Major R. Lang
U.S. Army Marksmanship Training Unit
Fort Benning, Georgia

July 29, 1964

Dear Major Lang:

BLOCK SEAR FIRE CONTROL ASSEMBLY

Enclosed please find Remington Arms Company, Inc., assembly and detail prints for the above mentioned Fire Control Assembly which you discussed with and requested from Mr. M. H. Walker.

We feel that this assembly will not give you all that you desire in improvement over a tuned up standard fire control. It is a question of whether or not the trigger pull will be improved and the lock time may be increased. We do not have measurements of this force and lock time on this assembly.

If there are further questions we will do our best to answer them.

Very truly yours,

John W. Brooks
Rion Research Division
