TO:

WAYNE LEEK *un*

FROM:

J. W. PHIPPS

As you can see, the attached letter has been marked for your answer by Doc Calhoun. I am sure that you have ready answers for all of the questions.

In the third paragraph there appears to be some contradiction, in that, Mr. Hartshorne seems to realize that a special load had to be made for the XP-100. It certainly makes more sense to have a completely new cartridge instead of a special load for an existing cartridge.

Jack
JOHN W. PHIPPS,
Associate Patent Attorney.
