reliable cycling ever. It's optimized for 2 3/4" target loads and light field loads. Its optional adjustable comb can be fine-tuned to your shooting preference, and the barrel has a 10mm target-style rib. All these, plus a host of other upgrades, transform an already legendary design into an unstoppable force at the range.

Generations of die-hard competitors have made our Model 1100 Classic Trap and famous Model 870™ Classic Trap venerable mainstays. From 16s to the very back line, they continue to shoot their way to the top of major events every year.

- High grade walnut stocks

Intricately embellished nickel receiver of Model 1100™ Premier Sporting models.

MODEL 105 CTi™ AUTOLOADER

Remington 105 CTi

**THAT FEELING, WHEN THE
BIRDS SEEM TO FOLD THEMSELVES...
WE BUILT IT.**

It transforms the shot to a fluid, effortless motion. With 48% less recoil and weighing a mere 7 lbs., the Model 105 CTi™ is the softest-shooting, lightest 12-gauge semi-auto shotgun we've ever built. It's truly the world's most advanced autoloader, inside and out. The first-ever skeletonized titanium shotgun receiver accommodates both 2 3/4" and 3" shells and is wrapped with a stout carbon-fiber covering to create the ultimate fusion of toughness and reduced weight. It's also home to the only bottom feed and eject mechanism on a semi. This "Double-Down" system is truly ambidextrous and produces no peripheral distraction from ejecting shells.

Recoil is reduced to a gentle push by the four-part dampening process, including an optimized gas system, overbored barrel with lengthened forcing cones, in-stock hydraulic recoil suppressor and recoil pad. The simplified gas system has very few moving parts, requires less cleaning and there's virtually nothing to wear out or replace. Along with reducing felt recoil, the overbored barrel enhances pattern consistency.

Available with a 26" or 28" barrel, this revolutionary 12 gauge also features a tournament-grade trigger and our PVD coating that forms a protective outer barrier to corrosion and scratching. Our ProBore® choke tubes are optimized for the overbored barrel and measure 0.735", as opposed to the standard 0.727" found on most 12-gauge bores.

FAA-APPROVED
LOCKABLE HARD CASE

MODEL 1100™ G3 AUTOLOADER

**THE MOST
TRUSTED IN HISTORY,
ENGINEERED FOR THE FUTURE.**

Soft recoil, dependability, balanced pointing characteristics – the Model 1100™ G3 is all that made the original Model 1100 America's most trusted semi-auto shotgun, only better.

Available in 12 and 20 gauge, its improved, technologically advanced gas system cycles 2 3/4" and 3" magnum loads with equal efficiency. By coating key internal parts with Teflon®, we've created an action that's easier to clean, smoother and more reliable. The plated receiver adds durability and a great new look. Felt recoil is reduced and pattern consistency is improved by the overbored barrel.

Then there's Realwood®, our exclusive high-grade walnut construction that meshes genuine American walnut with carbon reinforcements for striking looks that will withstand extreme abuse.

No autoloader has folded more birds or crushed more targets than the venerable Model 1100. We're proud to announce the legacy has advanced – welcome the next generation – the Model 1100 G3.

MODEL 105 CTI™

MODEL 105 CTI™
Available in: 12 gauge (2 1/4" and 3")

For complete model listings and specifications, see page 91.

CUSTOM-CHECKED FORE-END
AND STOCK

"DOUBLE-DOWN" BOTTOM FEED
AND EJECT SYSTEM

AIRCRAFT-GRADE TITANIUM RECEIVER
WITH CARBON-FIBER SHELL

FEATURES

- Three ProBore® chokes – Improved Cylinder, Modified, and Full (flush mount)
- Aircraft-grade titanium receiver body, resulting in lighter weight
- Skeletonized receiver with carbon-fiber shell adds strength while reducing the overall weight of the gun
- Target-grade trigger – newly designed trigger group for a crisp, consistent trigger pull

PATENTABLE FEATURES

- ROTATING BOLT LOCK-UP – for efficient and reliable operation
- RATE REDUCER – regulates bolt velocity and absorbs recoil
- ROLLER SEAR – crisp 3 1/4- to 4-lb. trigger pulls
- BOTTOM FEED AND EJECT SYSTEM – efficient ambidextrous design with no peripheral distractions

*ProBore Chokes are not interchangeable with Rem™ Chokes.

MODEL 1100™ G3
Available in: 12 and 20 gauge (2 1/4" and 3")

MODEL 1100™ G3 (Left-Hand)
Available in: 12 gauge (2 1/4" and 3")

NEW

Remington® Realwood® Construction. This Remington-exclusive process bonds two pieces of solid, semi-fancy American walnut with a carbon reinforcement to produce an amazing blend of strength, durability and stunning good looks. No film or coating – just real wood.

For complete model listings and specifications, see page 91.

FEATURES

- America's most popular autoloading shotgun with 2 1/4" and 3" capability
- Internal parts plated with nickel-Teulon® finish for ultra-smooth reliability: receiver, action bars, action-bar sleeve, magazine tube, hammer and sear
- PVD coated receiver
- Realwood® carbon-reinforced, high-grade American walnut laminate stock and matching fore-end
- Stylish new checkering pattern
- 12-gauge models feature overbored barrels (0.735") and lengthened forcing cones
- All models equipped with 5 choke tubes (ProBore® on 12 ga., Rem® Choke on 20 ga.)
- Insignia "R" on grip cap

*ProBore Chokes are not interchangeable with Rem™ Chokes.

MODEL 11-87™ SPORTSMAN®

**RUT TO STRUT,
IN EVERY BLIND AND UPLAND FIELD
BETWEEN.**

No matter the season, our Sportsman® answers the call with the lethal blend of speed, reliability and smooth operation that has made the Model 11-87™ a standout since its introduction. These are workhorse shotguns built to our legendary and uncompromising standards for autoloader performance. This year's expanded lineup includes 12- and 20-gauge field versions, 12- and 20-gauge fully rifled slug guns with cantilever barrels in black and camo, a 20-gauge youth model, as well as specialized options for turkey and waterfowl.

Consider the **Model 11-87 Sportsman ShurShot™ Camo Cantilever** 2008's deer season MVP. Featuring our new ShurShot™ synthetic pistol-grip stock, it launches 2 3/4" or 3" 12-gauge slugs with ambidextrous accuracy. Right- and left-handed shooters alike will marvel at the exceptional comfort, maneuverability and rock-steady hold offered by this new stock design. The new SuperCell™ recoil pad tames hard-hitting slug rounds with unmatched efficiency. Its superior shock absorption, when combined with the soft-shooting Model 11-87 action, facilitates rapid, accurate followup shots and gives you more confidence on your first shot. It's dressed from butt to bore in Realtree Hardwoods® HD™ camo and has a 23" barrel that's quick to point. A built-in cantilever mount makes adding optics a cinch. With its unfailing reliability, superior handling characteristics and breadth of line, the Model 11-87 Sportsman is redefining semi-automatic shotgun performance, year after year, buck after bird.

MODEL 11-87™ SPORTSMAN® SUPER MAGNUM

**THE QUICKEST & SMOOTHEST
IN SUPER MAGNUM STRENGTH.**

When it's time to reach out and crush a big bird, reach for the awesome speed, bone-crushing power and swift pointing characteristics of our Model 11-87™ Super Magnum. Offered in specialized waterfowl and turkey configurations as well as in a standard black synthetic version with a 28" Rem™ Choke barrel, these shotguns tame the biggest, baddest 3 1/2", 12-gauge rounds with a soft-shooting action and our revolutionary new ultra-shock-dissipating SuperCell™ recoil pad. Along with world-renowned dependability, these shotguns are equipped with a wealth of specialized features for your game of choice.

Our new **Model 11-87 Sportsman Super Magnum Waterfowl** definitely looks the part with full Mossy Oak® Duck Blind™ camo coverage. The 28" Rem Choke barrel features a HiViz® interchangeable sight system for rapid sight acquisition in low-light conditions. And the included Wingmaster HD™ Specialized Waterfowl choke tubes are a lethal ticket when the birds are cupped and committed.

The **Model 11-87 Sportsman Super Magnum ShurShot™ Turkey** is the cutting edge in comfort and precision shot placement. Our new ambidextrous ShurShot synthetic pistol-grip stock provides right- and left-handed shooters alike with a rock-steady hold and awesome maneuverability. Its design also aids in lessening felt recoil. When you combine this attribute with the world-leading recoil-suppressing capability of our new SuperCell recoil pad, you have one soft-shooting machine. The quick-pointing 23" barrel has fully adjustable TruGlo® fiber-optic sights for pinpoint shot placement. We've also included a Wingmaster HD Turkey extended Rem Choke that'll help you flatten gobblers at the farthest reaches of shotgun range.

MODEL 11-87™ SPORTSMAN® SHURSHOT™ CAMO CANTILEVER

MODEL 11-87™ SPORTSMAN® SHURSHOT™ CAMO CANTILEVER

Available in: 12 gauge (2 1/4", 3" and 3 1/2")

MODEL 11-87™ SPORTSMAN® SUPER MAG SYNTHETIC
Available in: 12 gauge (2 1/4", 3" and 3 1/2")

MODEL 11-87™ SPORTSMAN® SUPER MAG SHURSHOT™ TURKEY
Available in: 12 gauge (2 1/4", 3" and 3 1/2")

MODEL 11-87™ SPORTSMAN® SUPER MAG WATERFOWL FEATURES

- Ergonomically designed for superior handling
- Constructed with solid steel receivers for strength and durability
- Features smooth operating actions that reduce wear and provide quick follow-up shots
- Fully covered in Mossy Oak® Duck Blind™
- 28" Rem™ Choke barrel with a set of Wingmaster HD™ Specialized Waterfowl choke tubes
- HiViz® interchangeable sight system

A truly ambidextrous design, the ShurShot™ pistol grip stock delivers lightweight comfort, steady shooting and rapid handling for both right- and left-handed shooters.

For complete model listings and specifications, see page 92.

MODEL SP-10™

SPECIAL PURPOSE

A FAMILY OF PERFECT 10s.

For serious extended-range shotgunners, the Model SP-10™ is the ultimate in lethality — from duck blinds to the turkey woods and everywhere in between. Its 3 1/2" 10-gauge payloads are significantly superior in patterning efficiency to 12-gauge 3 1/2" guns, and even produce less felt recoil. It features a corrosion-resistant gas-operated action in which the cylinder — not the piston — moves, helping dampen rearward force. Ultra-reliable and smooth, it's the only shotgun worthy of the ultimate bird-leveling payload.

Ducks and geese beware: The big gun is now available with the state-of-the-art wetlands concealment — new Mossy Oak® Duck Blind™ camouflage. The Model SP-10™ Waterfowl features a 26" Rem™ Choke barrel with a high-visibility fiber-optic sight system, and comes with a full set of three Briley extended specialized waterfowl choke tubes.

Our Model SP-10 Thumbhole camo will reach out and bust a tom in grand fashion. Its thumbhole stock, adjustable Williams® fiber-optic Fire Sights™ and handy 23" barrel make it the ultimate gobbler stopper. It's also fully dressed in Mossy Oak® Obsession™ camo.

The Model SP-10 Magnum Camo and Model SP-10 Magnum Satin come equipped with 26" or 30" vent-rib Rem™ Choke barrels with twin beads and interchangeable Full and Modified Rem chokes. Choose from a Mossy Oak® Obsession or a traditional wood-stocked Satin finish.

MODEL SPR453™

AUTOLOADING
SHOTGUNS

AN AUTOMATIC CHOICE FOR FIELD, WOODS & WATER.

We made it more affordable than ever to own a gas-operated 12 gauge that handles everything from 2 3/4" field loads to 3 1/2" magnum rounds. This slick-handling, reliable autoloading shotgun is an incredible value for today's hunter. For a morning's dove shoot with No. 8s, pounding ducks with steel 2s or anchoring a tom with a heavy payload of No. 4's, its manually tunable gas system delivers smooth cycling and softens felt recoil for fast follow-up shots. Dual extractors on the bolt face ensure reliable, ultra-positive ejection.

The vent-rib barrel and receiver have a matte finish for non-glare concealment. Its black synthetic stock is impervious to the elements and stands up to abuse. And it comes from the factory with four choke tubes — improved cylinder, modified, full and super-full — to cover a full season of applications.

We just made your next shotgun purchase an automatic decision — no matter what you're hunting for.

**MODEL SP-10™
THUMBHOLE**
Available in: 10 gauge (3 1/2")

**MODEL SP-10™
MAGNUM CAMO**
Available in: 10 gauge (3 1/2")

**MODEL SP-10™
MAGNUM SATIN**
Available in: 10 gauge (3 1/2")

**MODEL SP-10™
WATERFOWL**
Available in: 10 gauge (3 1/2")

For complete model listings and specifications, see page 91.

