SUBJECT: WZL-721-722 MOUNTS

Attached hereto is a summary of information which you requested regarding mounts for WZL-721-722 rifles.

You will note that we have not included price information on Griffin & Howe Mounts since there appeared to be some question as to practicability of attempting to install this Mount at Elion.

In addition, we have not as yet received quotations to show discounts on the Axley "Snap-On" Mounts. This will be forwarded later, when received.

We are forwarding to W. B. Parsons copies of the various quotations which have been received in this connection.
