MODEL 600 - INSTRUCTION FOLDERS

With the recent decision to call the Model 600 a Carbine instead of a Rifle, decision must be made as to disposition of the folders and the carton labels which are all printed up as "Rifles". I am not too well acquainted with the legal ramifications so will need your help in obtaining a prompt decision as to whether or not the present materials will have to be scrapped. Of importance is time since they require several weeks for reprint, which in turn would obviously effect packing, although there could be some re-labeling.

What's the matter with perhaps getting a new label but use up the old folders?

Unless we hear from you to the contrary, that is what we will do.
