

DRAFT

REMINGTON ARMS COMPANY, INC.

General Information

Project No. _____ - Ilion Works

INTRODUCTION

Under Part I of this project \$ _____ was authorized and preliminary designs were developed for the new center fire rifle Model XC-13 and the XP700 single shot pistol.

Indications are that most hunters in the East prefer lighter weight guns in the field for easier handling and less carrying fatigue. Interest also has increased greatly in the past few years in sidearms due to the development of new calibers such as the 357, 44 and 22 Caliber Magnums and other jet type cartridges. Varmint hunters and target shooters have shown much enthusiasm due to light weight, range, trajectory, ease of handling and accuracy of this pistol.

Models of both types of guns have been made for evaluation using wood stocks, however, further work will be necessary to develop molded stocks for ~~both models~~ ^{the pistol} and test for endurance.

The pistol and rifle will have the ~~same~~ ^{similar} bolts, receivers, sights, with nylon stocks ^{for the pistol} and ribbed barrels. The pistol is a single shot model and the center fire rifle will have a five-shot capacity. It is planned to introduce Caliber 222 Remington Short Magnum in the pistol and 222 Remington and 308 Calibers in the center fire rifle.

INTRODUCTION (Continued)

Based on forecast third year sales, as shown below, the proposed selling prices and estimated operative earnings are:

	<u>Proposed</u>
<u>700 Pistol</u>	<u>X C-13 C.F. Rifle</u>

Sales Quantity
Retail Selling Price
Net Selling Price
Operative Earnings
% of Net Selling Price

DESCRIPTION OF PROPOSED WORK

It is proposed to complete the development of the models and procurement of tooling and equipment necessary for production volume Model of pistols and Model of Center Fire Rifles and and respectively for the third year.

PATENT STATUS

(Write J.H. Lewis, Jr., Bpt. - wrote 1/4/62)

REMARKS

Subdivision 5 indicates an estimated increase in net earnings of \$_____ in the third year of operation, resulting from this project, equivalent to a net return of _____% on investment.

DON'T SAY IT—WRITE IT

TO J. H. LEWIS, JR. - Bridgeport

DATE Jan. 4, 1962

FROM J. A. ROBERTS - Elion

We are now in the process of preparing a project covering the
XC-13 Center Fire Rifle and XP-700 Single Shot Pistol combination.
Would you please prepare for us the proper patent statement to be
included in this project?
