Spec 2-54

Birmingham June 20
Gentlemen

I have one of your XP 100
and like it fine. all but the
single shot part. so after
considerable thought and tinkering
I made a magazine for XP 100
it is a 12 shot magazine. the only
change I made on gun was to enlarge
one screw hole. and that really
was not needed. but I didn't have
screw to fit your thread. anyone
could put it on their fire fall
in a few minutes and of course on
future fire falls you make
that you might be interested
if so let me know

Yours truly
D. R. Briggs
