Dear Mr. Sturrock:

We have received Reagan Robinson's .222 Magnum M/40X  
Center Fire Rifle. After checking, it was found that the sear lever  
in the 2-ounce trigger assembly was broken. We have replaced the  
trigger assembly without charge and the rifle has been shipped.

If we can be of any further assistance please feel free to call  
on us.

Sincerely,

M. H. Walker, Chief Designer  
Ilion Research Division