FEATURES

- America's most popular gas-operated 10-gauge shotgun
- Awesome 10-gauge power will handle any waterfowl or turkey hunting situation
- Model SP-10 Thumbhole comes with Williams® fiber-optic Fire Sights™ on a 23" barrel
- Camouflage versions fully covered in Mossy Oak® Obsession™ or Duck Blind™
- All come with sling swivels and padded sling

The thumbhole stock distributes recoil and gives you a rock-solid grip for increased accuracy.

MODEL SPR453™

MODEL SPR453™
Available in: 12 gauge (2 1/2", 3" and 3 1/2")

For complete model listings and specifications, see page 91.

FEATURES

- Dependable operation with lighter 2 1/4" loads to heavy 3 1/2" magnums
- Dual extractors on bolt face
- Supplied with four extended screw-in SPR choke tubes - Improved Cylinder, Modified, Full and Super-Full Turkey (All tubes are steel approved)
- Choice of 24", 26" and 28" vent-rib barrels
- Manually tunable gas system delivers smooth cycling and softens felt recoil
- 4+1 capacity

MODEL 870™ WINGMASTER®

THE MOST POPULAR SHOTGUN IN HISTORY
COMMEMORATES OURS.

One hundred years as the world's foremost innovator of pump-action shotguns is cause for celebration — and our leader is dressed for the occasion. In the field or in a showcase, the 12-gauge Model 870™ Wingmaster® "100th Anniversary of Pump Action Shotguns" Commemorative Edition makes a grand entrance with gold inlays and exquisite fine-line accents on the receiver and a striking, high-gloss walnut stock and fore-end featuring our nostalgic fleur-de-lis checkering. For a century, Remington® pump shotguns have reigned supreme over every other. Now owning a piece of the legend is more attractive than ever.

The original Model 870™ Wingmaster is so smooth and reliable that today — more than 57 years after its introduction — it's still the standard by which all pump shotguns are judged. Available in 12 gauge 2 3/4" and 3", 20 and 28 gauge, and .410 bore, it has the ultra-positive chambering and ejection, flawless balance and natural pointing qualities that have made the Model 870 Wingmaster an American icon. The original Model 870 Wingmaster has a custom-quality finish and handsome American walnut woodwork. Our Premier Dealers can step the aesthetic appeal up a notch with a version featuring a high-gloss claro walnut stock and fore-end, as well as a handsome pheasant and duck scene embellishment engraving on the receiver.

MODEL 870™ EXPRESS®

AMERICA'S
FAVORITE
PUMP SHOTGUN.

Its solid, dependable action makes it America's favorite, and our continual upgrades make it the most advanced, well-rounded family of pump shotguns around. Along with continually evolving designs, this shotgun's superiority is a matter of rugged dependability, great pointing characteristics and versatility. In fact, the Model 870™ has been the standard for slide-action performance for over 57 years.

Our new Model 870 Express® ShurShot™ Synthetic Turkey is optimized for big birds with the revolutionary ShurShot synthetic pistol-grip stock. It's contoured to accommodate both right- and left-handed shooters, while offering an incredibly steady-aiming platform that handles like lightning and lessens felt recoil. The 21" barrel adds to its superb maneuverability, and the Turkey Extra Full Rem™ Choke channels maximum payload to the sweet spot. Mossy Oak® Obsession™ coverage on the stock and fore-end keeps you concealed.

With our new Model 870 Express ShurShot Synthetic Fully Rifled Cantilever, the buck stops a lot farther out than you ever imagined. It features the incredible stability and comfort of our ambidextrous ShurShot stock and a 23" fully rifled barrel.

The Model 870 Express Turkey Camo and the Model 870 Express Turkey/Deer Combo utilize our synthetic stocks in Mossy Oak Break-Up.™ Choose the Model 870 Express Super Magnum with a 28" barrel and full Mossy Oak Break-Up coverage.

MODEL 870™ SPECIAL PURPOSE

SPECIALLY DESIGNED FOR LONGER SHOTS AT BIGGER GAME.

The most dependable slide action of all time in three advanced designs that will go the distance with deadly precision, whether your target is a big red head or the crease behind a buck's shoulder. All feature our new SuperCell™ recoil pad, which dramatically reduces felt recoil through a potent matrix of shock-dissipating cells. The turkey shotguns are fully covered in Realtree® APG™ HD™ camo and deliver 3 1/2" Super Magnum™ payloads with lethal authority at the longest ranges. Now featuring our new ShurShot™ synthetic pistol-grip stock, the updated **Model 870™ SPS™ ShurShot Synthetic Turkey** offers both right-and left-handed hunters the pinnacle of lightweight shooting comfort and handling ease. With this stock in your grip, repositioning for the shot is quick and efficient, plus the position of your hand naturally diffuses recoil. The 23" barrel offers awesome maneuverability, while the fully adjustable TruGlo® fiber-optic sights and an extended Wingmaster HD™ Turkey Rem™ Choke maximize pattern placement.

Recoil suppression and adaptability are hallmarks of the **Model 870 Super Magnum MAX Gobbler™** thanks to its Knox® SpecOps™ pistol-grip stock. Length of pull is adjustable, so you can customize the fit to your shooting style. This highly advanced stock also incorporates state-of-the-art recoil-dampening technology — with dual shock-absorbing springs — to tame 3 1/2" super magnum thunder. Other features include a swift-pointing 23" barrel with bright, fully adjustable Williams® fiber-optic Fire Sights™ for precision, and an included Turkey Super-Full Rem™ Choke.

The **Model 870 SPS ShurShot Synthetic Fully Rifled Cantilever** shotgun puts exceptional accuracy and swift handling characteristics in the hands of left- and right-handed deer hunters. With its cantilever mount, adding optics couldn't be easier, and its fully rifled 23" barrel maximizes reach with today's high-performance slug loads. The stock and fore-end are dressed in Realtree® Hardwoods HD™. When it's time to add a sling, the swivel studs are built-in for your convenience.

XTREME CONDITIONS SHOTGUNS

OUR WORKHORSE ACTIONS. NOW RUSTPROOF & WRAPPED IN ARMOR.

The primary design premise of our Model 870™ and Model 11-87™ actions is dependability — add the tremendous corrosion and abrasion resistance of our proprietary TriNyte® Corrosion Control System, and they're virtually invincible. Fact is, these are the most durable, reliable shotguns on land or sea. All have electroless-nickel-coated internals and a plated trigger group for dramatically enhanced resistance to fouling and oxidation. Plus, the same sleek lines and swift pointing characteristics you love about Remington® shotguns.

Built on the most trusted slide action of all time, the **Model 870 XCS Marine Magnum®** is the new standard for all-weather reliability. It has a Black TriNyte coating, a tactical-style SpeedFeed® I stock, 7-round capacity and an 18" cylinder bore. The stock's shell holder keeps up to four extra rounds at your fingertips.

Our Premier Dealers have four Xtreme Conditions Shotguns to choose from. The 12-gauge **Model 870 XCS Super Magnum** and **Model 11-87 XCS Super Magnum** with TriNyte PVD coatings, black synthetic SpeedFeed® I shell-holding stocks. The **Model 870 XCS Super Magnum Waterfowl** and **Model 11-87 XCS Super Magnum Waterfowl** have all the same great features plus Mossy Oak® Duck Blind™ camo stocks and fore-ends.

For complete model listings and specifications, see pages 92-93.

The Knoxx® SpecOps™ stock features a recoil-compensation system that dramatically reduces felt recoil and muzzle jump.

MODEL 870™ SPS™ SHURSHOT™ SYNTHETIC TURKEY FEATURES

- 23" rifle-sighted barrel
- TruGlo® fiber optic sights
- Wingmaster HD™ extended Rem™ Choke (Turkey)
- Receiver drilled and tapped for scope mounts (Weaver Rail #429M)
- Realtree® APG™ HD™ camo
- Black sling included
- Molded in rear sling swivel stud and front stud included in magazine cap
- Featuring Remington's new SuperCell® recoil pad technology

For complete model listings and specifications, see pages 92-93.

MODEL 870™ XCS FEATURES

- TriNyte® Corrosion Control System on barrel and receiver creates an armor-tough barrier against rust and abrasion
- Its Model 870™ action is the rugged standard for dependability and smooth operation
- 18" cylinder bore, bead-sighted barrel
- 2-shot magazine extension – 7-shot capacity
- SpeedFeed® 1 stock with shell holder keeps 2-4 extra rounds at your fingertips
- Corrosion-resistant trigger group with plated components
- Sling swivel studs

TriNyte® Corrosion Control System (Patent pending). Consisting of electroless nickel and proprietary PVD, this armor-tough, multi-layer coating is the world's most effective barrier against rust and abrasion for firearms, yet is only a fraction of a human hair in thickness. The only thing you'll notice is the near invincibility.

MODEL SPR310™ OVER & UNDER

GRACEFUL FORM MEETS RUGGED, RELIABLE FUNCTION.

For good looks and dependability in the field, there's nothing like an over and under. And you won't find a more impressive integration of features and price than our SPR Over and Unders. Similar guns go for twice the price. Each of the three models in this line has a single selective trigger, auto selective ejectors, rich-blued chrome-lined barrels, checkered walnut stock and fore-end, and more.

Put it to your shoulder and feel its superb balance and natural point. Put it to the test and experience its flawless dependability. The Remington® SPR line of over-and-under shotguns. Destined to be a field favorite.

MODEL SPR210™ & SPR220™ SIDE-BY-SIDES

FOR COLLECTORS OF BAG LIMITS & MEMORIES.

Deeply rooted in the sporting tradition, the side-by-side shotgun is a classic design cherished by collectors and hunters for its graceful lines, reliability and unique handling characteristics. Over the years, we've watched as production costs of the double-gun caused it to become a prize attainable only by the wealthy. Not anymore.

Thanks to the Remington® SPR line, the side-by-side will, once again, become a fixture of America's hunting landscape. Our lineup includes four premium side-by-side shotguns capable of evoking nostalgia at a glance, yet priced to fit into the budget of virtually any hunter. SPR side-by-side shotguns. Start your collection today.

MODEL SPR100™

SINGLE SHOT

FIRST CLASS IN THE GAME OF FIRST SHOTS.

If you're the type who prefers the simplicity and challenge of hunting with a single shot, you're definitely the kind who will appreciate the balanced feel and natural pointing characteristics of our SPR100™ family. Built by some of the world's best craftsmen, it's a rugged, dependable companion destined to be your perennial favorite for field and range.

This smooth-handling lineup includes something for every hunter — from beginner to seasoned veteran. Choose from Blued Field, Nickel Field, Sporting/Trap and Youth Vent Rib. These single shots are premium shotguns we produce for a modest price without skimping on features. One shot, one choice: Remington® SPR.

SPR SPECIALTY

AN OPEN & SHUT CASE OF QUALITY & VERSATILITY.

This lineup is forged in tradition and old-world craftsmanship, but built to take on the diverse pursuits of today's multifaceted hunter.

First, the head-turning over-and-under shotgun/rifle combination. It's an amazingly versatile combination of short-range knockdown and long-distance precision.

The time-honored single-shot rifle. Its simplicity, sleek lines and superior accuracy make it a favorite of those confident in their ability to make one bullet count.

We're proud to offer a line of firearms anchored deep in our sporting heritage, yet built for modern demands and priced for everyone.

 - Single selective trigger with cross-bolt safety

SPR RIFLE FEATURES

- Chrome-lined hammer-forged barrels
- All-steel receivers
- Adjustable sights with 10mm scope rail
- Walnut stock and fore-end
- 1" sling swivel studs
- Appealing spiral-forged barrels

TACTICAL SHOTGUNS

A NEW LOOK AT AMERICA'S MOST TRUSTED TACTICAL SHOTGUN.

Still the #1 choice of top law enforcement agencies across the country, Remington® tactical shotguns are rugged, ultra-dependable and continually evolve as they're called to serve in new, increasingly demanding environments. The **Model 870™ Tactical Desert Recon** series shotguns are equipped with Tiger Stripe Products® Digital Tiger™ Desert camo stocks and fore-ends, and military-style olive drab powder-coated metalwork for looks as distinctive as their performance. These shotguns are available with two different stock designs, 18" or 20" barrels and two- or three-shot magazine-tube extensions. To reduce muzzle jump and recoil, both Desert Recon models come with our special ported Tactical Extended Rem™ Choke tube.

Our all-black **Model 870 Tactical** shotguns are offered with 18" and 20" barrels, three stock options, including a Knox® SpecOps™ folding stock with recoil-reducing springs and two- or three-shot magazine-tube extensions. All 870 tactical shotguns are chambered for 2 3/4" and 3" 12-gauge rounds. For Premier Dealers, there's a 20-gauge version with an 18" barrel, 7-shot magazine and Knox SpecOps stock.

