March 3, 1947

TO: V.O. REMINGTON  
 FROM: E.A. WILLIAMS  
 SUBJECT: WYAL RIFLE - REVISION ESTIMATE WY-17  
 Reference: Letter Williams, February 28, 1947

We are in receipt of the reference letter concerning the revised estimate for the WYAL rifle.

It is noted that the letter contains the statement that the plant Methods & Standards Department "has not confirmed" the WYAL estimate. Apparently this statement is a typographical error which probably was intended to read "has not confirmed" the estimate.

Up to this date the Section has not received the Technical Department estimate of WYAL costs in detail and, therefore, is not in a position to confirm such an estimate.

E.A. Williams, Superintendent  
 Methods & Standards Section
