## Center Fire Rifles

Center fire rifle volume has been affected by new competition as follows:

1952 - Higgins 50 Bolt Action 1953 - Savage 340 Bolt Action 1954 - BSA 222 Bolt Action Marlin 322 Bolt Action 1955 - Marlin 336 SC Lever Action (219 Zipper) Winchester 88 Lever Action Winchester 88 Lever Action
Schultz & Larsen 54J Bolt Action
Sako Hi Power Mauser Bolt Action
Husquarna 4000-4100 Bolt Action
1956 - Higgins 52 (222) Bolt Action
BSA - Complete Line - Bolt Action
Marlin 455 Bolt Action
1957 - Colt 57 Bolt Action
1958 - Savage 110 Bolt Action
(See Chart #5 and #10)

(See Chart #5 and #10)

There was a large drop in M/721-722 sales in 1954. (See Chart #5 and #10). The introduction of the M/760 in 1952, together with other competition, hurt the sales of the M/721-722 only slightly for 1952 and 1953. The introduction of two new calibers in the M/721-722 in 1955 increased its sales again for 1955 and 1956 and then it declined in 1957. (See Chart #5 and #10.) The biggest drop came in 1954, probably due to the M/760 and new competition (See Chart #5).

In 1955, when the M/740 was announced, the M/760 dropped in sales probably directly attributable to this announcement. (See Chart #5 and #11). The M/740 sales dropped off after one year in 1956 and is consales dropped off after one year in 1950 and is continuing to come down even though it has no competition from any other autoloading arm. (See Chart #5). The addition of two new calibers (.280 Remington and .244 Remington) in the M/74C in 1957 did not increase its total sales over the year 1956. (See Chart #12). The addition of two new calibers (.308 Win. and .222 Rem.) in the M/76O in 1957 did not increase its total sales over the year 1956. (See Chart #11).

## Rim Fire Rifles

Rim fire rifle sales have been affected by new competition between 1951 and 1954. (See Chart #6).

1952 - Marlin 89C Clip Autoloader 1953 - Mossberg 142K Bolt Action Higgins 31 Tubular Autoloader Winchester 77 Clip Autoloader Winchester 77 Tubular Autoloader
