

TOM ADDISON'S GUN SHOP

SPORTING FIREARMS SALES AND SERVICE

Phone: 847-4566

KISSIMMEE, FLORIDA

March 30, 1966

Mr. Wayne E. Leek, Firearms Design & Research Division
Bridgeport, Conn.

Dear Mr. Leek:

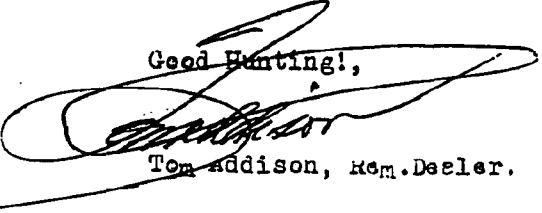

I very Well-Read your "Write-Up" in the latest
copy of --Remington Arms & Ammo Dealer.

I have personally watched with great interest
the Great Development of Remington Arms in the past year and
years gone-by!.

Today, and for this year of 66--we are watching
and hoping that you will Just-Go-A-Little-Farther and make the
All-New Model 600 Magnum Calibers --With--a 20-Inch Barrel. As,
this would Round Out The-Magnum-Calibers--giving them Just a
Little--MORE of what they are intended for!

We, believe Les Bowman would Vote for this above
20-inch sb!.. We hunt in the Great-West, as it is one of the
very Greatest Proving Grounds in the World!

Thanking you for your valuable time and hoping
you will continue in this great work!.

Good Hunting!,

Tom Addison, Rem. Dealer.

P.S.

We have a 200 Yard--Test-Range--In Our Back YARD!, We
Test Many Loads and Rifles--Rem. Win. Weatherby's Etc.

WE ARE DEDICATED TO YOUR HUNTING AND SHOOTING PROBLEMS
