 November 4, 1946

TO: K. C. GILMORE
 ILION

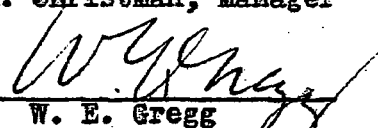

FROM: J. M. CHRISTMAN

SUBJECT: PROJECT FD-721 PART I

Several weeks ago while at Ilion, J. P. Bilgren had you prepare a revised face sheet for the above project. In checking the proposed new face sheet with R. D. Jack, it has been decided that the new face sheet should not be released except to the Accounting Department. However, if it should be necessary to request a Part II to this project, the corrections included on the revised face sheet should be picked up at the time of preparing the Part II.

Will you please, therefore, dispose of the copies prepared, retaining one copy in your project file for future use in case a Part II must be written.
