Excerpt from Operations Committee Minutes No. 5 - 1959 (September 1, 1959):

"The Operations Committee, Ilion Division, recommends Management approval for dropping, without obsolescence calibers 222 Remington, 244 Remington, and 35 Remington in Model 760 Rifles; and caliber 244 Remington in Model 740 Rifles, based on demonstrated low volume of sales."

The plant has been operating on the basis that Management would approve the Operations Committee's recommendation. The next production run of Barrels for Models 722 and 725 would have to start in December for the 1960 requirements.
