Dear Merle:

Thank you for your letter of June 4th detailing your grades, etc. Du Pont has let us borrow two engineers for a period of time so that we can take more time in securing permanent help. For this reason we are going to delay our decision until we have examined more applications.

We want to thank you for your efforts in coming to Ilion for an interview. If a favorable decision is reached you will hear from us again.

Sincerely,

M. H. Walker, Chief Designer
Ilion Research Division
