MODEL 700

R. & D. has released to the plant part of the model drawings for the Model 700. The balance is promised by April 15.

Based on the decision at the April 4 Operations Committee Meeting that the Model 700 "A" and "ADL" grade guns should be ready for announcement January 1, 1962, the plant is proceeding with the tool design and other equipment procurement required for the introduction of this model.

It is indicated that plant expenditures will not exceed five thousand dollars (\$5000) prior to project approval.

D. E. Miller