The famous **Model 1100™ Tactical** shotguns are all-black as well, come with our standard stock or the Knox SpecOps SpeedFeed® IV pistol-grip stock and a choice of 18" or 22" barrels. They're chambered for 2 3/4" 12 gauge.

TACTICAL/TARGET RIFLES

ADVANCED NEW TECHNOLOGIES, TIGHT GROUPS AND BRAGGING RIGHTS BUILT-IN.

A fusion of our most advanced performance features in target, tactical and varmint rifles, the new **Model 700™ Varmint-Target Rifle (VTR™)** is optimized for extended-range precision and mobility. Its patent pending triangular barrel contour is a product of years of rigorous R&D focused on reduced weight, enhanced barrel rigidity and rapid heat dissipation. To decrease recoil and muzzle jump, we machined the 22" barrel with an integral muzzle brake. Our famous Model 700 action gives it the highest degree of out-of-the-box accuracy available today. Plus, its X-Mark Pro™ Trigger delivers the ultimate in crispness and shot control. The ergonomic green synthetic stock has a vented beavertail fore-end that promotes rapid cooling, and its black overmold accents provide a firm gripping surface.

In long-range ability and rugged endurance, our **Model 700 XCR Long Range Tactical Rifle** truly stretches the limits. It's Black TriNyte® PVD coating creates a diamond-hard layer of defense against the elements. For tighter groups, the tactical Bell & Carlson stock features a full-length aluminum bedding block. The tactical beaver-tail fore-end and recessed thumb-hook optimize performance off flat surfaces. And barrel cooling is accelerated with wide tactical-style fluting. A compact version of this rifle is available to Premier Dealers.

Our quick-handling, pump-action **Model 7615™ Tactical** carbine features a Knox SpecOps™ NRS™ (Non Recoil Suppressing) stock with an adjustable length of pull. A durable parkerized finish protects the metalwork, and a 10-round magazine is included. Also available is the **Model 700 SPS Tactical**. It has a 20" heavy-contour barrel, dual-pillar-point bedding and our X-Mark Pro Trigger.

THE LEGENDARY MODEL 700 ADVANCING THE MOST ACCURATE & MOST

When the Model 700™ was introduced in 1962, it was ahead of its time. And it's even more so over 45 years later. With enhancements such as our new X-Mark Pro™ Trigger, the TriNyte® Corrosion Control System and the continual addition of hot new calibers, barrel contours and stock designs; the strongest and most accurate line of factory-built rifles in the world, is now also the most technologically advanced and versatile. We're proud of the Model 700's heritage — the superior out-of-the-box accuracy, the rock-solid dependability and the generations it's linked. But we're even more excited about where it's headed.

LEADING THE WAY ANYWHERE, ANYTIME.

The Model 700™ family has evolved into the most diverse rifle line available to today's hunter and shooter. There are stainless, rich blued and matte finishes to choose from with a variety of stock options, including camo and colored synthetic, American walnut and wood laminate in standard and thumbhole configurations. And the range of calibers available is unrivaled in the industry.

For those who take the hunt to extremes, we offer the world's most advanced protection against corrosion and scratching: Our TriNyte® Corrosion Control System featured on the Model 700 XCR™ (Xtreme Conditions Rifle). This proprietary coating creates a virtually impenetrable barrier from the elements and abuse. New for 2008 is the RMEF Limited Edition XCR™ rifle, chambered in 7mm Remington® Ultra Magnum with a stock camouflaged in new Realtree® AP™ camo. The 25-06 Remington and 7mm-08 Remington have also become standard chamberings in the XCR line (Page 26).

Check out the hot 17 Remington Fireball in the Model 700™ SPS™ Varmint (Page 30), and this year's Model 700 CDL Stainless Fluted Limited Edition rifle (Page 32), chambered for the tack-driving 260 Remington. Read on, and you'll find an awesome selection of new chamberings and options in Model 700™ rifles, including the addition of the 257 Weatherby Magnum to our Model 700 CDL SF lineup, more left-handed options than we've ever offered before — including the first-ever southpaw youth rifle, the Model 700 SPS Youth. By popular demand, the classic, eye-catching looks of high-polish bluing is now featured on a member of our Model 700 CDL family.

TRUSTED IN HISTORY.

THE BEST KEEP GETTING BETTER. The Model 700™ is the most accurate production rifle available today. After years of intense R&D, we're taking technology up a notch with our new **X-Mark Pro™ Trigger**. It breaks like glass, has virtually zero creep and offers a level of shot control unmatched by any factory trigger today. While others use gadgets and add-ons to hide inconsistencies, Remington® eliminates them with state-of-the-art manufacturing techniques and the tightest possible production tolerances. A mirror-like finish on its components enhances corrosion resistance and adds to its ultra-crisp feel. The X-Mark Pro™ is standard equipment on select Model 700 and Model Seven rifles, but one shot and you'll know — it's extraordinary by anyone's standards. It's also 100% adjustable for pull weight by a qualified gunsmith. But we seriously doubt you'll need it.

With up to a 40% lower out-of-the-box pull weight, virtually zero creep, one of the most crisp breaks you'll ever feel and 100% adjustability, the new X-Mark Pro is the finest production trigger you'll ever squeeze.

XCR: THE WORLD'S MOST RESILIENT RIFLE.

Remington® with TriNyte®

Competition (stainless steel)

As proved in a rigorous saltwater test by an independent laboratory, our armor-tough, multi-layer TriNyte® coating forms a virtually impenetrable barrier to corrosion. It's the most effective on the planet, in fact. (More on page 26)

AFTER 72 HOURS

STRENGTH IN NUMBERS. The Model 700 is undoubtedly the strongest action ever conceived. The cylindrical receiver is dramatically more rigid than the traditional flat-bottom types it replaced. Additionally, our famous 3-Rings-of-Steel make it an unshakable vault of strength.

3-RINGS-OF-STEEL

1. Recessed bolt face completely encloses cartridge head for maximum protection against case rupture

2. Barrel surrounds bolt shroud for additional strength

3. Barrel threaded into receiver machined from hardened steel

POINTING THE WAY TO PEAK ACCURACY & PERFORMANCE FOR MORE THAN 45 YEARS.

The Remington Model 700,™ a rifle with no equal, and a superior performer in every way. Its accuracy and dependability have become the standard by which all other centerfire rifles are measured and continually fall short. Still the most accurate out-of-the-box rifle made, the Model 700 brings its famous action and renowned consistency to some new additions to the prestigious family of guns.

With our armor-tough TriNyte® Corrosion Control System, the **Model 700 XCR** is the most durable rifle ever built. And, this year's special Limited Edition Rocky Mountain Elk Foundation Model is dressed in the Realtree® AP™ Camo pattern and chambered for 7mm Remington Ultra Magnum – a caliber famous for its ability to make short work of big game at the longest ranges.

Also new this year is the **Model 700 CDL™** with a distinctive high-polish blued finish. It's offered in our three best-selling chamberings – the 270 Win, 30-06 Sprg. and 7mm Remington Magnum. Premier Dealers keep demanding the **Model 700 CDL Boone and Crockett**. Its laminated stock, fluted barrel and medallion insert on the grip cap make it a high-performance rig we're proud to offer again in 2008. Last year, we launched a full line of **Model 700 CDL SF** rifles with incredible success. We've expanded the family with an additional caliber offering – the flat-shooting, hard-hitting 257 Weatherby Magnum. The workhorse **Model 700 SPS™** line is as solid and dependable as ever, and we're proud to keep the Buckmasters Edition, including the "Young Bucks" version, filling freezers across America.

MODEL 700™ CDL™
Available in: 243 Win, 25-06 Remington, 270 Win, 7mm-08 Remington,
7mm Remington Mag, 7mm Rem Ultra Mag™ 30-06 Sprg, 300 Win Mag, 300 Rem Ultra Mag™ 35 Whelen
(Left-hand models also available, pages 40-41)

TriNyte® Corrosion Control System (Patent pending). Consisting of electroless nickel and proprietary PVD, this armor-tough, multi-layer coating is the world's most effective barrier against rust and abrasion for firearms, yet is only a fraction of a human hair in thickness. The only thing you'll notice is the near invincibility. Available in a variety of finish colors.

For complete model listings and specifications, see pages 95-97.

FEATURES

- Receiver machined from solid-steel bar stock resulting in uniformity and strength
- Cylindrical receiver design provides a solid bedding area in the stock for consistent shot placement
- Recessed bolt face locks up inside the counter-bored breech of the barrel which is surrounded by the receiver, forming "three-rings-of-steel" enclosing the cartridge case head for unparalleled strength
- Integral extractor is set in a groove inside the rim of the bolt face, uniformly supporting the cartridge head
- X-Mark Pro™ Trigger on select models – featuring super-tight tolerances and mirror-like surface finishes, it breaks like glass and is adjustable for trigger pull weight

MODEL 700™ SPECIALTY

THE MOUNTAIN DIDN'T GET ANY SMALLER, IT JUST SEEMS THAT WAY.

We know the high country demands high standards, that's why we've built the all-new, amazingly light Model 700™ Alaskan Ti. Weighing only 6 ¼ pounds long action and 6 pounds short action – it's the ultimate rifle for high-altitude spot-and-stalk hunting. The key to its lightweight feel starts with a titanium receiver that's impervious to weather (drilled and tapped for mounts), incredibly strong and half the weight of steel. Complementing the super-light receiver is a bolt featuring spiral-cut flutes and a 24" magnum contour barrel with light-varmint-style fluting. The action is pillar bedded for outstanding shot-to-shot consistency. Its premium Bell & Carlson stock features their MaxxGuard finish for enhanced durability and SuperCell® recoil pad.

Another favorite for those high-country pack-in hunts is the aptly named Model 700 Mountain Rifle. Extremely lightweight, it features a compact stock and tapered barrel to deliver fast, carbine-like handling with full-bore range and accuracy. Its sleek lines, classic shape and superb feel have made it one of our most popular rifles.

MODEL 700™ SENDERO

VARMINT-GRADE ACCURACY TO THE NEXT POWER.

Although it has all the great features of a varmint-style gun, the Model 700™ Sendero is designed for something much bigger than a prairie dog. That's because the Sendero is chambered for long-action magnum cartridges for long-range, big-game performance. Hone your skills to match, and you can reach out to the most extreme ranges, thanks to its varmint-influenced target-grade accuracy.

Like our VSSF II, the Sendero is equipped with an H.S. Precision composite stock reinforced with aramid fibers and featuring a contoured beavertail fore-end with ambidextrous finger grooves and palm swell. Full-length aluminum bedding blocks create accuracy-enhancing platforms for its barreled action and its 26" heavy contour barrel features six longitudinal flutes for rapid cooling. Long-range accuracy meets big-game performance in the Remington® Model 700 Sendero.

MODEL 700™ ALASKAN TI

MODEL 700™ ALASKAN TI

Available in: 25-06 Remington, 270 Win, 270 WSM, 280 Remington, 7mm-08 Remington, 7mm Rem Mag, 30-06 Sprg, 300 WSM, 300 Win Mag

MODEL 700™ MOUNTAIN LSS

Laminated Stock, Stainless

- Composite stock with beaver tail fore-end
- Chambered for popular Magnum and Remington Ultra Magnum cartridges
- Black stock with grey webbing title to match the harshest conditions

FLUTED BARRELS
(reduces weight/dissipates heat)

MODEL 700™ SPS™ VARMINT

TRUE TO ITS
REPUTATION,
IT'LL EARN YOU ONE.

"Why yes, that's really five shots." Tell your friends it's genetics. Fact is, when it comes to precision, there's no finer pedigree in the industry than Remington® varmint rifles. And with the introduction of our new Model 700™ SPS™ Varmint, staking claim to our legendary accuracy is a more attainable feat than ever.

The Model 700 SPS Varmint is capable of punching tiny groups straight out of the box because it's built on the Model 700 action, the most solid, dependable and trusted in existence.

Its 26" heavy contour barrel is perfectly matched to its high-velocity caliber offerings, including the hot new 17 Remington Fireball. Plus, the ergonomically designed black synthetic stock has a vented beavertail fore-end for enhanced grip, reduced weight and better heat dissipation. And sharp predator eyes won't spot the tough, non-reflective matte blued finish on the barrel and receiver. Other standard features include a hinged floorplate magazine, sling swivel studs, and a drilled and tapped receiver. The Model 700 SPS Varmint is destined to leave a lasting impression on any varmint that crosses its line of sight.

MODEL 700™ VARMINT RIFLES

STUNNING
FROM THE BENCH,
LETHAL IN THE FIELD.

Built on the famous Model 700™ cylindrical action, Remington® Varmint rifles are the most accurate production rifles we produce. You'll be stunned by the degree of precision you get straight out of the box. The varmints won't be so lucky.

