MESSAGE:
You perhaps note that hand guns still dominate the shooting
range or especially covers. The XP-100 covered previously given them
something to write about at the office. You may have noted the
play on Brownings 3 - new picture. The single shot Remington
is pictured often on the XP-100 should "kill it".
We have no intention to put it - only to be ahead
of competition - so doing not let's spill it early?
With limited space in hand - signed for some pen
