Mr. Mike Walker

Dear Sir,

Joe Price was in yesterday & I was complaining to him about the trigger on my 40X rifle. I showed him where it has a lot of side movement & drag or creep before it goes off. I am quite concerned about this as there is no way of removing either. I have a 37 Rem. that I think has a far superior trigger.

Is there anything you can do for me? I don't want to have to get rid of the gun, but I can't use it with the present trigger. Would you send me a new trigger complete & I'll return the old one to you?

Sincerely,
E. J. Beagle