The **Model 700 VL SS™ TH** features a thumbhole stock design for enhanced stability and comfort. Offering great looks and exceptional durability, the stock is crafted of laminated wood. Vents in its widened fore-end facilitate rapid cooling of the heavy-contour stainless barrel, so you can keep driving tacks with any one-of-three hot varmint chamberings.

There's also the **Model 700 VS SF™ II**, a finely tuned machine with full-length aluminum bedding block that creates an ultra-stable, accuracy-enhancing platform. Further improving its shot-to-shot consistency is a 26" heavy contour barrel that's fluted for rapid cooling. Its H.S. Precision composite stock is reinforced with aramid fibers and features a contoured beavertail fore-end, ambidextrous finger grooves and a palm swell. Twin front swivel studs accommodate a sling and a bipod.

For those who prefer the more traditional varmint rifle, there's the time-tested **Model 700 VLS™** with its classic laminated stock and satin-blued barrel. Last but not least is the **Model 700 VSF™** with its distinctive desert tan stock with black webbing. All offer the highest level of out-of-the-box accuracy for your small-target pursuits.

MODEL 700™ SPS™ VARMINT

Available in: 17 Remington Fireball, 204 Ruger, 22-250 Remington, 223 Remington, 243 Win, 308 Win

Bi-Pod and Sling Swivel Studs

MODEL 700™ CDL™ SF LIMITED EDITION

CONSIDER IT AN INVESTMENT FOR YOU, AND YOUR TROPHY ROOM.

You can try to keep this limited edition rifle in the box, but one shot and it'll be your big-game rifle of choice for life. Chambered for the accurate, flat-shooting 260 Remington®, the **Model 700 CDL Stainless Fluted Ltd.** is the ultimate embodiment of our world-famous action's sleek lines, good looks and unrivaled out-of-the-box precision.

The 260 Remington is an incredible all-around big-game cartridge. To commemorate its chambering in our newest limited edition rifle, the floorplate is intricately engraved with the cartridge and "260 Remington." The rifle's receiver is heavily roll marked with "Model 700 Limited."

To achieve optimum velocity, the magnum contour barrel is a full 24". It features Light Varmint-style fluting for rapid heat dissipation, and the action and barrel are solidly bedded in our distinctive CDL walnut stock. And prepare to be amazed by the shot control and breaks-like-glass feel of our X-Mark Pro™ trigger.

MODEL SEVEN™ COMPACT RIFLES

HONORING 25 YEARS OF KNOCKDOWN, DRAG-OUT DOMINANCE.

Lightning fast and superbly accurate, the compact, short-action Model Seven has been a leader in the woods since it was introduced in 1983. Join us as we celebrate a quarter century of proven performance with the **Model Seven™ 25th Anniversary Edition** rifle chambered in 7mm-08 Remington. This rifle is a quintessential Remington classic with some striking commemorative upgrades. Its American walnut Classic Deluxe-style stock is custom laser engraved with "Model Seven 25th Anniversary" and has an intricate 25th anniversary medallion inset at the pistol grip cap area. Adding to its traditional good looks is a high-sheen blued finish on the receiver, bolt and 22" standard-contour barrel. Our ultra-crisp X-Mark Pro Trigger and SuperCell recoil pad are where the good old days stop, and you realize you're experiencing the greatest era in rifle advancement yet.

Our new **Model Seven™ Predator®** is a dream to handle and officially every predator and varmint's worst nightmare. It's decked from butt to bore in Mossy Oak® Brush® camo for concealment, and its fluted, magnum-contour 22" barrel cools quickly when the action heats up. Speaking of hot, the lineup of calibers includes our 17 Remington Fireball. At 4,000 fps, it's sure to light 'em up.

260 Remington. Introduced in 1997, this caliber's flat trajectory, inherent accuracy and mild recoil have quickly made it an American favorite for medium-sized big game. It's potent medicine for whitetails, antelope and mule deer out to long range.

FEATURES

- All features of the legendary Model 700, plus:
- Engraved hinged floorplate commemorating the 260 Remington cartridge
- 24" magnum-contour .416 stainless barreled action with Light Varmint-style fluting
- Special receiver/heavy roll marked Model 700 Limited
- CDL walnut stock with black fore-end tip and grip cap
- X-Mark Pro™ Trigger

MODEL SEVEN™ 25TH ANNIVERSARY
Available in: 7mm-08 Remington

MODEL SEVEN™ CDL

Available in: 17 Remington Fireball, 243 Win, 260 Remington, 270 WSM, 7mm-08 Remington, 300 WSM, 308 Win, 350 Remington Magnum

MODEL SEVEN™ PREDATOR®

Available in: 17 Remington Fireball, 204 Ruger, 22-250 Remington, 223 Remington, 243 Win

For complete model listings and specifications, see page 98.

FEATURES

- 2 1/2" shorter overall length than Model 700 counterparts makes the Model Seven perfectly sized for small-statured shooters and dense-cover hunting situations
- Compact design for fast handling in dense-cover situations
- Features the same legendary strength as the Model 700 action: "Three-rings-of-steel" with the bolt face, barrel and receiver encasing the cartridge head
- Cylindrical receiver design provides a consistent bedding area in the stock
- Available in Remington Short-Action Magnum and Winchester Short Magnum calibers for the ultimate in compact magnum performance

MODEL 770™

**READY TO HUNT,
RIGHT OUT OF THE BOX.**

It's the latest, greatest edition of out-of-the-box accuracy and hunting performance from Remington® — now in stainless steel with a rugged Realtree® AP™ HD™ camo stock. An upgrade of our famous Model 710,™ the new **Model 770™** is the perfect choice for any hunter looking to fast-forward through the process of selecting a scope and components. It comes with a pre-mounted and boresighted 3-9x40mm riflescope. But most importantly, it's built to our rigorous standards for accuracy and reliability. Simply choose your ammo and you're ready to shoot.

It features the same great action and barrel as our Model 710 (based on the Model 700™) with super-accurate button rifling, and a more durable magazine latch. Other advancements include a new, ergonomically contoured stock with a raised cheekpiece for rapid scope-to-eye alignment, and grips textured in all the right places for superior shot control.

Available to Premier Dealers, our **Model 715™** has many of the same great features as the Model 770, but is equipped with a standard black synthetic stock and doesn't include a scope.

MODEL 798™/799™

**PROVEN ON SAFARI.
MADE AFFORDABLE BY REMINGTON.®**

Welcome custom-shop features in a factory-built rifle. Famous on safari for its amazing strength and reliability, the controlled-round-feed Mauser action is back in mainstream production. That's right, what used to only be available through surplus suppliers and custom shops is now well within reach. We have carefully reworked every aspect of these rifles to meet the tastes and performance demands of today's hunter and shooter. And this year, we're offering the **Model 798™ Safari Edition** chambered in the venerable 375 H&H and 458 Win Mag. Built around a long-action Mauser 98, it's your ticket to dropping the toughest game on earth. Its Realwood™ walnut laminate stock combines the enduring stability and toughness of lamination with the classic good looks of highly figured walnut. This striking woodwork is accented by a richly blued barrel and receiver.

The **Model 798 SPS™** is also new to the lineup, featuring a durable black synthetic stock and blued finish. And for 2008, a new walnut stock is offered.

Our quick-handling, compact **Model 799™** is a scaled-down version of its big brother, the Model 798. It features a miniaturized receiver with the famous Mauser bolt release; a crisp, single-stage trigger; two-position safety; and an all-steel trigger guard and magazine assembly for longevity. It has a rugged, good-looking laminated stock, a deep blued finish and its receiver is drilled and tapped for easy scope mounting. Choose from five popular short-action chamberings.

- 22" rifle sighted blued Safari barrel
- Drilled and tapped for scope mounts

Model 798™ non-rotating Claw Extractor

Model 799™ Sako-style Extractor

MODEL 7615™/7600™

**BECAUSE SOMETIMES
YOU NEED A QUICK ONE-TWO
THREE-FOUR-FIVE ...**

Maybe you flinched? Or the animal turned at the last split-second? Either way, our Model 7615™ and Model 7600™ centerfire rifles get you back on target — instantly. Because not only are they built to deliver legendary Remington® first-shot accuracy, they're also designed for ultra-fast follow-up shots — without ever having to unshoulder your rifle.

The **Model 7615 Ranch Carbine** is similar in function to our Model 7615 Tactical, but features a more traditional styling. Its satin-finish American walnut stock houses a 7615 action with a 10-round AR-15 magazine and an 18 1/2" high-polished blue clean barrel. It's drilled and tapped for standard Model 7600 scope mounts. The **Model 7615 Camo Hunter** is essentially a synthetic version of the Ranch Carbine. Fully covered in Mossy Oak® Brush® Camo, it features a velocity-boosting 22" barrel with rifle sights. It's also drilled and tapped for scope mounts.

Our ever-popular **Model 7600** is one of the most proven deerslayers in the woods. It has a 22" barrel, a four-round magazine and is available in wood and durable synthetic models. All of our centerfire pumps feature quick-release magazines and Remington's rotary bolt lock-up design for exceptional strength, safety and reliability.

MODEL 750™ AUTOLOADING RIFLES

**PUT FIVE SHOTS
THROUGH DEER HUNTING'S
NARROW WINDOW.**

In the field, patience is a virtue but when it's time to take action, sometimes you need the speed of a Model 750.™ Its improved gas system provides faster, smoother cycling. And its balanced low-profile design handles like lightning. Rapid follow-ups are its specialty, but famed Remington one-shot accuracy comes standard.

The **Model 750™ Woodsmaster™** features a restyled American walnut stock and fore-end with machine-cut checkering. Felt recoil is diminished by its ultra-efficient gas operated action.

For added durability in all conditions, the **Model 750 Synthetic** features all the Model 750 improvements only with a synthetic stock and fore-end. Go ahead, throw that narrow window wide open with the quickest gun in the woods, the Model 750.

MODEL 7615™ CAMO HUNTER
Only available in: 223 Remington

MODEL 7615™ SPS™
Available in: 223 Remington

MODEL 7615™ RANCH CARBINE
Only available in: 223 Remington

FEATURES

- Improved gas-operated action for slick, super-fast cycling
- Stylish American walnut or black synthetic stock and fore-end
- Stellar balance and a streamlined design for fast target acquisition
- 22" barrel with iron sights (18 1/2" on the Carbine)
- Receiver drilled and tapped for Model 7400 scope mounts
- Exceptional action strength - rotary-bolt lock-up
- Now with sling swivel studs

New fore-end design

MODEL R-15 VTR™

MODULAR REPEATING RIFLE

OPENING UP A NEW ERA, AND THE SPEED LIMIT, IN REMINGTON COUNTRY.

We created an unrivaled combination of precision accuracy, blazing-fast follow-ups and hunt-specific features. The new R-15 VTR™ modular repeating rifle was born of the most advanced design aspects of AR-15-style rifles available today with a strong emphasis on optimizing form and functionality for the modern predator aficionado. The results are astounding — with very, very fatal implications for every coyote, fox or bobcat that crosses your path.

For peak accuracy, the R-15's 0.680" OD barrel is precision-crafted from Chromoly steel. It's free-floated within the machined-aluminum fore-end tube and given a recessed hunting crown to ensure gasses escape evenly around the bullet for the ultimate in shot-to-shot consistency. Six longitudinal flutes forward of the gas block promote rapid barrel cooling and increase rigidity while reducing weight, further contributing to this rifle's ability to print tiny clusters at an incredible pace. And our new hunting single-stage trigger design is as clean-breaking as they come. Whether you choose the 223 Remington or 204 Ruger version, the semi-automatic gas action all but eliminates muzzle jump and recoil so your target remains in the crosshairs. And when it's time to add optics, the receiver-length Picatinny rail makes it a rock-solid cinch.

Control comes naturally with the ergonomic pistol grip and lightweight overall design of the R-15. Its uppers and lowers are machined from aluminum forgings for featherweight durability, and the fore-end tube is drilled and tapped for accessory rails.

This new family of firearms consists of three models. Each was designed with input from leading predator authorities and decked in the ultra-effective Advantage® MAX-1 HD™ camouflage to blend with sage, open country and a multitude of hunting terrains. All come with five-round magazines and are compatible with all aftermarket AR-15 magazines and other accessories.

The R-15 VTR Predator Rifle has a 22" barrel with a fixed stock and pistol grip. At 7 3/4 lbs, it's extremely stable — the best choice for long shots. Our R-15 VTR Predator Carbine and R-15 Predator Carbine CS* (Collapsible Stock) handle like lightning with their 18" barrels and weigh a mere 6 3/4 lbs. — perfect for high-speed hunting scenarios. The Predator Carbine CS features a telescoping stock with a fully adjustable length of pull for a custom fit.

- Includes 5-round magazine
- Legal for hunting in most states
- Compatible with aftermarket AR-15 magazines
- Lockable hard case included

Includes 5-round magazine
(accepts all aftermarket
AR-15 magazines)

LEFT-HANDED RIFLES

LEGENDARY PERFORMANCE IS MORE THAN JUST RIGHT.

