DATE April 16, 1964

Attached are copies of two letters received from a Mr. C.A. Briggs pertaining to a magazine system for the XP-100 Pistol. He claims it to be of 12 shot capacity and advises that if we are interested he would show us a model.

I am turning this over to you for proper disposition. It might be that we would have sufficient interest to examine Mr. Briggs' approach, but feel that this matter should be handled in the legal manner.
