REQUEST FOR E.S.D. ASSISTANCE FOR R&D DIVISION

Reference is made to our recent discussion about the assignment of a field engineer to our Special Products Group. We have been informed that the contract with Springfield Armory has been approved and we are requesting that one of your engineers be assigned to help prepare the mathematical data for the computer analysis. It is also planned to use this man to assist in the development of the basic design and other functions. Please contact with his qualifications.

We suggest that you contact Mr. Franks and ask him to visit Illion within the next week to discuss the latest developments of this project that will effect his initial program study.

S. M. Alvis, Manager  
Illion Research Division