Southpaws are people too, and all people deserve the legendary accuracy and dependability of Remington® Model 700™ rifles. New for 2008, our expanded family of left-handed offerings includes four high-performance additions – the Model 700 SPS™ Varmint, Model 700 XCR, the Model 700 CDL™ and Model 700 SPS Youth Synthetic, the industry's first-ever left-handed youth offering. The Managed Recoil Ammunition line expands to include 7mm-08 Remington, nicely complementing this upgrade to the youth firearms family. Along with our unrivaled standards for out-of-the-box accuracy, all include the new X-Mark Pro™ Trigger system, which offers the highest degree of crispness and shot control you can get from the factory.

The **Model 700 SPS Varmint** sports a 26" heavy-contour barrel complemented by a vented beavertail fore-end for rapid cooling and improved shot-to-shot consistency. It comes in five great short-action calibers including the hot new 4,000-fps 17 Remington Fireball. Other standard features include a non-reflective black matte finish, hinged floorplate magazine, sling swivel studs and a drilled and tapped receiver.

Test your limits with the stainless **Model 700 XCR**. It's the most durable, corrosion-resistant rifle on the planet thanks to exclusive TriNyte® coating. Along with being nearly invincible, it features a sleek black synthetic stock enhanced with gray overmolded rubber grips for superior handling in the most adverse weather conditions.

The **Model 700 CDL** is the quintessential hunting rifle, embodying the best in traditional good looks as well as our leading-edge standards for precision, durability and cartridge chamberings. Only from Remington – our **Model 700 SPS Youth** left-hand has a 1" shorter length of pull, swift-handling 20" barrel and is offered in two venerable big-game calibers: 243 Win and 7mm-08 Remington.

GENESIS™ MUZZLELOADERS

THE PIVOTAL FACE OF MUZZLELOADING SPEED & EFFICIENCY.

Magnum power, easy cleaning and legendary Remington® accuracy in a hot new design that defines reliable. Our innovative TorchCam™ action rotates from the fixed breech for fast priming and locks your 209 primer in a vault of weather resistance. It delivers rapid, super-hot ignition in the most extreme conditions. And to clean, simply unscrew the breech plug, swab the barrel and you're finished.

With a full 28" of powder-burning steel, the Genesis™ generates maximum velocity from magnum 150-grain charges. And you get the swift-handling characteristics of a much shorter gun – the ultra-compact design of the TorchCam action keeps overall length and weight to a minimum.

For safety, the over-travel hammer never comes in contact with the firing pin unless the gun is fully cocked and the trigger is pulled. A crossbolt safety adds extra assurance. Plus, the HammerSpur offers right- and left-handed shooters a rigid grip through cocking and hammer letdown without scope interference.

From the base model equipped with a standard synthetic stock and blued barrel to our super-stable thumbhole models with stainless, fluted barrels, this lineup includes a muzzleloader to suit the preferences and budget of every hunter.

- Drilled and tapped for scope mounts
- Aluminum anodized ramrod with jag
- Front and rear swivel studs
- Crossbolt safety
- Removable 1/8" breech plug
- Bullet-guiding muzzle
- Optimized for use with Remington-Union® 209 Muzzleloading Primers

MODEL 597™

**LIGHTNING STRIKES
TILL YOU RUN
OUT OF AMMO.**

The speed with which they zip out rounds is rivaled only by the striking appearances of our new additions to this venerable, semi-auto rimfire lineup. Easily the most advanced rimfire rifle ever built, the Model 597™ represents the first technological breakthrough in the category in 35 years.

Because our Model 597 action is #1 in autoloading rimfire reliability and out-of-the-box accuracy, it was only natural we develop the Model 597™ TVP™ (Target-Varmint Plinker) to take full advantage of the superior design. Truly the ultimate 22 target-rifle platform, this tack-driver features a 20" stainless heavy barrel and a laminated thumbhole stock that's contoured to accommodate right- and left-handed shooters with equal comfort. It offers impeccable balance for offhand shooting.

With a yellow and black laminate stock and satin-blued barrel, the Model 597™ Yellow Jacket is big-time head-turned offered only to our Premier Dealers. Speaking of turning heads, our Mossy Oak® Blaze Orange camo and Mossy Oak Pink camo Model 597 are perhaps the most distinctive rimfires ever built. Both have 20", standard-contour carbon steel barrels and TruGlo® fiber-optic front sights.

MODEL 597™
MAGNUM SYNTHETIC
Available in 22 Win Mag

MODEL FIVE™ & 552™/572™

**THE NEXT LEVEL OF RIMFIRE,
FOR SHOOTERS OF ANY LEVEL.**

Remington® rimfire rifles are built with the same standards for accuracy and flawless function as our high-end centerfires. For hunting small game, target shooting or afternoon plinking, there's no better choice.

Our Model Five™ is a solid, extremely accurate bolt action ideal for seasoned hunters and shooters, and beginners alike. It's available in standard 22 long rifle, 22 WMR and, new to the lineup, 17 HMR. This caliber's flat trajectory matched with our tight-grouping Model Five platform make it a serious performer for range and field. The American-made brown laminated stock combines good looks with extreme weather resistance.

The new downsized Model Five Youth is specially engineered for young shooters with a shortened stock (1"), plus a trimmed fore-end for optimum balance. It's also equipped with a world-class hammer-forged barrel shortened to 16 1/2" for easy pointing, along with fully adjustable rifle sights.

Our classic Model 552 BDL Speedmaster autoloader and pump-action Model 572 BDL Fieldmaster are two of America's favorites. And they're not only fast, they'll put an entire magazine into the same hole. Both have high-gloss American walnut woodwork with cut checkering, richly blued carbon steel barrels and fully adjustable iron sights with grooved receivers for easy scope mounting.

YOUTH FIREARMS

**MODEL 870™ EXPRESS®
YOUTH DEER**
Available in: 20 gauge (2 1/2" and 3")

**MODEL 700™ SPS™
BUCKMASTERS EDITION
"YOUNG BUCKS" YOUTH**
Available in: 243 Win

FOR EVERY TRADITION, THERE IS A BEGINNING.

Young shooters are more likely to become stewards of the shooting sports if they start with a gun that fits properly. Exactly why we crafted our standard, premium-grade stocks with a shorter length of pull, then fit them to some of our finest firearms. Adults requiring a shorter length of pull will also benefit from this lineup. Rifles feature 20" barrels and youth shotguns have 21" barrels (20" for deer gun).

The **Model 770™ Youth** is the ultimate first centerfire. The next generation of the hunt-ready **Model 710**, it's chambered for the mild-recoiling 243 Win. and comes out of the box with a pre-mounted, boresighted 3-9x40mm scope.

Other centerfires include our workhorse, short-action **Model 700 SPS™ Youth Synthetic**. Now in a left-handed version chambered for 243 Win and 7mm-08 Rem, it's the first-ever southpaw youth rifle offering. Our new Managed Recoil 7mm-08 Rem ammunition is the perfect complement to this addition. Our **Model 700 SPS™ Buckmasters "Young Bucks"**

model comes in 243 Win., and features a specially engraved floorplate and Realtree® Hardwoods® Grey HD™ stock.

In shotguns, we have the 20-gauge **Model 870™ Express® Jr.** and **Model 870 Express Youth Turkey Gun** with Mossy Oak® Break-Up™ stocks and fore-ends. And we still offer the **Model 870 Express Youth** line, **Model 870 Express Jr.** and a **Model 870 Express Synthetic Youth Combo** featuring a 21" vent-rib barrel and a 20" fully rifled barrel. All Jr. offerings have a 1" shorter length of pull than standard Youth models. The gas-operated action of the 20-gauge **Model 11-87 Sportsman Youth** makes it the ultimate light-recoiling youth shotgun.

Our **Model Five™ Youth** rimfire completes the lineup with superior accuracy and a simple, rugged design that make it a great first rifle. It has a shortened stock and fore-end, a world-class hammer-forged barrel shortened to 16 1/2" and fully adjustable rifle sights.

PREMIER® ACCUTIP BONDED SABOT SLUG

A NEW LEVEL OF PINPOINT PRECISION AND DEER-LEVELING PERFORMANCE.

It doesn't just look intimidating, it's flattening whitetails and competitors in the tipped-slug market with devastating ferocity. Guided by our new Power Port™ Tip, the AccuTip Bonded Sabot Slug delivers a degree of accuracy and terminal performance unmatched by any other we tested. This masterpiece of aerodynamics consistently prints tiny 100-yard groups and transfers tremendous knockdown force out to the farthest reaches of shotgun range. It's the largest tipped slug you'll find anywhere. In field testing, this huge .58-caliber slug produced gaping wound channels and crumpled every deer it touched with a single shot. From 5 to 200 yards, it yields perfect mushrooms and over 95% weight retention thanks to its spiral nose cuts, bonded construction and high-strength cartridge brass jacket. With performance as revolutionary as its appearance, this is one tip sure to get stunning results. Available in 2 3/4" or 3" 12-gauge versions for 2008.

NEW

FEATURES

- Power Port™ Tip delivers dramatically superior accuracy
- Spiral nose cuts and proprietary bonding technology control expansion at all ranges from 5 to 200 yards
- Huge .58-caliber slug is the largest tipped slug available today
- Over 95% weight retention – weighs more after impact than all the others start with!
- Slug jacket made from high-strength cartridge brass
- Designed for use in fully-rifled barrels only

The Premier® AccuTip slug exhibits impressive accuracy at all ranges. (5-shot @ 100 yds. with 2.2" groups)

HIGH-PERFORMANCE SLUGS

PREMIER® CORE-LOKT® ULTRA BONDED® SABOT SLUGS. This is one slug that's anything but sluggish when it comes to performance. The Remington® Core-Lokt Ultra Bonded® is a sleek, ultra-fast, flat-shooting shotgun sabot slug that's virtually in a class of its own. With incredible accuracy, it delivers a 385-grain, .50-caliber, jacketed, bonded bullet that yields near 100% weight retention and expands to 2x in diameter. Designed for use in fully rifled barrels only, the Core-Lokt® Ultra Bonded offers a high-tech blend of sabot power and surgical precision that could be just what the doctor ordered.

AMMUNITION

MANAGED-RECOIL® COPPER SOLID® SABOT SLUGS. The best-selling terminal performance and accuracy of our Copper Solid Slug is now available in a reduced recoil load. With 40% less recoil, they're perfect for anyone who wants outstanding on-game results without the rearward punch. Or, use them to sight-in, then step up to full loads. There's no finer slug load for young or recoil-sensitive hunters.

PREMIER® COPPER SOLID® SABOT SLUGS. The unique, all-copper shotgun deer load. Designed specifically for use in fully rifled barrels. Outstanding on-game performance with 2x caliber expansion and virtually 100% weight retention. Consistently delivers 2 1/2", 5-shot groups at 100 yards.

HIGH-PERFORMANCE SLUGS

BUCKHAMMER® LEAD SLUGS. When it's time to put the hammer down, this lead slug delivers a devastating one-two punch of precision and explosive power. Specifically designed for rifled barrels and rifled choke tubes, it has an attached stabilizer that optimizes flight to produce 3-inch, 100-yard groups. And weight retention at impact is consistently 100 percent. Choices include 12- and 20-gauge full-power and Managed-Recoil™ versions. This season, put that big buck down for the count with the hardest-hitting, most accurate lead slug in the woods. BuckHammer.®

The BuckHammer® lead slug offers near 100% weight retention with full 12-gauge (.73 cal) diameter.

THE BUCKHAMMER® LEAD SLUG FEATURES AN IMPRESSIVE MUSHROOM PROGRESSION. THIS EXPANSION CREATES DEVASTATING ON-GAME PERFORMANCE.

The unique design of the slug causes it to literally bond with the stabilizer as it travels down the barrel, resulting in unprecedented true flight.

The innovative design of the stabilizer allows the BuckHammer® to deliver 3" groups at 100 yards with 13% more energy than any other lead slug on the market. (3", 1 1/4 oz. 12 gauge)

The BuckHammer® Lead Slug exhibits impressive accuracy by putting 100 shots inside an amazing 3 1/4" group at 100 yards. (2 1/2", 1 oz. 20 gauge)

SLUGGER® & SLUGGER® HV

SLUGGER® HIGH VELOCITY RIFLED SLUGS.

This higher velocity slug exits the barrel at 1,800 fps, 13% faster than standard 1 oz. slugs. The 1/3 oz. Slugger High Velocity delivers more energy at 50 yards with flatter trajectory on deer than standard 1 oz. slugs. Produced in most popular slug loadings – 2 1/4" and 3" 12 gauge and 2 3/4" 20 gauge. Designed for the avid deer hunter using smooth bore guns.

