

Customer Appeal

Light weight of a 28 and 410 but man-sized gun.

Color, light wood.

Reliable M/870 arm.

Remington Benefits

Lower capital investment for tooling.

New gages in slide action line where Remington does not now compete.

Lower price competition.

Reliability of M/870 design.

- (14) 25 Cal. H.V. R.F. on M/572 Chassis or Other R.F. Chassis

Specifications

With the new stronger lock up system in the M/552 a 25 cal. should be feasible in this gun. Provision would be made in design for this larger shell, otherwise the gun would be about the same as the M/572 with possibly the addition of a scope, sold with the gun. Could be made in color and light wood.

Customer Appeal

New high velocity rim fire varmint gun.

Simple reliable, light weight, man-sized rifle.

Lower cost ammunition than C.F. varmint ammunition.

Remington Benefits

New gun with low capital outlay.

Good competitive position with C.F. varmint guns.

Common parts with M/552-572.

Something new from Remington.

- (15) M/552-572 Clip Magazine

Specifications

Built on M/552-572 chassis with fewer but common components.

Clip magazine.
