Dear Wayne-

When we shot the XP100 a year ago, I believe you had a model with a clip. If such a clip can be developed, - We have a good potential for sales to L.E. Depts if we could have 5 shot or 10 shot clips.

Features would be (1) ease of handling.

(2) - extreme accuracy (3) less danger of ricochet over heavy bullets - #13 Point 18 OF MUCH CONCERN TO L.E. agencies. (4) Metal case bullets for penetration. What's your reaction?

Best regards - Tony.
