PROJECT AD XP-700-2
Model XP-100 Pistol and 600 Rifle

In accordance with your request, the following is a proposed patent statement for the subject project:

Consideration of the designs for both the pistol and rifle indicates that no patent infringement will be involved.

A design patent application is being prepared to cover the appearance of the pistol. A search has indicated that the fire control mechanism of the pistol and the rib mounting scheme for both contain some novelty. Patent applications will be filed to cover both these inventions.
