Estimate File #2659

January 13, 1966

P. B. CROOP

MODEL 402P, 700 TRIGGER HOUSING ASSEMBLY
POWDERED METAL SPACERS, RIVETED ASSEMBLY

The attached estimate indicates a gross annual savings of \$8,550 by changing from staking and bracing to riveting Model 700 Trigger Housing Assemblies, using powdered metal spacers.

The net effect on working capital is a reduction of \$5,230 with an investment of \$1,100 for a high speed riveter.

As shown, the return on total capital required, including operations charges of \$10,900 for new tooling, gages and changes to vendor tooling, amounts to 61.2%.