SLUGGER® RIFLED SLUGS.

Remington's most popular, accurate, hard-hitting slug. Slightly oversized for great smooth-bore shotgun performance, resulting in better sealing against the barrel wall for greater accuracy.

BUCKSHOT

EXPRESS® MAGNUM AND EXPRESS® BUCKSHOT.

One of the great values in shotgun deer loads. A combination of heavy cushioning behind the shot column and a granulated polymer buffering helps maintain pellet roundness for tight, even patterns.

AMMUNITION

WINGMASTER HD™

DROP-DEAD BETTER.™

The company that redefined lethal shotgun range is proud to unveil the next generation of heavy-density devastation. Wingmaster HD.™

This hard-hitter stretches the kill zone with an ultra-tuned combination of density, shape and energy. At 12.0 grams/cc, it's 10% denser than lead; the scientifically proven optimum density for pellet count and pattern density. Plus, its smooth, round shape delivers awesome aerodynamics and sustained payload energy. It all adds up to the most devastating patterns possible.

Wingmaster HD is nearly as soft as steel shot, which makes it easier on your barrel. And it's more responsive to chokes, allowing you to open up the pattern for close-range hunting or stretch shotgun range to its farthest reaches.

Absolutely no shotshell on the market can touch Wingmaster HD at long range. All of its revolutionary characteristics — optimized density, ultra-round shape and consistent size — come together on game with an unmatched level of deadly force. Patterns with Wingmaster HD will put 60% of the pellets in a 30" circle at 60 yards. Waterfowl, turkey and varmints don't know harm's reach yet. It's Wingmaster HD.

Wingmaster HD™ Waterfowl
and Predator Payloads

FEATURES

- HD = Heavy Density
- 12.0 g/cc density for optimal combination of pellet count and pattern density
- Proprietary composite of Tungsten-Bronze-Iron
- Round, consistent pellets:
 - Travel straighter and longer
 - Improve long-range lethality
 - Tighter patterns
 - More even pellet distribution
- Uniform pellet density
- Softer pellets are easier on your barrel and more responsive to chokes
- Better patterns at long and short ranges — more lethal than lead
- Approved for waterfowl hunting by the USF&W and Canada

Non-toxic, 56% denser than steel and 10% denser than lead, it's the most lethal choice whatever you're shotgunning for:

WATERFOWL • TURKEY • PREDATORS

THE ULTIMATE EXTENDED-RANGE PAYLOAD

- Denser patterns
- Devastating pellet energy
- Flies true — near perfect shape

WINGMASTER HD™ VS. STEEL MAGNUM

Use pellets three sizes smaller with Wingmaster HD and get per-pellet energy equal to steel – with double the pellets on the target.

Wingmaster HD – 12-ga., 3" – 1 3/8 oz., #6 shot

Steel Magnum – 12-ga., 3" – 1 3/8 oz., #3 shot

12.0 G/CC – BEST PELLET MATERIAL DENSITY

Testing proves Wingmaster HD™ delivers the best combination of pellet energy and pattern density.

MORE UNIFORM WEIGHT

Wingmaster HD's (Heavy Density) smooth, round pellets are extremely aerodynamic. They are uniform in weight and true to listed shot size.

NITRO-STEEL™ WATERFOWL

THE MIGRATION'S STEEL WALL.

Short or long, Nitro-Steel™ stops 'em dead with tight, consistent patterns and premium zinc-plated steel pellets – it's premium performance at a very reasonable price. And we make it in a wide range of loads to suit any hunt – 10 to 20 gauge, maximum payloads and high velocities. Trust your dollar to a legend. Remington.®

Zinc-plated loads
prevent corrosion.

FEATURES

- Loaded with top-quality, premium steel shot
- Zinc-plated shot to prevent corrosion
- Wetproof™ sealed at primer and mouth
- High-velocity and magnum loadings
- Complete line for all waterfowl hunting situations

LEAD MAGNUMS

PREMIER® HIGH VELOCITY MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

The high-performance lead load for avid turkey hunters. 3" and 3 1/2" 12-gauge payload leaves the muzzle at 1,300 fps. Delivers hard-hitting knockdown power. Loaded with our Power Piston® one-piece wad and Magnum-grade Copper-Lokt® lead shot for dense patterns and deep penetration.

PREMIER® MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

Our original Magnum turkey loads. As fine a lead shotshell as you can carry in the woods. Magnum-grade Copper-Lokt® shot is cushioned with special polymer buffering and further protected by our Power Piston® one-piece wad for dense, even patterns. Delivers superb performance and devastating knockdown power out of tightly constricted turkey chokes.

NITRO MAG® BUFFERED MAGNUMS.

Excellent for turkey or long-range pheasants. Heavy payloads of Magnum-grade shot are packed with polymer buffering and enclosed in our patented Power Piston® one-piece wad to provide dense, even patterns and uniform shot strings.

PREMIER® DUPLEX® MAGNUM COPPER-PLATED BUFFERED LOADS.

A specialized layering of Magnum-grade Copper-Lokt® No. 4 shot over No. 6 shot. Larger pellets deliver excellent retained energy and penetration, while smaller pellets enhance pattern density. Awesome versatility for uncertain shooting distances on turkeys and late-season pheasants.

UPLAND

NITRO PHEASANT™ LOADS.

For pattern, energy and performance, nobody beats Nitro Pheasant. The best of our Pheasant load offerings, Nitro Pheasant uses Remington's own Copper-Lok® copper-plated lead shot with high antimony content, the hardest lead we make for hunting. Hard shot stays rounder for truer flight, tighter patterns and greater penetration. So when it comes to bringing down tough birds like pheasant, you need a load that delivers maximum pattern density and lethal energy – you need Nitro Pheasant. Available in both high velocity and magnum loadings in both 12 and 20 gauge.

PHEASANT LOADS.

For the broadest selection in game-specific upland lead shotshells, Remington® Pheasant Loads are the perfect choice. Their high velocity and long-range performance are just right for any pheasant hunting situation. Standard high-base payloads include 12, 16, and 20 gauge.

EXPRESS® EXTRA LONG RANGE LOADS.

Time-proven performance for all upland game. The choice of experienced small game hunters across the country because our Express line offers the best balance of payload and performance. Available in a broad selection of loadings – from 12 gauge to 410 bore – with shot sizes ranging from BB all the way down to 9.

SHURSHOT® HIGH BASE PHEASANT LOADS.

The renowned ShurShot brand is available in a new high-base offering. ShurShot High Base Pheasant offers an ideal balance of velocity and payload to create near-perfect patterns, while its lower recoil helps to minimize fatigue over a long day in the field.

LEAD GAME LOADS.

Budget-stretching shotshells for a wide variety of hunting. Available in 410 bore, 20-, 16- and 12-gauge loadings.

SPORT LOADS.

Economical, multi-purpose loads. Built with our premium Power Piston® wad and plastic Unibody hulls. Loaded with No. 8 shot. Ideal for skeet, trap and sporting clays, as well as quail, doves and woodcock.

TARGET LOADS

PREMIER® NITRO 27® HANDICAP TRAP LOADS.

Designed for long-yardage trapshooting and long-range sporting clays, our custom powder blend, Power Piston® wad and Premier® STS® primer mix have improved the Nitro 27's performance, allowing more consistent velocities, 15% better pattern performance and softer recoil. So if you're looking for tremendous target-breaking performance choose the improved Nitro 27.

GUN CLUB™ TARGET LOAD LINE.

An excellent choice for economical shooting. These high-quality shells are loaded with the same care as our top-of-the-line STS® loads and feature a Power Piston® wad and the reliable STS® Primer mix. Many shooters are discovering that they can get acceptable reloading life while stretching their shooting dollar.

PREMIER® STS® TARGET.

The standard in target shooting reliability. Absolutely consistent from shot to shot. Bar none, the most reliable, most reloadable shells you can shoot. Available in 12, 20, 28 gauge and 410 bore.

MANAGED-RECOIL™ STS® TARGET. Dramatically reduced recoil – 40% less in the 12-ga. load – with target-grinding STS® consistency and pattern density. Ideal for new shooters and recoil-sensitive individuals.

HARLAN CAMPBELL, JR.
Men's Trap All-American
Team Captain

GRAND DOMINATION

COMPETITORS AT THE GRAND CHOOSE REMINGTON® AS THEIR WINNING AMMUNITION.

Great champions think alike. For the fifth year in a row, shooters who used Remington shells won more trophies than competitors using other brands at the 2007 ATA Grand American World Trapshooting Championship. And for good reason! Remington STS® and Nitro 27® target loads

provide softer recoil, better pattern performance, and more consistent velocities (not to mention the most reloadable hull on the market). Isn't it time you switch to Remington and step into the winner's circle?

PREMIER MATCH

PREMIER® CORE-LOKT® ULTRA BONDED®

THE NEW STANDARD OF ACCURACY IN BONDED HUNTING BULLETS. Premier® Core-Lokt® Ultra Bonded®

is a bullet in a class of its own. It is the first and only bullet to successfully maximize the best features of two great types of hunting bullet construction. It delivers the extreme accuracy and retained energy you would expect from a tipped bullet, in combination with the outstanding penetration and weight retention that only a bonded non-tipped bullet could deliver. This unique design provides the hunter a Premier bullet that yields devastating on-game performance from 50 to 500 yards. Premier Core-Lokt Ultra Bonded – the new standard in high-performance hunting bullets.

CORE-LOKT® ULTRA BONDED® EXPANDS RELIABLY AT
ALL REASONABLE HUNTING DISTANCES.

30-06 SPRG, 150-GR. PREMIER®
CORE-LOKT® ULTRA BONDED,
5 SHOTS, .6", 100 YDS.

More accurate. Our unique manufacturing process eliminates jacket stretch for near-perfect wall thickness, which results in better flight stability.

More versatile. A 20% heavier jacket engineered with an innovative wall profile provides better expansion and penetration over a broad range of terminal velocities. **NEW**

More reliable. 50% thicker Core-Lokt section increases mechanical locking of the rear core into the jacket and better controls expansion at higher velocities.

More deadly. Bonded jacket/core design further insures controlled expansion (2x diameter) with up to 95% weight retention for ultimate on-game performance.

The finest big-game bullet in the world is now available to handloaders.
(See page 75 for complete listings.)

PREMIER® A-FRAME™

THE MOST RELIABLE DUAL CORE BULLET MADE.

Premier® A-Frame™ bullets reliably expand at long-range decreased velocities, yet do not over-expand at short-range high velocities. A-Frame will mushroom to a devastating 2x caliber diameter with nearly 95% weight retention. Suitable for all big or dangerous game – the best choice from Alaska to Africa and everywhere in between.

THE COMBINATION OF A-FRAME™ CONSTRUCTION AND PROPRIETARY BONDING PROCESS PRODUCES EXTREMELY UNIFORM, CONTROLLED EXPANSION TO 2X CALIBER DIAMETER WITH NEARLY 95% WEIGHT RETENTION.

Pure lead core is bonded to pure copper jacket with proprietary process

A-Frame™ cross-member stops expansion at optimum diameter of 2x caliber

Progressively tapered jacket controls mushrooming in a uniform and predictable manner for totally dependable on-game results

Protected rear core provides momentum for deep penetration on tough game

PREMIER® ACCUTIP

PRECISELY THE BIG-GAME BULLET OF YOUR DREAMS. It's the most accurate, polymer-tipped big-game bullet available today. Along with match-grade precision, it delivers an unprecedented combination of laser-flat trajectory and devastating terminal performance. Accutip bullets expand quickly – producing an awesome level of transferred energy – to dispatch medium and big game with lightning authority. A thicker jacket and harder lead core regulate weight retention and optimize penetration. Make the switch and, trust us, big game won't know what hit 'em.

PREMIER® ACCUTIP-V

PINPOINT DETONATION. Expect dynamite results. In varmint calibers, AccuTip-V combines superb flight characteristics and match-grade accuracy with a design optimized for explosive on-game results. At impact, AccuTip's gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently. First and foremost, though, it gets there precisely shot after shot – it's the most accurate varmint bullet you can shoot.

AccuTip component bullets are now available to handloaders. (See page 75 for complete listings.)

NEW

17 REMINGTON FIREBALL. LIGHTING UP VARMINTS AND THE WORLD OF SMALL-CALIBER PERFORMANCE.

The newest addition to the lineup, our exclusive 17 Remington Fireball breaks the 4,000 fps barrier with one of the smallest powder charges ever – this means less fouling and more shots between cleanings. It shoots flatter than a 22-250 Remington 55-grain loading and produces virtually no recoil or muzzle jump, so you never lose sight of your target. Now available with 25-grain JHP bullet. (See page 73.)

