TO:

J. E. DICKEY

FROM:

F. E. MORGAN

This morning you again indicated you would like to see a recap on the project figures vs the 1968 forecast for specific models.

I am sorry I did not get this information to you sooner, but they are as follows:

| | Project Volume | 1968 Forecast* |
|------------------|----------------|----------------|
| Model 580 series | 24,000 | 26,000 |
| Model 590 series | 4,800 | 12,000 |
| Model 788 | 25,000 | 25,000 |
| Model 660 | 20,000 | 22,000 |

Volumes were not established to justify changes on the Models 742, 760 and 870. Said changes were made on the basis that they were needed to sustain our current volume, and hold our position in the market.

Estimated 1967 sales vs the 1968 forecast is as follows:

| | 1967 * | 1968* | |
|----------------|--------|-------------|---------------------------------------|
| Model 742 | 57,000 | 60,000 | SALES |
| Model 760 | 21,000 | 23,000 | DEC 7 1967 |
| Model 870 | 80,000 | 85,000 | J. E. D. |