Gold polymer tip acts as a wedge, splintering bullet into fragments at impact

Thin jacket and soft lead core disintegrate and cause massive terminal damage at all ranges

PREMIER® MATCH

**IF THERE WERE A STRONGER WORD
THAN ACCURATE, WE'D USE IT HERE.**

Ever hear the phrase, "you could drive tacks with 'em?" Well they're probably talking about Remington® Premier® Match ammunition. Using only match-grade bullets, Premier Match ammunition employs special loading practices to ensure world-class performance and accuracy with every shot.

Maybe some day there will be a stronger word than accurate to describe Premier Match. Until then we'll continue to prove it on paper.

AMMUNITION

REMINGTON® ULTRA MAG.™

**BIG GAME'S
HIGHER POWER.**

REMINGTON® ULTRA MAG.™

A revolution in high-performance big-game ammunition. In each of its calibers, the Remington Ultra Mag™ cartridges produce the highest velocities, the flattest trajectories and the highest energy levels available to big-game hunters today. This is due to their large case capacities and innovative non-belted magnum case designs. These cases hold dramatically more powder and align with unmatched precision within the bore, making the world's most lethal family of cartridges the most accurate, as well. Available in the most trusted bolt-action rifle of all time – the Model 700™ – the Ultra Mag™ family is a truly superior gun and ammunition system geared for today's most discriminating hunters.

INNOVATIVE CASE DESIGN RESULTS IN A "NON-BELTED MAGNUM" WITH A LARGER CASE DIAMETER WHICH ALLOWS FOR DRAMATICALLY INCREASED POWDER CAPACITY.

**23% MORE
CASE CAPACITY**

300 Rem
Ultra Mag™

**20% MORE
CASE CAPACITY**

375 Rem
Ultra Mag™

SHORT-ACTION ULTRA MAG.™

Magnum performance in a lightweight, short-action firearm and ammunition package. Premier® Short-Action Ultra Mag™ cartridges offer ballistic performance equivalent to the two most popular belted magnums – 300 Win Mag and 7mm Remington Mag – in a fast handling short-action rifle. They feature a highly efficient case design that duplicates or exceeds belted magnum ballistics with less powder, in turn, generating less felt recoil. Plus, they're inherently more accurate. The cartridge headspaces off the shoulder of the case, rather than a belt, promoting more precise bore alignment. It's big-time performance in a little package.

7mm Remington® Ultra Mag.™ With a muzzle velocity over 3,450 fps, it's one of the flattest-shooting big-game rounds on the planet – flatter than 7mm STW, flatter than a 22-250 varmint load. It's the perfect choice for long-range shots on any North American big game.

375 Remington® Ultra Mag.™ The ultimate in stopping power. With over 5,000 ft.-lbs of energy at the muzzle, it delivers more energy at 200 yards than 375 H&H at 100 yards – and with the same flat-shooting trajectory as a 150-grain 270 Win load.

300 Remington® Ultra Mag.™ The extreme standard for big game. With a 180-grain bullet, it delivers a muzzle velocity of 3,250 fps with 2,160 ft.-lbs of retained energy at 500 yards. That's right, a trained marksman could knock an elk off its feet at nearly a quarter of a mile.

338 Remington® Ultra Mag.™ An excellent cartridge for bear, elk and moose. Loaded with a 250-grain bullet, it delivers over 600 ft.-lbs greater muzzle energy than 338 Win Mag and retains a flatter trajectory all the way out to 500 yards.

POWER LEVEL AMMUNITION.™

One gun. One chambering. The ballistic characteristics of three cartridges.

Power Level Ammunition™ allows you to incrementally tailor the performance of your rifle and ammunition to match your intended game species and hunting range, similar to the way shotgunners use 2 1/4", 3" and 3 1/2" loads. The point of impact between Power Level loads stays within 2" out to 200 yards, so you'll have little to no scope adjustment when changing Power Levels. Now when you choose the 7mm or 300 Remington Ultra Mag™ you're getting three guns in one. Simply put, never before has one cartridge offered this kind of versatility.

POINT OF IMPACT ACROSS ALL POWER LEVELS

POWER LEVEL III MAXIMUM ENERGY — EXTREME RANGE

- 300 Remington Ultra Mag™ performance
- The biggest, toughest game at extreme ranges

Simply the biggest, baddest, flattest-shooting 30 caliber in production today. At 200 yards, it delivers 485 ft.-lbs. more energy than the 300 Wby Mag and 28% more energy than the 300 Win Mag or 300 WSM.

POWER LEVEL II MAGNUM ENERGY — EXTENDED RANGE

- 300 Win Mag, 300 WSM performance
- Medium and large big game at extended ranges

With velocity and down range ballistics that mirror the 300 Win Mag and 300 WSM, Level II is ideal for elk, muleys or whitetails at extended range.

POWER LEVEL I TERMINAL ENERGY — LONG RANGE

- 30-06 Springfield performance
- Whitetail-sized game out to long range

Performs identically to the 30-06, the caliber that's dropped more big game than any other. The optimum deer hunting Power Level — coast to coast.

AMMUNITION

REMINGTON® CORE-LOKT®

THE WORLD'S BEST-SELLING CENTERFIRE AMMUNITION.

Remington® Core-Lokt® – a reputation deserved. Hunters with a knack for filling their deer tag tend to have more than success in common. They trust their hunt to Remington® Core-Lokt®. For more than six decades, it has remained the leader in centerfire deer ammunition. And deservedly so.

The Core-Lokt bullet design is the original controlled-expansion bullet – and one of the most effective ever developed. Its progressively tapered copper jacket is locked to a solid lead core, promoting perfectly controlled expansion and high weight retention for absolutely dependable on-game results. You'll find its time-proven performance in both soft point and pointed soft point versions – and in a range of bullet weights for virtually every centerfire hunting caliber made.

**The Deadliest Mushroom
in the Woods™**

CORE-LOKT® SOFT POINT

Soft point shape
provides broad
frontal area for high
energy impact and
rapid expansion

Bullet cores are "Lokt" in place to

BRONZE POINT® TIPPED

Introduced by Remington®, these were the first bullets to utilize a tipped design. Exceptional long-range performance on medium-sized game. Sleek profile generates flat trajectory. On impact, the bronze tip is driven backward to create rapid, but controlled expansion.

Aerodynamic tip
for superior long-range
ballistics and rapid expansion

POWER-LOKT® HOLLOW POINT

Another breakthrough from Remington® Express® Power-Lokt® delivers unmatched performance for small game and varmint hunting. The thin copper jacket is electrolytically plated to the lead core for near-perfect concentricity and gyroscopic balance. The result? Dead-on, benchrest-type accuracy with instant fragmentation on impact.

243 WIN, 80-GR.

MANAGED-RECOIL™

REDUCE RECOIL TO IMPROVE YOUR

At some point, all shooters feel the negative effects of recoil. Some hunters experience the frustration of missing a target because of flinching. Others know the aggravation of losing the opportunity for a second shot because of the time it takes for scope recovery. Then there's the shoulder pain after a day of hunting or practicing, which may deter future practice sessions. To fight these effects of recoil, Remington® developed Managed-Recoil™ ammunition.

The Managed-Recoil ammunition succeeds where other recoil-control ammunition fails. Past attempts at curbing recoil have focused solely on the amount of gunpowder in the ammunition. Remington's Managed-Recoil focuses on the entire cartridge by incorporating a specially designed bullet built to perform at lower velocities.

FEATURES

- Fully effective hunting performance with less than 50% of the recoil of standard cartridges
- Less anticipation of recoil
- Increased shooter confidence and improved shot placement
- Quicker scope recovery for faster second shot placement
- Point of aim is within 2" of a standard cartridge at 100 yards
- Target practice without the recoil pounding
- Specially designed bullets are optimized to deliver 2x expansion with over 75% weight retention on shots out to 200 yards

FULLY EFFECTIVE ENERGY AND EXPANSION OUT TO 200 YARDS:

MANAGED-RECOIL™

YOUTH AND WOMEN. Managed-Recoil™ allows youth and women to practice and hunt effectively and comfortably with half the recoil. It even lets you use an existing gun without readjusting the scope because "point of aim - point of impact" is nearly identical to standard cartridges at 100 yards.

PRACTICE MAKES PERFECT. For target shooters and hunters who target shoot to improve their performance, Managed-Recoil cartridges provide more time on the range, without the bruises to prove it. After your practice session, you can switch to full-power ammunition without scope adjustment.

MANAGED-RECOIL™ COPPER SOLID™ SABOT SLUG.

The best-selling terminal performance and accuracy of our Copper Solid Slugs is now available in Managed-Recoil loads. With 40% less recoil, they're perfect for anyone who wants outstanding on-game results without the rearward punch.

Model/Box No.	Caliber	Length (in.)	Weight (lb./oz.)	Shot Size	Shot Count	Shot Type
MANAGED-RECOIL™ COPPER SOLID™ SABOT SLUG						
RL12CS	12	2 1/4	1200	1	—	CS

Or, use them to sight-in, then step up to full loads. There's no finer slug load for young or recoil-sensitive hunters.

MANAGED-RECOIL™ SLUGGER® RIFLED SLUG.

Managed-Recoil™ Slugger® Rifled Slugs offer remarkably effective performance with 45% less felt recoil than full velocity Sluggers. With effective energy out to 80 yards, these 1-ounce slugs easily handle the majority of shotgun deer hunting ranges. Also check out Managed-Recoil Buckshot; it's an ideal close-range performer.

Model/Box No.	Caliber	Length (in.)	Weight (lb./oz.)	Shot Size	Shot Count	Shot Type

PSP Core-Lokt

May not operate all recoil or gas-operated firearms

APPLICATIONS

HUNTING WITH CONFIDENCE. Managed-Recoil™ Rifle ammunition is designed for effective hunting performance out to 200 yards with less than half the recoil of a standard load. A shooter not anticipating the heavy recoil of a full load can better place the first shot on a game animal, and quickly acquire the target for a follow up shot.

RECOIL-SENSITIVE HUNTERS. For shooters that are unable or unwilling to tolerate the recoil of a standard cartridge on the range or on the field, Managed-Recoil™ Cartridges are the perfect solution. Effective performance with half the recoil.

50% LESS RECOIL

Remington® Managed-Recoil™ centerfire cartridges deliver 50% less recoil than standard velocity ammunition. Managed-Recoil 270 Win, 308 Win and 30-06 actually deliver less recoil than a standard velocity 243 Win!

LETHAL PUNCH OUT TO 200 YARDS

Managed-Recoil™ rounds pack a lethal punch at the most common deer-hunting ranges. In fact, their energy levels exceed 1,100 ft.-lb. at 200 yards. Managed-Recoil 30-30 delivers 919 ft.-lb. at 100 yards and is fully effective on deer sized animals out to 125 yards.

MANAGED-RECOIL™ BUCKHAMMER® LEAD SLUGS. Managed-Recoil™ Technology has been applied to Remington's most devastating lead slug. We've reduced felt recoil by over 40% to make the BuckHammer® easier on the shooter without sacrificing its on-game performance. The Managed-Recoil BuckHammer 12-gauge slug travels at a fast 1,350 fps at the muzzle and maintains an impressive 1,032 ft.-lb.

of deer-stopping energy at 100 yards. The 20-gauge, at 1,275 fps., delivers 746 ft.-lb. of energy at 100 yards. Standard BuckHammer and Managed-Recoil BuckHammer slugs are designed for use with fully-rifled barrels or rifled choke tubes.

PISTOL & REVOLVER

EVERY APPLICATION, ONE BRAND. Remington® has been making centerfire handgun ammunition longer than anyone. It should then come as no surprise that we offer the broadest line of pistol and revolver ammunition available. With loadings tailored to virtually every potential shooting application, our line includes vast choices of calibers, bullet weights, bullet styles and combinations of all these. Choose from a complete range of traditional bullet styles, as well as from some of the most sophisticated handgun bullets made. All cartridges are assembled from the highest quality components – with meticulous quality control – to assure reliability in all handgun actions.

GOLDEN SABER™ HPJ

DEAD-SERIOUS BULLET INNOVATION.

A superior bullet for when the stakes are at their highest. Designed for law enforcement and personal defense, the Golden Saber™ High Performance Jacket successfully combines: match-type accuracy, deep penetration, maximum expansion and near 100% weight retention.

* Note: These ballistics reflected vented barrel.

Exclusive brass jacket with precision nose cuts controls mushroom and optimizes energy transfer

Case mouth and primer waterproofing for improved reliability

Cases are nickel-plated to reduce oxidation and improve feeding

Specially treated powders suppress muzzle flash

The high-performance jacket expands to a larger diameter than lead core – over 1.6x diameter. Minimal lead deformation retains energy for deeper penetration.

The bullet diameter directly ahead of the Driving Band™ is reduced from groove to bore diameter, so the bullet is precisely aligned before the Driving Band engages the rifling. The result: match-grade accuracy and reduced barrel friction that conserves velocity.

Pistol and Revolver Interchangeability chart is located on page 100.

UMC® AMMUNITION

UMC® HANDGUN CARTRIDGES.

All UMC ammunition is American-made in Lonoke, Arkansas using first-quality factory-fresh brass and clean-shooting Kleanbore® primers to provide the best value for practice, personal defense and hunting.

UMC® RIFLE

CARTRIDGES. Made in the USA, value-priced and ideal for high-volume shooting, our UMC centerfire rifle ammunition is loaded in seven popular calibers including the 30-06 Sprg, 308 Win, 7.62x39mm, 30 Carbine and 303 British. The 45 and 50 grain jacketed hollow point loads in 223 Remington and 22-250 Remington are perfect for varmint hunters. Now

available in
17 Remington
Fireball.

UMC® LEADLESS™ HANDGUN CARTRIDGES.

A must have for shooters that frequent indoor ranges, economical UMC® LeadLess™ cartridges virtually eliminate lead exposure at the firing line. Specially designed bullet actually prevents the vaporization of lead from the bullet's base upon firing. Standard

AMMUNITION

RIMFIRE

PREMIER GOLD BOX™ RIMFIRE. Premium rimfire cartridges super-tuned for accuracy and terminal performance. Available in 17 Mach 2, 17 HMR and 22 Win Mag, Premier Gold Box Rimfire Ammunition is loaded with AccuTip-V polymer-tipped bullets for incredible shot-to-shot consistency, flat trajectory and explosive expansion. Upgrading your rimfire rifle or handgun is as easy as shooting the right ammo. Think Premier Gold Box.

COMPETITION/TARGET RIMFIRE. When it comes to competition-grade rimfire ammunition, there's only one name good enough to share the Remington® brand – Eley. A company with a reputation for the world's most accurate and reliable rimfire ammunition, Eley, Ltd. has teamed up with Remington to offer three grades of their premier 22 long rifle ammunition for the serious target shooter: Target Rifle, Club XTRA and the elite Match EPS. Remington Target ammunition offers the accuracy and economy for Match practice and developmental shooting.

RIMFIRE. Prairie dogs. Tin cans. Or a bulls-eye. No matter what you put in your sights, Remington® offers the perfect 22 rimfire ammunition for any occasion. Remington rimfire ammunition delivers the quality you expect. That's because we put the same level of care into making our rimfire ammunition as we do our centerfire ammunition, so you'll get the maximum performance from every shot.

* **Note: Sight height 1.5" above axis of bore. + These long rifle 22's available in slide-open plastic packs of 100.

COMPONENTS

REMINGTON® RELOADING COMPONENTS. If you reload your own cartridges, then you shouldn't settle for anything but the best reloading components in the business – Remington. We offer industry-leading products that are changing the way sportsmen think about reloading.

More accurate. Our unique manufacturing process eliminates jacket stretch for near-perfect wall thickness, which results in better flight stability.

More versatile. A 20% heavier jacket engineered with an innovative wall profile provides better expansion and penetration over a broad range of terminal velocities.

More reliable. 50% thicker Core-Lokt section increases mechanical locking of the rear core into the jacket and better controls expansion at higher velocities.

More deadly. Bonded jacket/core design further insures controlled expansion (2x diameter) with up to 95% weight retention for ultimate on-game performance.

PREMIER® CORE-LOKT® ULTRA BONDED® BULLETS. World-class accuracy and unmatched reliability on-game were just two of the many reasons our handloading customers demanded Core-Lokt Ultra Bonded bullets.

PREMIER® ACCUTIP BULLETS.

Top off your handloads with the most accurate polymer-tipped big-game bullet available today. Near-perfect concentricity and an overall ballistically superior design make it one of the flattest-shooting bullets in the world. It also expands quickly to dispatch medium and big game with lightning authority.

CORE-LOKT® BULLETS.

"The Deadliest Mushroom in the Woods," now a handloading component. It's the original controlled-expansion big-game bullet, delivering massive energy transfer as it expands to nearly 2x original diameter. For dead-sure reliability, the progressively thickened jacket is locked to the lead core.

- Made in the USA 

OUTDOOR EXPLORATION (WEST)
(4 1/2" Closed) 18954 - Boxed

The West. This is the fourth in a series of four knives incorporating the famous Remington Compass onto the handle and blade. The direction of the compass arrow corresponds with the knife's name, thus, on this model, the needle points to "The West." The unique display box is designed to stack in a manner that progressively builds a Remington Country image on two sides.

HERITAGE SERIES KNIVES

- 440 stainless steel blades and pins
- Brass liners
- Available in Green Jigged Bone or Laminated Wood handle
- Bolster etch "Remington Arms Co." crest dates back from 1888-1914

Order No. 19054

Order No. 19052

FIELDMASTER® KIT

- Brass 3-piece rod with swiveling handle
- Rem® Oil (1-oz.) & Brite Bore™ (2-oz.)
- A wide variety of patches and patch pullers
- Brass pistol and shotgun adapters
- An assortment of bronze bore brushes for 22, 270 and 30 calibers as well as 12 and 20 gauges
- Attractive wooden box

Remington cleaning kits readily accept standard #8-32 cleaning brushes, mops, jags and standard shotgun brushes/mops. (The rimfire rod in the Targetmaster accepts .17 components, and has an adapter for #8-32 accessories.)

GUN STORAGE & CLEANER

BORE LIGHT

- Ideal for inspecting used firearms, cleaning firearms and inspecting bore for obstructions
- Includes both curved and straight light tubes
- LED light eliminates intense glare
- Compact size

Order No. 19495

REM® PAD GUN CLEANING MATS

- Surface material won't scratch guns or tabletops
- Absorbent top material traps and holds up to eight times its weight in fluids
- A non-slip vinyl bottom forms a barrier to prevent spilled fluids from soaking through
- Fully machine-washable

17"x28" – Order No. 18812
16"x54" – Order No. 18813

MODEL 365 MINI DEHUMIDIFIER

Order No. 19950 (Clampack)

- Protects 30-60 days before recharging is necessary
- Self-contained unit requires no wiring or extension cords
- Recharges easily in a few hours
- 5-year warranty

Order No. 19948

16" PLUG-IN DEHUMIDIFIER

- Works by gently warming the air inside your safe which helps in minimizing moisture
- 6' cord comes with easily assembled plug to allow installation using a small hole in back of safe
- Protects even up to 200 cubic feet – more than enough for the largest gun safes

TRIGGER BLOCKS

3-Pack – Order No. 19439
Single – Order No. 18491

CABLE LOCK

- Fits most shotguns, rifles & pistols
- California approved

Order No. 18364

REM DRI™ 35 DESICCANT

- Removes moisture to prevent rust corrosion and eliminates odors in gun safes and cabinets
- No electricity required, easy-to-read indicator
- Rechargeable for multiple uses, non-toxic
- Protects up to 35 cu. ft. of enclosed space

Order No. 19952 (Clampack)

VCI Remington's Moistureguard™ VCI/Oil Blend is the most scientifically advanced formula for **TECHNOLOGY** lubricating and protecting metal surfaces and equipment from rust and corrosion. It's the perfect combination of our premium Rem® Oil rust preventative and new Volatile Corrosion Inhibitor (VCI), providing ultimate protection against the harshest of elements. Designed for long term protection, it should be the last application prior to storing any metal equipment.

MOISTUREGUARD™ REM® OIL

- Guards your hunting, fishing and marine gear from rust and corrosion
- Protects all metals from rust and corrosion
- Displaces moisture
- Lubricates, cleans and protects
- Built from Rem Oil
- Using Volatile Corrosion Inhibitor Technology
- Comes in: 6 oz. spray pump – Order No. 18378

NEW

CLEANING CHEMICALS

REM® OIL

- Cleans dirt and grime from exposed metal surfaces while displacing non-visible moisture from metal pores
- Protects internal and external metal parts from rust and corrosion
- Exclusive Teflon formula provides a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear
- Comes in: 10 oz. aerosol can – Order No. 24027,
4 oz. aerosol can – Order No. 26610, 2 oz. bottle with child resistant cap in footed clamshell – Order No. 18366,
1 oz. squeeze bottle in footed clamshell – Order No. 26617

REM® ACTION CLEANER

- Easily cleans dirt, powder residue and caked-on lubricants from disassembled actions and fire-control mechanisms
- Dries quickly and leaves no residue
- Comes in: 10.5-oz. can with jet-spray extension tube – Order No. 18395

REM® DRILUBE™

- Teflon-based lubricant provides a tough, non-congealing film without the residue of dry graphite lubes
- Keeps firearms functioning dependably to -40°F
- Comes in: 4 oz. aerosol can – Order No. 18396

REM® OIL WIPES

- 6" x 8" wipe cloth saturated with Rem Oil
- Comes in: 12 Count Clamshell – Order No. 18411 and
100 Count Display – Order No. 18473

SHOTGUN CLEANER

- Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes
- Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk
- Blasts away gummy caked on grime from hard to reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses
- Contains no CFC's or carcinogens – safe for polymers
- Comes in: 18-oz. aerosol can – Order No. 18472

40-X™ BORE CLEANER™

- Formerly Remington Bore Cleaner
- 40-X name ties into the products origins in Precision Benchrest Shooting
- Uniquely formulated for rifles to improve cleaning, accuracy and performance
- Fast and easy to use – no soaking or foul odors
- Packaged in tri-fold clamshells

(280 REMINGTON - 300 WIN MAG)

Note: These ballistics reflected a test barrel length of 24" except those for 30 Carbine and 44 Remington-
Magnum which are 20" barrels. Specifications are nominal. Ballistics figures established in test barrels.
Individual rifles may vary from test barrel results. "zero" indicates yardage at which rifle was sighted in.
* Inches above or below line of sight. Hold low for positive numbers, high for negative numbers.
† 280 Remington and 7mm Express, Remington are interchangeable.
‡ 6mm Remington and 44 Remington are interchangeable.
1 Bullet does not rise more than 1" above line of sight from muzzle to sighting-in range.
2 Bullet does not rise more than 1" above line of sight from muzzle to sighting-in range.

(300 WIN MAG - 45-70 GOVERNMENT)

Note: These ballistics reflect a test barrel length of 24" except those for 30 Carbine and .44 Remington-
Magnum which are 20" barrels. Specifications are nominal. Ballistics figures established in test barrels.
Individual rifles may vary from test barrel results. "Zero" indicates yardage at which rifle was sighted in.
* Inches above or below line of sight. Hold low for positive numbers, high for negative numbers.
† 280 Remington and 7mm Express, Remington are interchangeable.
‡ 6mm Remington and .244 Remington are interchangeable.
¹ Bullet does not rise more than 1" above line of sight from muzzle to sighting-in range.
² Bullet does not rise more than 3" above line of sight from muzzle to sighting-in range.

244 Remington	7.65mm Automatic Pistol	32-20 Marlin	38 Remington (SEE NOTE A)	45-70 Marlin
25 Automatic	7.65mm Browning (not interchangeable with 7.65mm Luger)	38 S&W	38-40 Win.	45-70 Win.
25 Auto. Colt Pistol (ACP)		38 Colt New Police	38 W.C.F. (SEE NOTE A)	45-70-405
25 (6.35mm) Automatic		380 Webley		

NOTE A: High-speed cartridges must not be used in revolvers. They should be used only in rifles made especially for them.

NOTE B: Ammunition with "+" P on the case headstamp is loaded to higher pressure. Use only in firearms designed for this cartridge and so recommended by the gun manufacturer.

NOTE C: Not for use in revolvers chambered for 32 S&W or 32 S&W Long.

NOTE D: All 38 Special cartridges can be used in 357 Magnum revolvers but not conversely.

NOTE E: 9mm sub machine gun cartridges should not be used in handguns.

NOTE F: 44 Russian and 44 S&W Special can be used in 44 Remington Magnum revolvers but not conversely.

NOTE G: Not to be used in Win. M-66 and M-73.

1 NOTE: LT-20, 20-gauge Lightweight barrels (4000 Series) will not fit pre-1977 20-gauge Lightweight or standard 20-gauge Model 1100 [®] shotguns. (Refer to parts list for pre-1977 barrels.) 2 Rifle-sighted Rem [®] Choke Deer barrels supplied with Rifled and Imp. Cyl. Choke tubes. 3 Supplied with Full Choke only. Please note the following ammunition recommendations for use with the Model 1100 [®] steel shot barrel. When used with Model 1100 [®] Magnum shotguns: - Use 2 3/4" magnum or 3" magnum steel shotshells. - Use 2 3/4" magnum or 3" magnum lead shotshells. When used with Model 1100 [®] non-Magnum shotguns: - Use 2 3/4" magnum or 3" magnum lead shotshells. Do not use 3" magnum lead shotshells in non-Magnum Model 1100 [®] shotguns, as this will cause extra wear and decrease the life of the gun.
